Students who plan to apply to occupational therapy (OT) schools bear the ultimate responsibility of determining specific coursework required for each school where application is to be made.
Prerequisite coursework found on the 4 Year Planner indicates only the minimum requirements for most OT schools in the U.S.

¹ A 3-hour physics class is required for some OT schools; see websites for specific courses to fulfill this requirement.

² Technical Writing (ENG 3300) is recommended by some OT schools. This class can be used to replace ENG 1304 for most degree plans at Baylor University.

³ Please refer to individual OT schools’ websites for preferred Anatomy & Physiology sequence.

* Developmental Psychology may be taken as either PSY 3341 or 3350 depending on major. Some PT schools prefer or require one of these courses. Others prefer or require Abnormal Psychology, which may be taken as either PSY 3321 or 3330 (Psychopathology) depending on the student’s major. Some OT schools require both developmental and abnormal psychology.

Once you have submitted your OTCAS application online, electronically send or mail all required official documentation to (see OTCAS website for full instructions):
Transcript Department
P.O. Box 9120
Watertown, MA 02471

OTCASinfo@otcas.org
For additional application submission questions, please contact OTCAS Customer Service at 617-612-2860 (M-F 9 a.m. - 5 p.m. Eastern Time) or otcasinfo@otcas.org.
