

## Upgrading to Office 2008

From the Finder, click on the “Go” menu and select “Connect to server...”. In the Server Address area, enter: busoft.baylor.edu and click the “Connect” button.

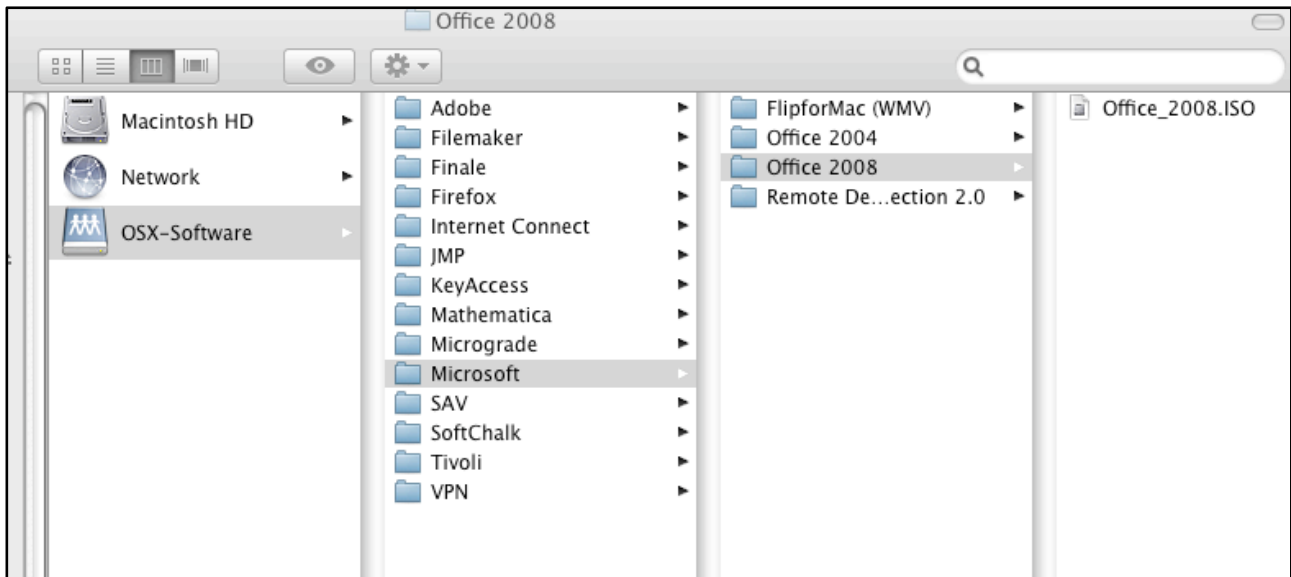

In the next window, select “Guest”, and click the “Connect” button.

Select the “OSX-Software” option. You may need to double-click the OSX-Software icon on your desktop.

Open the “Microsoft” folder. Double-click the “Office 2008” folder. Finally, double-click the Office\_2008.ISO file.

This will start the installation of Office 2008. Office 2004 will automatically be removed at the end of the installation.

Contact the Help Desk at 254-710-4357 if you have any questions about upgrading to Office 2008.
