Super Saturday is a one-day enrichment program for high-ability students and their parents.

With

Dr. Bill Booth with Baylor Computer Science Faculty & Students
Dr. Susan Johnsen, author of Identifying Gifted Students: A Practical Guide

Saturday, April 15, 2017
201 Cashion, Baylor University
9:00 AM – 12:00 PM: 4th grade to pre-algebra
1:00 PM – 4:00 PM: algebra experience to 12th grade

- **Students:** Students will learn how to use the Python Programming Language to draw pictures, build animations, and make simple games. These concepts can be applied in the study of any programming language. Prior programming experience is not necessary.  
  *(Cost: $20 per student)*

- **Parents:** Parent sessions will cover topics including how to form a parent advocacy group and Q & A about gifted education. Sessions will be presented at 11:00 and 3:00.  
  *(No cost to attend.)*
