Enrollment Guide

Baylor’s two-factor self-enrollment process makes it easy to register your phone and install the Duo Mobile application on your smartphone or tablet.

1. Enrollment

Click https://www.baylor.edu/2factor. You will be prompted to logon with your Baylor username and password. Click Start Setup.

2. Choose your Device

We recommend a smart phone if you have one.
3. Type Your Phone Number

Select your country and type your phone number. Use the number of your smartphone, landline, or cell phone that you'll have with you when you're logging in. You can enter an extension if you chose "Landline" in the previous step.

Then double-check that you entered it correctly, check the box, and click "Continue".

4. Verify Ownership

Click Call me or Text me. Enter the code into the verification box.
5. Pick Platform

Choose the operating system that your phone runs.

6. If you have a smart phone or tablet install Duo Mobile

Duo Mobile is an application that runs on your phone and provides an easier way to authenticate. Without it you'll still be able to two-factor in using a phone call or sms message. In order to use Push or the duo mobile passcode you must activate Duo Mobile.

Follow the platform-specific instructions on the screen to install Duo Mobile.
7. Activate Duo Mobile

Activating the application will link it to your account so you can use it for authentication.

On iPhone, Android, Windows Phone, and BlackBerry 10, activate Duo Mobile by scanning the barcode with then built-in barcode scanner. Choose your platform for specific instructions:

The "Continue" button will be clickable after you scan the barcode.

Can't scan the barcode? Click the link and then follow the instructions.

Enrollment Complete!
