“I felt that there was a clear emphasis throughout the program on the importance of leading with integrity and servant leadership in professional and personal capacities. As a community leader and social entrepreneur, leading with integrity is especially important to me as I maximize my business networks for public good.”

LAURA DURAN

HISPANIC SCHOLARSHIP CONSORTIUM (HSC)

CONNECT – COMMUNICATE – CREATE RELATIONSHIPS

“I was concerned about time away from my family, but the evening classes worked well for me. Collaboration with my classmates is so much of the learning. Within my study group, it’s like having tutors who are all experts in their respective fields. The Baylor program fits with my schedule, my life and my values.”

THE CAPACITY TO LEAD; THE DESIRE TO CONTRIBUTE

We encourage and prepare
you for servant leadership
at home and abroad.

“The Baylor EMBA Program allows business professionals to apply cutting edge research in a developmental atmosphere with peers who are interested in mutual success. This support system permits the professors to raise topics that would otherwise be off-limits. In every class, we are involved in frank discussions and problem solving efforts and address complex problems that people are facing at work.”

CHRIS MEYER
PROFESSOR OF MANAGEMENT AND ENTREPRENEURSHIP

“The quantitative tools delivered in MBA programs have expanded dramatically over the last decade, and the computational power in our laptops allows everyone to use these tools. Consequently, it is my firm conviction that in today’s hyper-competitive environment, all MBAs must master the skills needed to model and analyze complex investment alternatives.”

JOHN MARTIN
PROFESSOR OF FINANCE AND
CARR P. COLLINS CHAIR OF FINANCE

Fewer than five percent of business schools worldwide meet the rigorous standards of AACSB International accreditation. This distinction is an achievement requiring a tremendous amount of effort. It’s worth it. AACSB International accreditation continuously challenges business schools to perform at the highest level. Prospective employers are assured that graduates come from a program where the content and quality have been meticulously evaluated by a team of peer reviewers, including deans of some of the world’s most prestigious business schools. This process ensures that programs at AACSB International accredited schools are current, provide relevant knowledge, and reflect an understanding of today’s complex business environment.

○ THE WASHINGTON EXPERIENCE

This five day, in-residence program is custom-designed to provide you with the interface between business and government through exposure to the dimensions of public and international trade policy. Application of this knowledge will enable you to contribute even further to your own and your company’s strategic thinking. You will interact with members of the Board of Governors of the Federal Reserve System, international trade and economic policymakers, as well as the executive branch of government on Capitol Hill.

“The Baylor MBA program in Austin taught me to view business in a more holistic way, resulting in a major career change for me. I no longer have tunnel vision and see things much more broadly. I have come to really value diversity of thought and see how different perspectives come together to create great solutions.”
