

Presentation Classroom Instructions – MGJ 111

Instructions available online at www.baylor.edu/astc/instructions

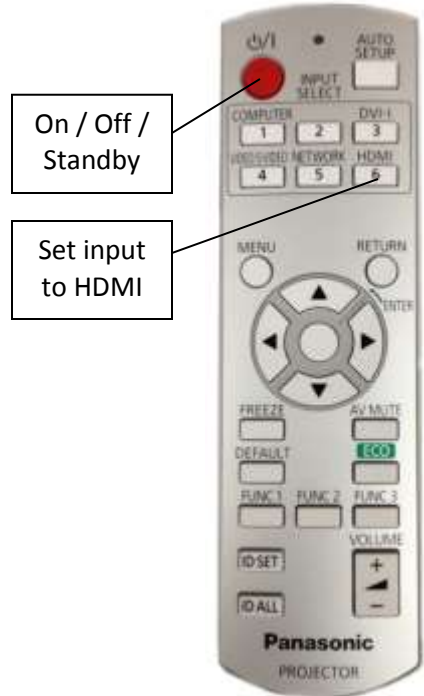

MGJ 111 is equipped with an electric screen, projector, and computer.

Screen Controls

The screen is controlled by a switch on the wall near the instructor computer.

The Projector

1. Point the projector remote toward the projector and press ON.
2. If you are not getting an image, make sure HDMI is selected on the remote.

Computer

1. Log in with your BearID and password.
2. Control volume using the computer volume control.

Presentation Remote

1. Turn on the remote by removing the receiver from the remote.
2. Plug the receiver into a USB port on the computer.
3. Use the remote to control PowerPoint presentations (or scroll pages in other applications).
 - The right button advances to the next slide or page.
 - The left button returns to the previous slide or page.
 - The top button beams the laser pointer.
 - The bottom button blanks the screen. Press again to recover.
4. Insert the USB receiver into the remote with the logos facing the same direction. Both pieces must stay together for the remote to work.

Shutting Down

1. Press the red STANDBY button on the projector remote control TWICE to turn off the projector.
2. Toggle the screen wall switch to the top position to raise the screen.
3. Log out of the computer.
