Super Saturday is a one-day enrichment program for teachers, high-ability students and their parents.

With

GT educators: Evan Carpenter, Kathleen Minshew, Amy Owen, & Dawn Walker
Dr. Susan Johnsen, author of Identifying Gifted Students: A Practical Guide

Saturday, April 29, 2017
9:00 AM - 12:00 PM
Marrs McLean Science Building
For 1st through 6th grade

• Students: Students will explore systems as they use their creative and critical thinking skills to investigate challenges in science, technology, engineering, art, and math stations. From programming ozobots to successfully traversing through an escape room, participants will work in teams to solve the challenges before them. (Cost: $20 per student)

• Parents: A parent session will include a one-hour seminar on how to form a parent advocacy group as well as Q & A about gifted education. The final hour, parents will see demonstrations of their child’s learning. (10:00 AM to 12:00 PM - No cost to attend.)

• Teachers: A session will cover how to meet the needs of gifted students within a general education classroom. Teachers may then observe the student sessions and have an opportunity to interact with presenters. (9:00 AM to 11:00 AM - No cost to attend.)
