

# Baylor in Brazil

Summer health missions  
and study abroad program

[www.baylor.edu/soe/baylorinbrazil](http://www.baylor.edu/soe/baylorinbrazil)

## *An opportunity to help...*

A group of Baylor students will spend 5 weeks in Brazil this coming summer to partner in health missions with Brazilian churches in the southeastern state of Espirito Santo. The students will:

- Train church leaders to develop health mission outreach programs.
- Provide spiritually-focused drug abuse prevention programs for youth.
- Help churches host health fairs (blood pressure screening, first aid kit distribution, nutrition education, faith-based stress management training).
- Use puppets to teach children about health & spiritual well-being.
- Help with children's Bible school.
- Complete public health courses to learn how to promote global health.

## *You can help!!*

Equipment and supplies needed for this work can be costly. Some specific needs are listed below.

- **\$2000** for health promotion equipment (e.g., glucometers, blood pressure monitors) provided for church use in their year-round health ministries.
- **\$1200** for toothbrushes/paste, pedometers, and other *gifts* to children/adults that promote healthy habits.
- **\$800** for equipment/supplies needed for puppet ministry, children's Bible school, and Christian drama ministry.
- **\$500** for materials used to train Brazilian churches to promote health and spiritual well-being in their communities.
- **\$100** to purchase single items our church partners cannot afford (e.g., a heart model or puppet used in health education programs)

For more information about how to help support the *Baylor in Brazil* program, contact the directors:

- **Dr. Eva Doyle**, Director, Master of Public Health Program
