

# Baylor Bachelor of Science in Aviation Sciences (BSA) Degree

## Summer 2021 – Spring 2022 Cost Estimate

2021 - 2022 BAYLOR TUITION COSTS		
Tuition Fee per Spring Semester (Full-Time)		Full-Time Student Tuition Estimate for Four Years
Tuition & Required Fees	\$25,116	Total \$200,928

- Additional costs and fees may apply. Please explore the Student Financial Services website at [www.Baylor.edu/sfs](http://www.Baylor.edu/sfs) for additional information.
- Baylor calculates tuition/fees at a flat rate per academic year (Fall and Spring) for students taking 12 hours or more (full-time) per semester.

Flight Course Name	Course Number AVS Prefix	Estimated Completion Hours	Flight Course Fee
<b>Fixed Wing Flight Courses - Airplane Used - Tecnam P2006, P2008 &amp; P2010</b>			
Private Pilot	1331	50	\$22,760
Instrument	1332	50	\$23,025
Commercial I	2333	60	\$20,398
Commercial II	2334	60	\$23,820
Certified Flight Instructor (CFI)	3236	25	\$13,055
Certified Flight Instructor - Instrument (CFII)	4237	16	\$8,254
<b>Total Estimate Airplane</b>			<b>\$111,312</b>
<b>Rotary Wing Flight Courses - Helicopter Option Robinson R22 &amp; R44</b>			
Private Pilot	1361	55	\$46,025
Commercial/Instrument - I	2362	55	\$46,600
Commercial/Instrument - II	2363	65	\$51,975
Certified Flight Instructor	3364	35	\$32,550
Certified Instrument Instructor - Part 61	4265	15	\$15,950
Night Goggle Vision Flight - Part 61	4266	4.5	\$7,500
<b>Total Estimate Helicopter</b>			<b>\$200,600</b>

- UFC flight training costs are factored into the student's total cost of attendance for the purpose of calculating financial need at Baylor. This is done by Student Financial Services at the time the student is registered for their courses. Award packages do not take into consideration the possibility of flight courses and therefore may not cover the costs entirely. Additional external funding may be necessary.
- Approximately 90% of students attending Baylor qualify for merit or need based scholarships, grants, student loans, and/or part-time student employment, but it is incumbent upon the student to search and apply for them. Many aviation related scholarships and grants are listed on our website at [www.Baylor.edu/aviation](http://www.Baylor.edu/aviation).
- Costs are based on the number of hours estimated to complete each course at UFC and may vary depending on student's individual progress and the type of aircraft used.
- Included in the flight course estimates are plane usage, fuel expenses, additional fuel surcharge, flight instruction, ground instruction, FAA Knowledge Test, and FAA Examiner Fee with the required number of check rides. The use of a flight simulator may take the place of hours in the airplane as allowed per FAA regulations. All unused flight account funds are fully reimbursed.
