Summer 2011	<p>Student was in the Baylor Science Building without authorization after the building had closed to students and obtained information from a test and an answer key to the test that was in a faculty member's office. Student used the unauthorized information gained to take an exam in Chemistry the next morning.</p> <p>Student was again found in the Baylor Science Building after the building had closed to students, and was in possession of a tool student had designed to allow unauthorized access into locked rooms in the building. Student used this tool to access a faculty member's office and had planned to use it again to gain access to test information.</p> <p>On an exam in Chemistry student obtained answers from a student seated next to him/her, and after the exam Scantron was returned, manipulated the answers on the Scantron to obtain a higher grade.</p>	Honor Council	Immediate expulsion. Notation required on transcript.
Fall 2011	None.
