

Subject Line: New participant statements are coming

Important changes are coming to the way you receive your quarterly account statement from GuideStone. An improved, more robust statement will arrive for the second quarter of 2009. Through industry research and focus groups with its participants, GuideStone has developed statements that will be more understandable and will provide additional information about your account. These include an illustration of potential account value at retirement and an estimated monthly retirement income benefit. These tools will help you determine whether you are on track to meet their retirement income goals and will also illustrate the effect of an increased contribution level on your future financial security in retirement.

GuideStone will begin replacing your paper statements with e-statements in July.

If you currently receive paper statements, you will still receive a printed annual statement each January that provides a summary for the previous year. (Participants who have already chosen to receive electronic statements will receive the annual summary statement electronically). This year-end statement will show a report for account activity for the entire year. You can opt to receive this statement electronically by registering your preferences at *MyGuideStone*[™]. Log into *MyGuideStone*[™] at www.MyGuideStone.org and you can also register your preferred email address so that you'll be notified when the quarterly statements are available.

Statements will be available as a PDF file, meaning they can be saved to your computers or easily printed for personal files. If you are unable to receive electronically delivered statements and want to continue to receive quarterly statements by mail, you may request paper statements by calling **1-888-98-GUIDE** (1-888-984-8433).

The third quarter issue of *re:connect*, GuideStone's participant e-newsletter, will have more details about these new statements. If you don't already subscribe to *re:connect*, you can sign-up to receive this free newsletter by visiting its [website](#).
