You are invited to a special professional development event featuring technology applications in mathematics for K-12 teachers.

**Technology for Mathematics**

**September 15, 2015**

**5:00 - 6:30 pm**

Come participate in small group sessions in a “come and go” style professional development focused on using technology in the mathematics classroom. Sessions for Elementary, Middle, and High school teachers focused on the use of iPads, calculators, computers, and 3D Printer. Door prizes include a TI-Nspire CX with students software, TI-Nspire Teacher Software, TI-84C, TI-84 SmartView software, and more!

Baylor University Campus
Marrs McLean Sciences Bldg
