ALERT!!!

All Baylor University e-mail accounts have received an increasing number of Phishing e-mails recently. Phishing e-mails attempt to trick the recipient of the e-mail into disclosing personal or confidential financial information. Phishing e-mails typically convey a sense of urgency for the recipient to respond and will refer to a Web site that requests personal information such as account numbers, usernames, passwords, social security numbers, and dates of birth. Examples would be Citibank, Paypal, Ebay, Chase, and Baylor University. You should not click on any links contained in such e-mails. If you have a concern regarding a legitimate account you do have at a business or financial institution, you may contact their Web site by opening a web browser and typing in the web address yourself. Baylor University and other businesses will not send e-mails requesting confidential information or the verification of that information. If at any point you receive a suspicious e-mail, you should delete it. If you have concerns about the message of the e-mail, please contact the Help Desk at 254-710-4357 immediately.

The Health Center Now Accepts Your Health Insurance

The Health Center has developed a new resource for students to ensure that you will be able to benefit from your health insurance coverage. For your convenience, your insurance company will be billed for services you receive. You're responsible for a co-payment that will be charged to your student account. The co-payment is determined by your insurance company. You are also responsible for services not covered by your insurance plan. The Baylor Health Center strongly recommends students maintain adequate health coverage, but services are provided to all Baylor students regardless of their health insurance status. If you do not have health insurance, services provided will be charged to your student account. This resource will be available in the fall of 2006. To take advantage of this opportunity, you will simply present your insurance card at the time of service so the Health Center can begin billing. For additional information, contact the Baylor Health Center at 254-710-1010 or Highland Campus Health Group Insurance Billing Department at 1-888-890-6390 or visit www.baylor.edu/health_center.
