

From ProPresenter to Planning Center: Using technology to enhance your worship ministry

ProPresenter (www.renewedvision.com)

- Seamlessly intertwines slides, videos, backgrounds, text, and live video feeds.
- DVD ripping for more reliable video playback.
- Twitter integration for live display of tweets.
- Confidence monitor integrated in through Stage Display feature.
- Multiscreen management for multiscreen environments.
- ProPresenter Cloud allows slide preparation from remote locations and automatically uploads to campus computers logged into cloud account.
- ProPresenter remote controls your presentation over WIFI with iOS devices.

Planning Center Online (www.planningcenteronline.com)

- Valuable online tool for managing volunteers, planning worship services, and organizing music and media.
- Easy distribution of charts, mp3s, worship orders to worship teams.
- Allows worship teams to confirm or decline availability for scheduled services.
- Save templates of worship services for easy starting points.
- Gives you the option to keep track of songs used for easier CCLI reporting.

Other Planning Center services

- Built in PDF readers through Music Stand service (extra subscription fee)
- Portable slide presentations through the Projector service (extra subscription fee)
- Manage rooms and resources for other events through Resources service (extra subscription fee)
- Kids and volunteer checkins through Check-ins service (extra subscription fee)
