

BEYOND GRADUATION

- You are eligible to use services provided by the Career Services Office after graduation.
- Plan to stay in touch with professors and advisors who will be part of your professional network for years to come.
- Volunteer to return to campus to share information and advice with current students.
- Give back to Baylor and the School of Engineering & Computer Science through donations to scholarships.

"Discipline is the bridge between goals and accomplishments"
Jim Rohn

MILESTONES & RELATED ACTIVITIES

Possessing a college degree is no guarantee you will secure the job you want. In fact, in addition to a college degree, most employers desire candidates with relevant work experience in their specific field. This experience can be obtained in the form of an internship or a research experience.

DURING THE FRESHMAN YEAR

- Join an ECS Student Organization
- Begin to research your career options with your advisor, the Baylor Career Services Office, and your professors.
- Draft your résumé
- Use your résumé to conduct a summer

"Success is where preparation and opportunity meet."
Bobby Unser

job search for a position related to your major.

- Investigate available scholarships through your major department.

- Visit area churches in order to find your Baylor church home.

DURING THE SOPHOMORE YEAR

- Update your résumé, to include summer work experience.
- Continue membership in ECS Student Organization.
- Set up and complete a Mock Interview
- Attend at least one Career Seminar.
- Attend Career Fair, taking résumé along.
- Investigate available scholarships through your major department.
- Consider summer study abroad.

DURING THE JUNIOR YEAR

- Update your résumé to include summer work or study abroad experience.
- Continue active membership in ECS Student Organization.

- Establish relationships with faculty in your major courses.
- Actively conduct summer internship search. Attend Internship Seminars.
- Obtain letters of reference for internships.
- Submit Internship applications to ten companies.
- Investigate available scholarships through your major department.
- Check your degree audit to be sure your courses are on track for graduation.
- Consider Graduate School by re-searching grad school websites.

DURING THE SENIOR YEAR
