Faculty Senate 1994-95

This card is provided as a reference to your Faculty Senate. On the reverse side is the listing of the 1994-95 membership. Person(s) that represent you and your school/college are highlighted.

Please contact your representative(s) regarding academic matters that you feel need to be discussed. Your input to the membership of the Faculty Senate is encouraged. We need to have communication with all of the faculty for us to be the representative body that we need to be.

This year we are already discussing the mission statement for the self-study, academic integrity, and the Committee on Committees. Input on these topics and others is encouraged.
