What started out as a filmmaking adventure transformed into much more when these boys from Southern California discovered a tragedy that disgusted and inspired them, a tragedy where children are both the weapons and the victims. After returning to the States, they created the documentary "Invisible Children: Rough Cut," a film that exposes the tragic realities of northern Uganda’s night commuters and child soldiers. Come and see a screening of their new film. For additional information, contact Kaley_Eggers@baylor.edu.
