**NOTE:**
This brochure reflects the degree requirements based only on the 2012-2013 Baylor University Undergraduate Catalog.
This advisement instrument has been developed primarily with the beginning student in mind and was designed to be used in conjunction with the Undergraduate Catalog. Advisors will find it a handy reference for helping students select courses appropriate to the degree(s) being considered.

The student who has not decided on a major may use this booklet as a reference tool in choosing a major. Begin by eliminating degrees/majors that are not of interest; then compare similarities, as well as differences, in the basic requirements for the remaining degree options.

A student should study course descriptions in her or his areas of interest and become thoroughly acquainted with the Catalog requirements.

Baylor course numbers consist of an alpha prefix followed by a four-digit course number. The levels are specified by the first digit, as follows: 1) freshman; 2) sophomore; 3) junior; 4) senior; 5) graduate; master's and doctor's; 6) doctoral level only. The second digit specifies the number of semester hours of credit assigned to the course. The letter "V" is used as the second digit for courses which may be taken for a varying amount of credit; the varying amount of credit is indicated at the right of the course title preceding a course description in the Undergraduate Catalog. The last two digits are reserved for departmental use in indicating sequence of courses. The letter "C" is used in the third digit to designate capstone courses.
Bachelor of Arts
American Studies**
Anthropology
Apparel Design and Product Development
Apparel Merchandising
Art (two majors):

Minimum Requirement .............................................................. 124 hrs.

I. English/Literature .................................................................................................. 12

Select from each area:

Area 1. ENG 1302 or FAS 1302.
Area 2. ENG 1304 (or 3300 for science majors), or three courses from FAS 1118, 1128, and 1138.
Area 3. ENG 2301.
Area 4. One of the following: ENG 2304 or 2306, or three hours of GTX.

II. REL 1310 and [REL 1350 or FAS 1308]; or six hours from REL 1211, 1221, 1231 ............................................................... 6

III. MTH 1301, 1304, 1321, or STA 1380 ............................................................... 3

NOTE: MTH 1304 is intended only for students who plan to take MTH 1321.

IV. Fine Arts ............................................................................................................... 7-9

Choose one course from three different areas:

Area 1. ART 1300, 2302, or 2303.
Area 2. CLA 3380.
Area 3. FAS 1306, or three courses from FAS 1116, 1126, 1136.
Area 4. FCS 3313 or 4313.
Area 5. FDM 1303/JOU 1303.
Area 6. MUS 1220, 3322, or 3323.
Area 7. CSS 1301, 1302, or 1304.
Area 8. THEA 1206 or 2374.

Applied courses may not substitute.

V. Foreign Language ...........................................................................................3-14

To be fulfilled with one of the following combinations:

A. Complete one Modern or Classical language through the 2320 level. Arabic, Chinese, French, German, Greek, Hebrew, Italian, Japanese, Korean, Latin, Portuguese, Russian, Spanish, and Swahili may be used. Placement exam in Spanish, French, or German may be required.

B. Complete two Classical languages through the 1302 or 1402 level. Two languages from Latin, Greek, and Hebrew may be used. (If available, the following Biblical and Related Languages may be used: Akkadian, Aramaic, Syriac, Ugaritic.)

NOTE: It is strongly recommended that the language course work be started during the first year of residence.

VI. Laboratory Science (three courses, one from each area) ....................12

Area 1. CHE 1300/1100, 1301/1101, 1302/1102, 1341/1146, or 1405; or PHY 1404, 1405, 1407, 1408, 1420, or 1455.
Area 2. BIO 1401, 1403, 1305/1105, or 1306/1106; or GEO 1401, 1402, 1403, 1405, 1406, or 1408; or NSC 1306/1106.
Area 3. A third four-hour course from the above or others in those fields, or ANT 1404; ENV 1301/1101 or 1303/1103; or FAS 1407.

NOTE: Credit will be allowed for only one of the following courses: CHE 1405, 1300/1100, or 1301/1101. Credit will be allowed for only one of the following courses: GEO 1401, 1403, or 1405.
VII. Social Science

A. PSC 2302.
B. HIS 1305, 1307, 2365, or 2366, or FAS 1304 (any two).
C. Three hours from each of three of the following fields (three classes total):
   1. ANT 1305 or 3301.
   2. ECO 1305, 2306, or 2307.
   3. FAS 1303 or 1305, or three courses from FAS 1115, 1125, 1135.
   4. GEOG 1300.
   5. HON 3100, 3101, 3200, or 3201 (For Honors Program students only).
   6. PHI 1306, 1307, 1308, 1321, 3301, 3310, or 3312 (3322 for art majors).
   7. PSC 1305 or 1306.
   8. PSY 1305.
   9. SOC 1305, or three courses from SOC 1105, 1106, 1107.

VIII. Human Performance (Four semesters of activity courses) .................................4

IX. Chapel (Two semesters) ............................................................................. no credit

X. Major – One required; others may be elected from the list of majors for this degree. See departmental sections in the Undergraduate Catalog for specific requirements and number of hours.

XI. Minor – Optional; may elect one or more minors. Specific requirements are in departmental sections of the Undergraduate Catalog.

XII. Advanced work (junior and senior level classes) minimum ......................36
BACHELOR OF SCIENCE

Minimum Requirements .................................................. 124 hrs.

I. English/Literature .......................................................... 12
   Select from each area:
   Area 1: ENG 1302 or FAS 1302.
   Area 2: ENG 1304 (or 3300 for science majors), or three courses from FAS 1118, 1128, 1138.
   Area 3: ENG 2301.
   Area 4: One of the following: ENG 2304 or 2306, or three hours of GTX.

II. REL 1310 and [REL 1350 or FAS 1308]; or six hours from REL 1211, 1221, 1231 ......................................................... 6

III. Mathematics and Science .............................................. 34
   A. Mathematics (two courses): MTH 1321 and three additional semester hours of Mathematics or Statistics for which calculus (MTH 1321) is a prerequisite.
   B. Laboratory Science (two courses): Eight semester hours of laboratory science courses with appropriate labs.
   C. Additional Mathematics and Science: Twenty semester hours of additional courses from BIO, CHE, ENV, GEO, MTH, NSC, PHY, PSY, and STA.

IV. Foreign Language .......................................................... 3-14
   To be fulfilled with one of the combinations listed under the Bachelor of Arts.
   NOTE: It is strongly recommended that the language course work be started during the first year of residence. Also, some majors have specific language requirements; see department listings in the Undergraduate Catalog.

V. History and/or Social Science ......................................... 9
   A. PSC 2302
   B. Six semester hours (two courses) of history and/or social science courses.
   (See Undergraduate Catalog for full details and restrictions.)

VI. Human Performance (Four semesters of activity courses) ......... 4

VII. Chapel (Two semesters) ................................................... no credit

VIII. Major – One required; others may be elected from the list of majors for this degree. See departmental sections in the Undergraduate Catalog for specific requirements and number of hours.

IX. Minor – Optional; may elect one or more minors. Specific requirements are in the departmental sections of the Catalog.

X. Advanced work (junior and senior level classes) minimum ............ 36

NOTE: See departmental sections in the Undergraduate Catalog for other specific requirements and major requirements. The requirements for advanced credit, residence, language, a specified comprehensive examination, Chapel, minimum grade point average, maximum credit, and human performance are the same as for the Bachelor of Arts degree.
Baylor University offers several Interuniversity Programs, in which students choose a major and degree program (BA or BS) that is begun at Baylor and finished at a partner university or professional school. A short overview of the programs and majors available in this manner is provided below; see the Undergraduate Catalog for a full, detailed description of each program.

**CLINICAL LABORATORY SCIENCE**

BS degree, Major in Clinical Laboratory Science

Partner Schools: Methodist Hospital, School of Clinical Laboratory Science, Houston, Texas; Scott & White Memorial Hospital, School of Clinical Laboratory Science, Temple, Texas; and Tarleton State University, Department of Clinical Laboratory Science, Fort Worth, Texas.

**Program Requirements:**

A. The basic Bachelor of Science curriculum.

B. The additional courses listed here: BIO 1305/1105, 1306/1106, (1402 or 4401), 2306/2106, 4301, 4306/4106, and 4001; CHE 1301/1101, 1302/1102, 3238, 3331, and 3332; MIS 1305; PHY 1405; MTH 1321; and MTH 1322 or STA 2381.

C. Sufficient electives, if needed, to bring the total credit to a minimum of 94 semester hours, with at least a C average.

D. The residence requirement of a minimum of 60 semester hours, including all of the last 30 hours of the pre-professional program requirements, must be completed in the College of Arts and Sciences at Baylor.

**FORESTRY**

BA or BS degree, Major in Forestry

Partner University: Duke University

**Program Requirements:**

A. The respective basic requirements for the Bachelor of Arts or the Bachelor of Science degree.

B. The specific courses listed below:

1. BA degree: MTH 1304, 1321, and 1322; BIO 4406 or 4416; CHE 1300, 1100, 1341, and 1146; PHY 1408 and 1409; ECO 2306 and 2307; HIS 1305 and 1307, or 2365 and 2366.

2. BS degree: MTH 1304, 1321, 1322, 2321, and 3325; BIO 4406 or 4416; CHE 1301/1101, 1302/1102; PHY 1420 and 1430; ECO 2306 and 2307; an additional six to eight course hours in science and mathematics.

C. Major in Forestry (30 hours at Duke).

D. Major in Environmental Studies (30 hours at Baylor).

E. A minimum requirement of 94 hours completed before transfer to Duke, with a minimum 60 hours in residence at Baylor (including all of the last 30 hours).
BACHELOR OF FINE ARTS

Minimum requirements .............................................................. 124 hrs.

I. Basic requirements ........................................................ 41-52

A. ENG 1302 or FAS 1302; ENG 1304 or three courses from FAS 1118, 1128, 1138; plus one of the following:
ENG 2301, 2304, or 2306, or three hours of GTX ..................... 9

B. Religion ............................................................................. 6

1. Theatre majors will take REL 1310 and (REL 1350 or FAS 1308); or six hours from REL 1211, 1221, 1231
2. Art majors will take REL 1310 and (REL 1350 or FAS 1308)

C. Fine Arts ........................................................................ 4-5

1. Theatre arts majors must take two courses from:
   ART 1300 or 1310 and MUS 1220.
2. Art majors must take two courses from: MUS 1220,
   CSS 1301 or 1302, and THEA 1206.

D. Foreign Language ............................................................ 3-11

1. Theatre arts majors are required to take one language through the 2310 level.
2. Art majors are required to take one language through the 2310 level.

E. Laboratory Science ........................................................... 8

1. Theatre arts majors must complete two courses in any laboratory science. (FAS 1407 will apply.)
2. Art majors must complete two courses in laboratory science approved for the Bachelor of Arts degree.
   (FAS 1407 will apply.)

F. Social Science ................................................................. 6

1. Theatre arts majors must take six hours total from:
   ANT 1305 or 3301; ECO 1305 or 2306; PHI 1308, 1321,
   or 3322; PSC 1305 or 1306; PSY 1305; SOC 1305,
   or three courses from SOC 1105, 1106, 1107; HIS 1305,
   1307, 2365, or 2366; FAS 1303, 1304, or 1305, or three courses from FAS 1115, 1125, 1135.
2. Art majors must take six hours total. (FAS 1303, 1304,
   or 1305 or three courses from FAS 1115, 1125, 1135
   will apply.)

G. PSC 2302 ......................................................................... 3

H. Human Performance (Two to four semesters of activity courses) ......................................................... 2-4

1. Theatre arts majors may substitute THEA 2298 and 2299 for the two required activity courses.
2. Art majors must take four activity courses.

I. Chapel (Two semesters) ...................................................... no credit

J. Electives, depending on major .......................................... 0-12

II. A major in theatre arts (design and technology, performance, or studies) or art (studio art). See the appropriate departmental section of the Undergraduate Catalog for specific requirements.

III. Advanced work (junior and senior level classes) minimum ........................................ 36

IV. The requirements for advanced credit, residence, a specified comprehensive examination, Chapel, minimum grade point average, and maximum credit are the same as for the Bachelor of Arts degree. Additional information about these requirements is listed under the General Regulations for the College of Arts and Sciences and General University Regulations of the Undergraduate Catalog.
The Bachelor of Science in Aviation Sciences (BSAS) curriculum is designed specifically for people who wish to follow careers in aviation. Each graduating student will receive a BSAS degree and will have flying qualifications to the Commercial Pilot level (including instrument rating and multiengine rating) along with a Certified Flight Instructor (CFI) certificate. The curriculum combines courses at Baylor and Texas State Technical College (TSTC).

### Minimum requirements .............................................................. 124 hrs.

**NOTE:** Additional optional courses are available at TSTC.
Minimum requirements .................................................. 124 hrs.

I. Basic requirements ................................................................. 49-60

A. English/Literature .............................................................. 12

Select from each area:

Area 1. ENG 1302 or FAS 1302.
Area 2. ENG 1304 or 3300, or three courses from FAS 1118, 1128, 1138.
Area 3. ENG 2301.
Area 4. One of the following: ENG 2304 or 2306, or three hours of GTX.

NOTE: Family and Consumer Sciences: Teacher Certification majors must take 1304 rather than 3300.

B. REL 1310 and [1350 or FAS 1308]; or six hours from

REL 1211, 1221, 1231 .............................................................. 6

C. Mathematics 1301, 1304, 1321, or

Statistics 1380 ........................................................................... 3

NOTE: MTH 1304 is intended only for students who plan to take MTH 1321. Family and Consumer Sciences: Teacher Certification majors must take 1304 or 1315 or 1321. A petition is required to count 1315 as the basic math. Nutrition Sciences majors must take STA 1380. A petition is required to count 1315 as the basic math.

D. Foreign Language ............................................................... 3-14

NOTE: The guidelines for foreign language on the BSFCS are the same as those on the BA.

E. History and/or Social Science .............................................. 6

1. Family and Consumer Sciences: Teacher Certification majors must take HIS 2365. (FAS 1303, 1304, or 1305 or three courses from FAS 1115, 1125, 1135 will apply.)
2. Apparel Merchandising and Apparel Design and Product Development majors must take ECO 1305. (FAS 1303, 1304, or 1305 or three courses from FAS 1115, 1125, 1135 will apply.)
3. Nutrition Sciences majors must take three hours of a PSY elective and SOC 3305.

F. Political Science 2302 ............................................................... 3

G. Laboratory Science ............................................................... 12

1. Nutrition Sciences majors must take

CHE 1301/1101, BIO 1305/1105, and BIO 1402.
2. All other Family and Consumer Sciences majors must take CHE 1405 or 1300/1100 plus eight additional hours of lab science. (FAS 1407 will apply.)

H. Human Performance (Four semesters of activity courses) ........... 4

I. Chapel (Two semesters) .......................................................... no credit

II. Majors

A. Apparel Design and Product Development.
B. Apparel Merchandising.
C. Child and Family Studies.
D. Family and Consumer Sciences: Teacher Certification. (leads to teacher certification)
E. General Family and Consumer Sciences. (allows for a minor)
F. Interior Design.
G. Nutrition Sciences.

III. Minors

Minors are available in general family and consumer sciences, nutrition sciences, child and family studies, and apparel merchandising.

NOTES: The Interior Design program at Baylor University is accredited by the Council for Interior Design Accreditation (CIDA).
The curriculum in the Nutrition Sciences program is currently granted accreditation by the Commission on Accreditation for Dietetics Education of the American Dietetic Association, 120 South Riverside Plaza, Suite 2000, Chicago, IL 60606-6995, (312) 899-0040, Ext. 5400. Successful completion of the Nutrition Sciences program, university graduation requirements, an accredited internship, and other ADA requirements qualifies the student to take the ADA examination to become a Registered Dietitian and member of the American Dietetic Association.
The Department of Family and Consumer Sciences is accredited by The Council for Accreditation of the American Association of Family and Consumer Science.
The requirements for Family and Consumer Sciences: Teacher Certification are subject to change pending changes in state education requirements for teacher certification. See the department for advisement.

Please see specific requirements for majors in the Undergraduate Catalog.
Hankamer School of Business Majors

* Denotes requirement of a second business major

Accounting
Baylor Business Fellows
Business for Secondary Education (with teacher certification)
Business French*
Business German*
Business Journalism
Business Russian*
Business Spanish*
Distribution Management & Technology
Economics
Entrepreneurship
Finance
Financial Planning
Human Resource Management
Management Information Systems
International Business*
Management
Marketing (three career tracks):
  - Marketing
  - Music & Entertainment
  - Nonprofit and Development
Media Business
Professional Selling
Public Administration
Real Estate
Risk Management and Insurance
Sports Sponsorship and Sales

Prebusiness Curriculum

The Hankamer School of Business is an upper-division, professional business program which is built on a strong foundation of prebusiness courses plus a professional business core. The student is advised in Academic Advisement until he/she completes 30 hours. After 30 hours are completed, the student is advised in the Undergraduate Programs Office of the Hankamer School of Business.
SUMMARY OF COURSES REQUIRED FOR THE
BACHELOR OF BUSINESS ADMINISTRATION

Minimum requirements .............................................................. 124 hrs.
I. Written and Oral Communication ......................................................... 12-20
   A. ENG 1302 and 1304 ................................................................. 6
   B. Choose one course from
      CSS 1301, 1302, or 1304 ............................................................ 3
   C. Complete one of the following options: ................................. 3-11
      1. Option I: One Modern Foreign Language through
         the third level, either 2310 or 2312 (3-11 hrs.)
      2. Option II: Complete three courses, one from each of
         three different groups
         a. BUS 3345.
         b. CSS 3304, 3305, 3306.
         c. ENG 3300, 3303, 4309.
         d. JOU/FDM 3372.
         e. Any Modern Foreign Language.
II. Social Sciences ..................................................................................................... 15
   A. Choose one course from
      ECO 1301; HIS 1305, 1307, 2365, or 2366 .................................. 3
   B. ECO 2306 and 2307 ............................................................................ 6
   C. PSC 2302 ................................................................................................ 3
   D. Choose one course from ANT 1305; GEOG 1300; History; Honors; Philosophy; PSC 1305 or 1306; PSY 1305; or SOC 1305 ................................................................. 3
III. Humanities ..................................................................................................... 11-12
   A. REL 1310 and [REL 1350 or FAS 1308] ......................................... 6
   B. Choose one course from ART 1300; JOU/FDM 1303; MUS 1220; or THEA 1206 ................................................................. 3
   C. Choose one course from ENG 2301, 2304, or 2306; any
      2000-level or higher Great Texts course; or any
      Foreign Literature course.......................................................... 2-3
IV. Mathematics and Natural Sciences ....................................................... 13-16
   A. MTH 1308 and 1309; or MTH 1304 and 1321; or
      MTH 1304 and 1309......................................................................... 3-6
      (three-six hours depending on SAT/ACT math score.)
   B. QBA 2302 or STA 1380 ...................................................................... 3
   C. QBA 2305 .............................................................................................. 3
   D. One lab science.................................................................................... 4
V. Personal Development ....................................................................................... 2
   A. HED 1145 ............................................................................................... 1
   B. Human Performance activity course or Leadership
      Development........................................................................................ 1
   C. Chapel (Two semesters) ................................................................. no credit
VI. Professional Business Core .............................................................................. 36
   A. ACC 2303 and 2304 ................................................................. 6
   B. BL 3305 ................................................................................................. 3
   C. BUS 1301, 3315, and 4385 ............................................................ 9
   D. FIN 3310.................................................................................................. 3
   E. MGT 3305 and 3325 ........................................................................... 6
   F. MIS 1305 and 3305 ............................................................................. 6
   G. MKT 3305 ............................................................................................... 3
VII. Major (minimum of 12 hours) ................................................................. 12-27
VIII. Elective hours will vary for each student, must be taken for a grade, and are only needed to reach the 124 hour minimum to graduate. Electives may be used toward a second major in the Business School or a minor outside of the Business School.
The School of Education offers teacher certification programs in the following areas:

- Elementary Education
- Middle Grades with majors in English Language Arts and Reading, Mathematics, Science, and Social Studies
- Secondary with majors in English Language Arts and Reading, Life Science, Mathematics, Physical Science, and Social Studies
- All Level Programs with majors in Spanish, Physical Education, and Special Education
- Supplemental Certificates in English as a Second Language and Gifted and Talented

The Health, Human Performance, and Recreation Division offers the following non-certification majors through the School of Education:

 Athletic Training
 Community Health
 Exercise Physiology
 General Studies in HHPR
 Health Science Studies with four options:
  Health Professions Option
  Premedical/Predental Option
  Prephysical Therapy Option
  Science Education Option
 Recreation and Leisure Studies with two tracks:
  Church Recreation Track
  Outdoor Recreation Track

Basic requirements for the certification and HHPR programs are varied according to the major chosen from above. However, the following courses are common to all BSED programs: CHA 1088, ENG 1302 and 1304, HED 1145, PSC 2302, REL 1310 and 1350 (or REL 1211, 1221, and 1231). Advising for any of these programs is required. At the time of advising a student is given a four-year planner which outlines the entire program. Please contact the Office of Advisement and Certification for assistance with advising. The office is located in 100-101 Draper and the telephone number is (254) 710-3699.
Baylor’s BS programs in engineering are designed to prepare graduates for professional employment in engineering or related fields or for graduate study. Accredited programs are offered in Electrical and Computer Engineering (BSECE), Mechanical Engineering (BSME), and Engineering (BSE). In the BSE program, students may select the Biomedical Option or develop their own concentration area within or outside of engineering through the Flexible Option. The Undergraduate Catalog gives the specific requirements for each major.

Engineering students admitted to the Honors Program or the Baylor Interdisciplinary Core may complete the corresponding Honors or BIC engineering track in each of the three majors, which normally requires only four additional hours. At least a “B” must be earned in EGR 1301 and 1302 in order to move on to sophomore EGR courses.

Minimum Requirements ............................................................. 129 hrs.
I. Humanities and Social Sciences ............................................................. 18-23
   A. GTX 2301 and 2302 ............................................................................ 6
   B. REL 1310 and 1350; or REL 1211, 1221, and 1231 .......... 6
   C. Foreign Language ........................................................................... 3-8
       Second level proficiency (at least 1302, 1402, or 1412)
   D. ENG 2301 or PSC 2302 ....................................................................... 3
   E. Chapel (two semesters) .......................................................... no credit
II. Mathematics and Basic Sciences ................................................................... 32
   A. CHE 1301 ................................................................................................ 3
   B. MTH 1321, 1322, 2311, 2321, 3325, and STA 3381 .......................... 18
   C. PHY 1420 and 1430 ............................................................................ 8
   D. Additional Mathematics and Basic Science (varies
      with major) .......................................................................................... 3
III. Other Requirements .......................................................................................... 15
   A. Writing: ENG 1302 and 3300 ........................................................... 6
   B. ECO 3308 ............................................................................................ 3
   C. Ethics: EGR 3305; or REL 3390, 3392, 4393, or 4395; or
      BUS 3350 ............................................................................................ 3
   D. Human Performance (Three semesters of activity courses) ............. 3
IV. Major .......................................................................................................................... 64
   A. Electrical and Computer Engineering
      1. Engineering Core (eight required EGR courses) ............................ 25
      2. Engineering Specialization (seven required EGR courses) ....... 24
      3. Engineering Electives (four EGR courses) ................................. 12
      4. Computer Science 1336 ....................................................................... 3
   B. Mechanical Engineering
      1. Engineering Core (nine required EGR courses) ......................... 28
      2. Engineering Specialization (nine required EGR courses) ............ 27
      3. Engineering Elective (three EGR courses) ................................. 9
   C. Engineering (Biomedical Option)
      1. Engineering Core (seven required EGR courses) ...................... 22
      2. Engineering Specialization (seven required and three
          elective EGR courses) ................................................................. 31
      3. Concentration Courses (two required second elective
          courses) .................................................................................. 11
   D. Engineering (Flexible Option)
      1. Engineering Core (seven required EGR courses) ...................... 22
      2. Engineering Specialization (eight-nine EGR courses) .......... 26-27
      3. Approved Concentration Electives (five-six courses) .... 15-16

SCHOOL OF ENGINEERING AND COMPUTER SCIENCE
BACHELOR OF SCIENCE PROGRAMS IN ENGINEERING
The Bachelor of Science in Computer Science (BSCS) degree program is accredited by the Computing Accreditation Commission of the Accreditation Board for Engineering and Technology.

Minimum requirements ............................................................. 124 hrs.

I. Humanities and Social Science ...............................................................33-38

A. ENG 1302 and 3300 ............................................................................6
B. Literature................................................................................................ 9

One from each group:
1. GTX 2301, 2302, 3343, 4341
2. ENG 2301, 2304, 2306
3. PSC 2302 or an additional GTX course

C. REL 1310 and 1350; or REL 1211, 1221, and 1231 .................. 6
D. Foreign Language ...........................................................................3-8

Second level proficiency (at least 1302, 1402, or 1412) must be achieved.
1. Complete one course to reach second level proficiency
   (1302, 1402, 1412, 2310, or 2320).
2. Complete two courses to reach second level proficiency
   (beginning with 1301 or 1401).

E. History and/or social science ..........................................................6

F. CSS 3308 .................................................................................................3

II. Mathematics ......................................................................................................... 12

A. MTH 1321 and 1322 ...........................................................................6
B. STA 3381 .................................................................................................3
C. One mathematics course from 2311 or 2321 ...........................3

III. Other Requirements ............................................................................................2

A. Human Performance (Two semesters of activity courses) .......... 2
   (Not required of students who have reached age 25 before matriculation)
B. Chapel (Two semesters).......................................................... no credit

IV. Select one of the following three options for the Computer Science Major:
Option A –
Computer Science Concentration .........................................................68-74
1. CSI 1430, 1440, 2334, 2350, 3334, 3335, 3336, 3344,
   3372, 3439, 3471, 4321, 4330, 4310, 4337, 4341,
   4342, 43C9 ....................................................................................49
2. One of CSI 3101 or 4301 ........................................................ 1-3
3. CSI 3000 or 4000 level electives (see NOTE) ............... 6
4. A grade of C or better in all but four hours of the computer
   science hours counted toward the major.
5. Sciences ...................................................................................12-16
   a. One group from the following natural or physical sciences:
      1. BIO 1305/1105 and 1306/1106.
      2. CHE 1301/1101 and 1302/1102.
      3. GEO 1305 and 1306.
      4. PHY 1408 and 1409 or 1420 and 1430.
   b. Six to eight additional hours of science from the
      courses above or from courses which have one or more
      of the above courses as prerequisites.

Option B –
Gaming Concentration ..............................................................................82-86
1. CSI 1430, 1440, 2334, 2350, 3334, 3335, 3336,
   3344, 3372, 3439, 3471, 4321, 4330, 4337, 4341,
   4342, 43C8 ....................................................................................55
2. CSI 3101 or 4301 ....................................................................... 1-3
3. FDM 1304, 3361, 4313, 4364 ..................................................12
4. A grade of C or better in all but four hours of the
   computer science hours counted toward the major.
5. Sciences ...................................................................................14-16
   a. PHY 1420 and 1430.
   b. Six to eight additional hours of science from the
      courses below or from courses which have one or more
      of the above courses as prerequisites.
      1. BIO 1305/1105 and 1306/1106.
      2. CHE 1301 and 1302.
      3. GEO 1405 and 1406.

Option C –
Software Engineering Concentration....................................................70-74
1. CSI 1430, 1440, 2334, 2350, 3334, 3335, 3336, 3344,
   3372, 3373, 3374, 3439, 3471, 4321, 4330, 4337,
   43C9 .........................................................................................55
2. CSI 3101 or 4301 ........................................................................ 1-3
The Bachelor of Science degree in Informatics (BSI) with a major in Bioinformatics is a multidisciplinary program offered by the Department of Computer Science in conjunction with the Department of Biology. The program's strength is the foundation it provides in both disciplines. Graduates can pursue careers in computer science, biology, or bioinformatics, a field that combines the two. The curriculum includes courses in biology, computer science, chemistry, and mathematics, as well as the humanities and social sciences. It is an excellent choice for students planning to enter one of the medical professions.

Minimum requirements .......................................................... 124 hrs.  

I. Basic requirements ................................................................. 62-75  

A. English/Literature ................................................................. 12  
   1. ENG 1302  
   2. ENG 1304  
   3. ENG 2301  
   4. Any one from ENG 2304, 2306, or 3300; or 3 hours of GTX at the 2000 level or above.  

B. Religion: REL 1310 and 1350 ................................................. 6  

C. History: Any two courses from HIS 1305, 1307, 2365, and 2366 ................................................................. 6  

D. Social Science: ECO 3355, PSY 1305, and SOC 1305 .......... 9  

E. Political Science: PSC 2302 .................................................. 3  

F. Language ................................................................................ 3-14  

To be fulfilled with one of the following combinations:  
   1. Complete one Modern or Classical language through 2320 level. Arabic, Chinese, French, German, Greek, Hebrew, Italian, Japanese, Korean, Latin, Portuguese, Russian, Spanish, and Swahili may be used. [1410 (1301) and 1402 (1302)] or 1412; 2310; and 2320.  
   2. Complete two Classical languages through 1302 or 1402 level. Two languages from Latin, Greek, and Hebrew may be used. (If available, the following Biblical and Related Languages may be used: Akkadian, Aramaic, Syriac, Uguritic.)  

G. Mathematics: One course from MTH 1301, 1304, 1321, or STA 1380................................................................. 3  

H. Laboratory Science: Three courses, one from each area ..................................................................................... 12  

To be fulfilled with one of the following combinations:  
   1. Biology: BIO 1401 or 1305/1105.  
   3. Chemistry, Environmental Science, or Physics: Any from CHE 1300/1100, 1301/1101, or 1405; ENV 1301/1101 or 1303/1103; or PHY 1405, 1408, 1420, or 1455.  

I. Fine Arts: Choose one course from two different departments ............................................................................. 4-6  
   1. ART 1300, 2302, or 2303.  
   2. CLA 3380.  
   3. FCS 3313 or 4313.  
   4. FDM 1303/JOU 1303.  
   5. MUS 1220, 3322, 3323, or 4320.  
   6. CCS 1301, 1302, 1304, or 1305.  
   7. THEA 1206 or 2374.  

J. CCS 1100 .................................................................................. 1  

K. Human Performance (Three activity courses) .............................................. 3  

L. Chapel (two semesters) ........................................................................ no credit  

II. Electives ...................................................................................... 8-21  

III. Major ......................................................................................... 41
Minors consist of a minimum of 18 credit hours and may be added to complement a major but are usually not required. Minors are interdisciplinary; therefore, they may be taken under any degree plan. Most minors originate in the College of Arts and Sciences; in the list below, those originating in other academic bodies are followed by a number corresponding to the following key:

Since fall 1995, Baylor University has offered an option for the general education requirements of all undergraduate degree programs. The Baylor Interdisciplinary Core (BIC) seeks to integrate the various academic disciplines with a set of comprehensive interdisciplinary courses that provide a coherent approach to knowledge and learning. It is structured so that individuals see and appreciate relationships and connections among issues, disciplines, and thinkers, so that they are encouraged to synthesize material and to develop a comprehensive perspective. The curriculum emphasizes critical thinking, active learning, connected learning (among disciplines), the close reading of primary sources, writing and speaking skills, and the development of a global perspective. Central to the curriculum is a common core of 44 hours of coursework designed for every degree program in each of the University’s undergraduate schools. The curriculum is organized around five sequences of courses designated as The Examined Life, World Cultures, The World of Rhetoric, The Natural World, and The Social World. These sequences of courses replace many of the general requirements on the degrees offered by the University. For more information on how BIC courses fit into each of the various degree plans, see the Undergraduate Catalog or the BIC website (www.baylor.edu/BIC/).

NOTE: Students who pursue a BM, BME, or BA (Music) degree (other than string majors) will encounter scheduling conflicts between required BIC classes and required music ensembles, making participation in the BIC impossible.

Admission to the Program

All regularly admitted students to Baylor University are eligible to apply for the Baylor Interdisciplinary Core program. Enrollment is limited to 200 incoming freshmen each academic year, and admission will be determined by the BIC Admissions Committee.
Established in 1959, the Honors Program offers talented, highly motivated students at the university the opportunity to broaden their intellectual horizons in numerous ways. Through exploring their major fields of study intensely, through integrating many areas of knowledge, and through application of independent research techniques, Honors Program students form a community of shared learning with one another and with faculty members from all disciplines. University Scholars frequently join the Honors Program. The Honors Program is a four-year departmental and interdisciplinary program consisting of the features described below. Students admitted into the Honors Program become eligible to apply for residence in the Honors College Living-Learning Center. (For a full description of Honors Program requirements, see the Honors Program website: www.baylor.edu/honors_program.)

Lower-Division Honors
Participants are expected to complete at least 21 hours in Honors coursework (or the approved equivalent) no later than the completion of the second full year of academic study (60 hours) while maintaining an overall grade point average and an Honors grade point average of 3.2. Students are also recommended to take First-Year Seminars and required to take two Great Texts courses designed for the Honors Program.

Upper-Division Honors
Students completing the requirements of lower-division Honors with an overall grade point average of at least 3.2 may be invited to continue with their Honors Program track during their remaining semesters at Baylor. Students who have not participated in Honors during their first 60 hours at Baylor may apply for admission if they have a 3.5 overall grade point average and have the recommendation of the department in which they are majoring. These upper-division Honors students complete the following elements of advanced scholarship. Beginning the fall semester of the third year (or as early as spring of the second year with permission) participants enroll in a two-semester sequence (four academic hours total) where small, informal groups meet regularly during each semester to discuss significant books and issues in various academic disciplines. Furthermore, participants may select up to three junior- or senior-level courses in their field in which, by contract with the faculty of each course, they pursue advanced academic study beyond that required of non-Honors students enrolled in the same course. During the junior year, Honors students undertake two sections of “Independent Readings” (one hour each), in order to explore specific topics with the guidance of a faculty mentor. Beginning with the Independent Readings courses and continuing into the four hours of senior-year Honors Thesis courses, upper-division Honors students apply the methods of their chosen discipline(s) to the investigation of a specific topic of interest. The result of this investigation is a thesis project directed by a Baylor faculty member, who is selected by the Honors student in consultation with program faculty/staff. To complete the requirements for graduation in Honors, participants must defend the Honors thesis in a one-hour oral examination before a committee consisting of the faculty director, at least one other departmental representative, and another Baylor faculty member or a member of the University’s Honors faculty advisory committee.

Admission to the Program
Students interested in entering the program as freshmen should call (254) 710-1119 or visit the website.
PREHEALTH STUDIES

The Prehealth Studies Office provides advisement, mentoring, and guidance for Baylor University students who are interested in any of the eight areas of healthcare, including premedical, predental, prephysician assistant, preoptometry, preveterinary, prepharmacy, prephysical therapy, and preoccupational therapy.

Advisors in the prehealth office are available for students on a walk-in or scheduled basis. Any of our advisors are able to assist students with issues and concerns pertaining to prehealthcare.

PRE-LAW

Pre-Law at Baylor is not a major. Rather, it is a pre-professional track available to all undergraduate students. The American Bar Association (ABA) Preparing for Law School website (www.abanet.org/legaled/prelaw/prep.html) does not recommend any particular group of majors for students interested in becoming lawyers. Rather, experts recommend maximizing one’s education by taking the most rigorous and demanding classes possible. For more information, please read the Pre-Law Timeline (available at www.baylor.edu/prelaw/index.php?id=59776) and the Baylor Pre-Law Guide (available at www.baylor.edu/content/services/document.php/69917.pdf). These contain detailed recommendations on each stage of pre-law preparation. If one wishes to add or delete the pre-law designation on one's student record, please see an advisor in Academic Advisement (freshmen) or CASA (sophomores-seniors).
Launched in fall 2011, secondary majors offer students the opportunity to earn one baccalaureate degree in one program supplemented by a rich intellectual experience in a second field of specialization outside that primary program. The “secondary major” offers the option of studying two subjects from two different programs while earning a baccalaureate degree in the first major without the requirement of earning a second baccalaureate degree in the secondary major.

Specifically, this option allows a student from one degree program to earn a secondary major from a participating department within a different program by fulfilling the requirements (normally 30–36 semester hours) set forth by that participating department but without requiring students to enroll in the additional courses that comprise that other program’s core curriculum. Through the secondary major option, upon graduation, a student earns one baccalaureate degree from Baylor (through the fulfillment of all requirements from the student’s home college or school). Although that student will not be awarded a second degree, the student’s transcript will reflect that he or she earned a secondary major in that second area of study.

Individual departments that wish to participate should design their secondary major requirements in a manner that is comparable with those of their major program while compensating, as appropriate, for the fact that students working toward a secondary major might not have fulfilled all of the core requirements of the department’s college or school. A department should consult with its school’s or college’s Curriculum Committee as it crafts the requirements for its secondary major keeping in mind the core requirements for the other baccalaureate programs. A department’s secondary major proposal will be approved through the normal channels within each school or college.

As an illustration, if an Accounting major from the Hankamer School of Business wishes to earn a secondary major in Mathematics, she will need to satisfy all of the requirements of both her Accounting major and the secondary major in Mathematics. She will then graduate with her class from the School of Business having earned a “BBA in Accounting.” Her transcript will note that she earned a “BBA in Accounting with a Secondary Major in Mathematics.”

Students still have the option to double major within a single baccalaureate degree program or invest the additional time required to earn a second baccalaureate degree, as currently described in the Baylor Undergraduate Catalog.

Interested students should consult with their “secondary” department as early in their undergraduate studies as possible to determine if a secondary major is available and to receive advising (if appropriate).

For more information, please visit the secondary majors webpage: http://www.baylor.edu/vpue/index.php?id=86676.
