*All students must graduate with a minimum of 124 hours,  
36 of which must be at the 3000/4000 level.*

#### Notes about major requirements:

- The interior design program requires that each student present for formal review a portfolio of design projects the term before entering interior design classes at the junior level or above. This review is a selective process by which the design faculty identifies students who are prepared in skills and knowledge to proceed to the junior level studio courses.
- The interior design curriculum is designed to provide the skills, knowledge, and learning experiences that prepare students for professional careers with interior design and architectural firms, other design-related careers, or graduate education. The academic preparation addresses competencies necessary for passing the National Council for Interior Design Qualification, the qualifying exam leading to interior design certification and preparation for licensure.
- Lab Science: Chemistry requirement will be completed with CHE 1405. An additional 8 hours of lab science (with appropriate labs) can be completed from Biology, Chemistry, Geology, Physics, NSC 1306 & 1106, ENV 1301 & 1101, ENV 1303 & 1103, or FAS 1407 (see reverse for specific courses).
- English requirement: Students are allowed to take either ENG 1304 or FAS 1118, 1128, and 1138. Students majoring in the sciences may take ENG 3300 instead of ENG 1304.
- A grade of "C" or better in all family and consumer sciences courses used for the major and a "C" average in courses taken outside the department.
- Freshman students declaring interior design as their major field of study should register for FCS 1332 and 1313 their first semester. Interior design courses must be taken in sequence.
- A student entering the program after their freshman year or transferring to Baylor with 30 plus hours, please be advised that due to course sequencing and prerequisite requirements, it will take a minimum of three to four additional years to complete the interior design degree. This is dependent on status of degree upon entering the program.
- Check your degree audit often through Bearweb to ensure that you are making timely progress toward your degree.
- For more information, see page 91 in the undergraduate catalog.

**Please see reverse side for important information on general requirements.**

### Notes about General Requirements:

- Course selection is subject to availability within each semester.
- Please keep in mind that this is only a suggested sequence. Actual sequence will vary according to possible second major, minor, other program of study (including pre-health) and individual circumstances (ex., transfer credit, dual credit, and credit by exam).
- In order to complete your degree, you must fulfill all requirements in your major and general requirements for the Bachelor of Arts.
- To complete a double major, you may not count any courses toward both majors.
- For more specific information on general requirements, see undergraduate catalog pages 62-67.
- Check your degree audit often through Bearweb to ensure that you are making timely progress toward your degree.

### History/Social Science (choose 2 courses - 6 hours):

- Fashion Merchandising and Fashion Design majors must take ECO 1305 (FAS 1303, 1304, or 1305 will apply or 3 courses from FAS 1115, 1125, 1135)
- General Family and Consumer Sciences (Option 1-leading to teach certification) majors must take HIS 2365 (FAS 1303, 1304, or 1305 will apply or 3 courses from FAS 1115, 1125, 1135).
- Nutrition Sciences majors must take three hours of psychology and SOC 3305.

### Foreign Language:

- **Option A:** One modern language through 2320 level:  
Arabic, Chinese, French, German, Italian, Japanese, Korean, Portuguese, Russian, Spanish, Swahili, Thai
- **Option B:** One classical language through 2320 level or two classical through 1302 level:  
Latin, Greek, Hebrew (If available, Akkadian, Aramaic, Syriac, and/or Ugaritic may be used)

### Math:

- MTH 1301 (Ideas in Math) or MTH 1304\* (Pre-cal) or MTH 1321 (Calculus) or STA 1380. \*Math 1304 is intended only for students who intend to take 1321.

### Lab Science (12 hours) Choose one science course of each area - each must include a lab:

*\*Credit allowed for only one of these courses within each subject area, i.e., Chemistry or Physics.*
