All students must graduate with a minimum of 124 hours, 36 of which must be at the 3000/4000 level.

### Notes about major requirements:

- The interior design curriculum is designed to provide the skills, knowledge, and learning experiences that prepare students for professional careers with interior design and/or architectural firms, other design-related fields, or graduate education. The academic preparation addresses competencies necessary to maintain accreditation through the Council for Interior Design Accreditation (CIDA) and prepares students with the knowledge and skills necessary for passing the National Council for Interior Design Qualification (NCIDQ) exam leading to design certification and preparation for licensure.
- The interior design program requires that each student present for formal review a portfolio of design projects the term before entering interior design studio classes at the junior level. This review is a selective process by which external reviewers representing various areas of the design profession, under the guidance of the interior design faculty, identify students who are prepared in skills and knowledge to proceed to the junior level studio courses.
- Courses with an * indicate Fall ONLY or Spring ONLY.
- Freshman students declaring interior design as their major field of study should register for FCS 1332 and 1313 their first semester.
- Interior design courses must be taken in sequence.
- A student entering the program after their freshman year or transferring to Baylor with 30 plus hours, please be advised that due to course sequencing and prerequisite requirements, it will take a minimum of three to four additional years to complete the interior design degree. This is dependent on status of degree upon entering the program.
- English requirement: Students are allowed to take either ENG 1304 or FAS 1118, 1128, and 1138. Students majoring in the sciences may take ENG 3300 instead of ENG 1304.
- A grade of "C" or better in all FCS courses used for the major and a "C" average in courses taken outside the department.
- Check your degree audit often through BearWeb to ensure that you are making timely progress toward your degree.
- For more information, see the undergraduate catalog.

Please see reverse side for important information on general requirements.
Notes about General Requirements:

• Course selection is subject to availability within each semester.
• Please keep in mind that this is only a suggested sequence. Actual sequence will vary according to possible second major, minor, other program of study (including pre-health), and individual circumstances (ex., transfer credit, dual credit, and credit by exam).
• In order to complete your degree, you must fulfill all requirements in your major and general requirements for the Bachelor of Arts.
• To complete a double major, you may not count any courses toward both majors.
• For more specific information on general requirements, see the undergraduate catalog.
• Check your degree audit often through Bearweb to ensure that you are making timely progress toward your degree.
