Primary Care is a bicycle built for two. Our innovative model invites LCSWs to join primary care providers to deliver integrated behavioral health care and advanced care management to vulnerable populations in Waco, Texas.

- Work as an Integrated Health Manager within a vanguard community health center
- Operate at the highest level of integrated behavioral health (HRSA level 6)
- Receive ongoing professional training by experts in primary care, health psychology and social work
- Screen, assess and offer focused mental health treatment as a member of the core team
- Deliver brief cognitive-behavioral therapy, solution-focused therapy and other target-based treatments
- For patients with chronic conditions, perform advanced care management, including pre-visit planning, patient education, registry monitoring and patient coaching
