Curriculum Vitae

Award-winning, multi-faceted Scholar, Professor, and Community Leader transforming curricula, engaging students, and promoting global awareness through educational, cultural, and experiential activities at all levels.

- **Research Interest:** Obesity, nutrition epidemiology, health education and promotion, global health, maternal and child health, health disparities, environmental health
-

Education and Credentials

DrPH, Epidemiology, 2011 – East Tennessee State University, Johnson City, TN

Graduate Assistant for Department of Biostatistics and Epidemiology, College of Public Health

Award: Student Award of Excellence, 2010

MPH, Epidemiology, 2008 – East Tennessee State University, Johnson City, TN

Elected to Alpha Pi Chapter of the Delta Omega: Honorary Society in Public Health

MD, Medicine, 2004 - Wuhan University of Science and Technology, China

Physician Intern Team Leader, Shenzhen No. 2 Hospital

President of Student Association in the College of Medicine

Evidence-Based Optimal Nutrition Certificate, Harvard T. H. Chan School of Public Health

Statistics Analysis System (SAS) Base Programmer for 9.1 Certification

Research Accomplishments

Family context, child characteristics, child-rearing features, and obesity risks: a 15-year longitudinal analysis (5/1/2019-4/31/2021)

- Serving as PI for \$148K NIH R03 project (Funded; impact score: 19, percentile: 3.0).

Build environment and metabolic syndrome in an at risk pediatric population of South Central Appalachia (12/1/2019-11/30/2021)

- Coinvestigating \$407K NIH R21 project (pending IRG Review) with Arsham Alamian, PhD, MS.

CVD Appalachia: Building capacity for patient-centered care and patient-centered outcome research (9/1/2019-8/31/2021)

- Coinvestigating \$250K PCORI project (pending Review) with Hadii Mamudu, PhD, MPA.

Childhood obesity prevention programs and related policies in China and comparison with other countries (7/1/2018-12/31/2019).

- Coinvestigating \$30K UNICEF project with Youfa Wang, MD, PhD.

A program to prevent and reduce tobacco use, promote better nutrition, and facilitate access to health services among high-risk population in predominantly rural Central Appalachia (10/1/2018-9/30/2023).

- Coinvestigating \$4.5M CDC project recommended for funding with Hadii Mamudu, PhD, MPA.

Continued...

A pilot study of the relationship between the built environment and metabolic syndrome in an at risk pediatric population of South Central Appalachia (4/1/2019-3/31/2021).

- Coinvestigating unfunded NIH R21 project with Arsham Alamian, PhD, MS for approximately \$407K.

Pathway-based analyses of cognitive performance and age at onset of Alzheimer's disease (4/1/2019-3/31/2021).

- Coinvestigating unfunded NIH R03 project with Kesheng Wang, PhD for an estimated \$296K.

Developing a Research Agenda to Prevent and Control CVD in Central Appalachia (4/1/17 to 3/31/2019).

- Coinvestigated funded PCORI project valued at \$250K with Hadii Mamudu, PhD, MPA.

Multilevel systems-oriented childhood obesity study in China (9/1/2011 to 12/31/2016).

- Principally investigated subcontract of SUNY Buffalo for U54 Center P3 Grant for \$2.1M for NIH/NICHHD (U54HD070725-01) project with Youfa Wang, MD, PhD.
- One of three key research projects of the NIH U54 Center grant.

Population Health Improvement Plan (6/25/15 to 6/24/16).

- Coinvestigated fully funded \$20K TN Dept. of Health project with Hadii Mamudu, PhD, MPA.

Influence of Healthcare Setting on Obesity Risk among U.S. Children (7/1/2015-6/30/2016).

- Served as PI for \$8K+ funded project with ETSU Research Development Committee Major Grant (16-011M).

College Students as Facilitators to Reduce Adolescent Obesity Disparity Role (4/8/11-11/30/14)

- Coinvestigated \$970K+ project funded by NIH (R01)/Center on Minority Health and Health Disparities along with Deborah L. Slawson, PhD, RD.

The impact of maternal prenatal smoking on childhood obesity Role (11/1/2011-10/1/2012).

- Served as PI of \$1,499K funded project with ETSU Research Development Committee Small Grant (12-019sm)

Professional Experience

Academics

BAYLOR UNIVERSITY/EAST TENNESSEE STATE UNIVERSITY, HARVARD UNIVERSITY, UNIVERSITY OF NORTH CAROLINA AT CHAPEL HILL, **Associate Professor/Visiting Scientist**, 2011 to Present

Support nationally recognized and federally funded research program by conducting discipline-related research, presenting at conferences, producing high quality publications, and involving students. Work closely with interdisciplinary research teams to enhance curricula and promote teaching excellence. Participate in technical and professional outreach teams and organizations. Contribute to committees at all levels. Rigorously and effectively instruct and advise graduate students. Devise curriculum and teaching materials informed by current research and practices.

- **Associate Professor with Tenure, Director of Epidemiology** | Baylor University, Department of Public Health, Robbins College of Health and Human Sciences – Waco, TX (from August 1, 2020-now): teaching undergraduate and graduate courses; engage in the programmatic work and

Liang Wang, MD, DrPH, MPH, FACE, FTOS

— Page 3 of 31

activities of the Baylor Department of Public Health; develop and submit funding proposals to support research training and infrastructure; and serve the university and public health profession.

- ***Leadership:*** Serve as **Director of Epidemiology**- assume responsibility for leading the programs in Epidemiology concentration and work in multidisciplinary research and teaching teams; develop and teach undergraduate and graduate public health/epidemiology courses in both on-campus and online settings; recruit, retain, and mentor a diverse student body; work collaboratively with epidemiology faculty, community health faculty, and Baylor leadership; and build local and global public health partnerships.
- ***Other:*** Serve as an invited expert by department chair at The University of Texas Medical Branch to evaluate his Assistant Professor to promote to Associate Professor; Serve as invited dissertation committee member for a doctoral student at East Tennessee State University College of Public Health.
- ***Associate Professor with Tenure*** (July 2017-July 2020); ***Assistant Professor*** (August 2011-June 2017) | ETSU Department of Biostatistics and Epidemiology, College of Public Health; ***Graduate Faculty Member with Tenure*** (June 2017 – July 2020 | ETSU School of Graduate Studies – Johnson City, TN.
 - Courses:*** Epidemiology I & II, Advanced Multivariate Analysis, Applied Epidemiology Analysis, Analytic Methods in Public Health, Doctor Public Health Dissertation, Graduate Research, Public Health Program Field Practice, Doctoral Public Health Practice, Doctoral Public Health Dissertation: Epidemiology, Read/Research: Epidemiology
 - ***Departmental Engagement:*** Serve as Chair of Master of Public Health (Biostatistics and Epidemiology) admission committee and Chair of the third- year faculty tenure and promotion review committee.
 - ***College Leadership:*** Collaborate with various councils and committees, including Curriculum, Faculty Council, Student Scholarship, and Diversity and Social Justice committees.
 - ***University Service:*** Actively participate on Faculty Senate and Research Development Grant Review Board. Nominated University Distinguished Faculty for Service Award in 2019.
 - ***Program Liaison:*** Selected as Exchange Program Coordinator between ETSU and Chinese schools of Public Health. Presented at Conferences on topics in chronic diseases.
 - ***Awarded Performance:*** Received Dean’s Special Recognition Award for University (ETSU) Leadership Faculty Senate in 2017, Dean’s Special Recognition Award for Service on the Faculty Council at ETSU in 2017, and ETSU College of Public Health Foundation Service Award in 2018. Nominated by Dean of College of Public Health for ETSU Distinguished Faculty Award for Service in 2019.
 - ***Student Mentor:*** Advised over 30 students at both MPH and DrPH levels and visiting scholars. Served on 7 doctoral level (DrPH) academic committees (4 as the chair), and 7 dissertation committees (4 as the chair). Assisted two DrPH students with obtaining external funding or scholarship for dissertation. Assisted one MPH student with obtaining college-level research award.
 - ***Nationally Nominated:*** Nominated 2015 Faculty Mentor of the year by Southern Regional Education Board's State Doctoral Scholars Program.

- Unofficial Advisor: Established faculty-student research interest group in response to large numbers of non-advisee students requesting advisorship on research projects.
- **Visiting Scientist/collaborator** | Harvard T.H. Chan School of Public Health – Boston, MA (Jan 2019 – Present): Conduct nutrition epidemiology research for one of nation’s preeminent schools of Public Health (Mentor: Dr. Frank Hu, Fredrick J. Stare Professor of Nutrition and Epidemiology and Chair of Department of Nutrition).
 - Contest Judge: Judged Public Health Poster Day with 85 entries.
 - Collaboration: Founder and President of Institute of Health Education and Lifecourse Promotion & Founder and President of International Chinese Nutrition Young Scholar Network, collaborating with Harvard T. H. Chan School of Public Health; keep publishing peer-reviewed manuscripts in top journals including a recent accepted article in JACC (impact factor=20.589)
- **Visiting Scholar** | University of North Carolina: Department of Nutrition, Gillings School of Public Health – Chapel Hill, NC (July-September, 2017): Collaborate on nutrition epidemiology projects for the Nutrition Department situated in School of Public Health.
 - Published Author:
 - First-authored abstract, “Influence of Dietary Fat Intake on Body Weight and Risk of Obesity among Chinese Adults”, published in Lancet Journal.
 - First authored full article “elevated fat intake increases body weight and the risk of overweight and obesity among Chinese adults: 1991-2015 trends” was published in Nutrients (Impact Factor=4.546)
- **Graduate Assistant** | East Tennessee State University: Department of Biostatistics and Epidemiology, College of Public Health – Johnson City, TN (August 2006- May 2011): Working with Professors for Research and Teaching
 - Research: Helped Professor for a number of research proposals, including a funded NIH R01.
 - Teaching: Helping Professor for preparing multiple courses’ development and teaching.

Industry

TYCO INTERNATIONAL (TYCO HEALTHCARE)/ GUANGDONG NEW SOUTH GROUP (ARTEPHARM CO., LTD)/GLAXOSMITHLINE (GSK) PHARMACEUTICAL COMPANY (TIANJIN SMITH KLINE & FRENCH LABS. LTD), **Business Executive/International Marketing Supervisor/Sales Representative**, 2014 to 2016

- **Business Executive**, Tyco Healthcare
 - Multiple skills developed: Communication, leadership, time-management, problem solving, decision making, administration, customer service, project management, etc.
- **International Marketing Supervisor**, Artepharm Co., Ltd.
 - Global Health: Went to Cambodia with well-known Artemisinin (QingHaosu) experts for helping malaria control and prevention.

- **Sales Representative**, Glaxosmithkline (GSK) Pharmaceutical Company
 - Top Five Trainee: Won the nationally Top Five of the Initiated Training Course for Sales trainee held in Aug.30-Oct.12, 2004.

Scholastic Activities

Founder and President, INTERNATIONAL CHINESE NUTRITION YOUNG SCHOLAR NETWORK (ICNYSN) (2016-Present) **website: www.icnysn.org**

- Currently boast worldwide membership (academic and industry scientists and leaders) of more than 2K and growing from Universities such as Harvard, Tufts, and Cornell as well as Peking, Fudan, and Shanghai Jiaotong in China.
- Gaining recognition as one of the leading organizations in nutrition and health worldwide, particularly among Chinese scholars.
- Launch international programs, including Global Dialogue, in Chinese and English.
- Lead ICNYSN to cohost the Nutrition and Health forum for International Health Congress
 - Chair, Nutrition and Health Session, International Health Promotion and Development Congress, Guangzhou, China, November 2020.
- Lead ICNYSN to cohost the Nutrition and Health forum for Global Health International Congress in 2017, 2018, and 2019, respectively, Xi'an, China
 - Chair, Nutrition and Health Session, for 1st, 2nd, and 3rd Global Health International Congress, Xi'an China.

Founder and President, INSTITUTE OF HEALTH EDUCATION AND LIFECOURSE PROMOTION (iHELP) (2019-Present)

- To build the capacity of healthcare professionals at home and abroad through the mobilization of global expertise in academia and industry and the provision of world-class continuing education coursework and service (Mission)
- Synchronized access to world-class training and development for healthcare professionals worldwide (Version)
- MOU collaboration with Harvard T. H. Chan School of Public Health has been approved (e.g., working on *The Nutrition Source*, <https://www.hsph.harvard.edu/nutritionsource/>)

President /Vice President, TRI-CITIES CHINESE CULTURE ASSOCIATION (2020-21; 2013-14, 2018-19)

- Hosted numerous community activities (Mid-Autumn Festival, New Year Celebration) with approximately 300 in attendance.
- Invited to present on Chinese culture at a Veteran's Affairs sponsored Diversity Fair and at an area High School.
- Responded to requests to help needy students by ETSU's International Programs and Services Director.

President-Elect/Board Director, CHINA HEALTH POLICY AND MANAGEMENT SOCIETY (2016-Present) **website: www.chpams.org**

- President-Elect (2020-2022) and President (2022-2024)
- Selected as one of seven board directors worldwide for this prestigious position (2016-2020)
- Organize and host a number of online webinars for academics/research/career development for all members worldwide
- Represent the society to cohost the global health conference, e.g., 2019 Global Health Conference in Xi'an, China

- Served as Moderator and Chair of 1st and 2nd Conferences hosted at Yale and Emory Universities with 240 public health, economics, and data science researchers and professionals, entrepreneurs, non-governmental organizations, U.S., Chinese, and other government officials.

Associate Director, CHINA-TENNESSEE HEALTH EDUCATION TRAINING INSTITUTE (2011-2020)

- Appointed as liaison by ETSU Dean of College of Public Health to identify potential international and domestic training and research collaborations for ETSU's China program. Served as Chinese-English Translator.
- Assisted with preparing award winning application for Dean to win Distinguished Overseas Professor by School of Public Health at Guangdong Pharmaceutical University in China.
- Interviewed by *NETWORKS Sullivan Partnership*, at Dean's request. Played key role as Executive Assistant of rural health exchange program between China's Ministry of Health and TN's Department of Health. Helped recruit employees from China to work in Tennessee.
- Led about 20 public health leaders from China for 2-3 weeks health education training.

Elected Fellow, the AMERICAN COLLEGE OF EPIDEMIOLOGY (2020-)

- Reviewed abstracts submitted for annual meeting in 2012 and 2018.
- Considered F.A.C.E. distinction.

Elected Fellow, The Obesity Society (2020-)

Chair, PUBLIC RELATIONS AND WEBINAR COMMITTEES, NORTH AMERICAN CHINESE SOCIETY FOR NUTRITION (2015-2017)

- Invited a number of well-known guest lecturers for a series of webinars in academic and career development.
- Co-edited annual newsletter distributed to over 2000 members.
- Received Outstanding Leadership and Service Award and unanimously re-elected as Chair and board director in 2016.

Editorial Board Member, CHINA HEALTH REVIEWER (2015-Present), PLoS One (2018- Present),

Oral Presentation Commentator/Chair, 1st, 2nd, 3rd, 4th Westlake Youth Forums (2012-Present)

Awards/Honors

- Fellow of The American College of Epidemiology (FACE), USA, 2020
- Fellow of The Obesity Society (FTOS), USA, 2020
- ETSU the University Distinguished Faculty Award for Service Nominee, Tennessee, USA, 2019
- Best Poster Presentation Award, CVD Appalachia Conference, Tennessee, USA, 2019
- Foundation Service Award, ETSU College of Public Health (one per academic year per category), 2018
- Invited Candidate for Assistant Dean, ETSU College of Public Health, 2018
- Banner Carrier for ETSU College of Public Health, Graduation Ceremony, 2018
- ETSU Dean's Special Recognition Award for Service for University Leadership Faculty Senate, 2017
- ETSU Dean's Special Recognition Award for Service on Faculty Council, 2017
- Tennessee Service Award, 2017

- Fellow (one of approximately 46 worldwide) of 49th Ten Day International Teaching Seminar on Cardiovascular Disease Epidemiology and Prevention in Malaysia, 2017
- Travel Fellowship Award for 1st, 2nd, 3rd and 4th Westlake Summer Youth Forum on health Policy and System Sciences, 2012, 2015-16, and 2019
- 5th Chinese Nutrition Leadership Program Trainee (only one selected from N. America), 2015
- Guest Editor for Special Issue of Nutrition Discovery on Non-communicable Chronic Diseases, 2015
- American Public Health Association Maternal and Child Health Section Outstanding Author, 2009-11
- President of the Student Association, Guangzhou No.7 Middle School
- Represented Guangzhou City (only five high school students from Guangzhou were selected) to participate in the China national high school students intelligence competition (CCTV Samsung Intelligence Express)
- Selected for juvenile class for gifted children (skipped two grades), Shashi Middle School, Jingzhou, Hubei, China, 1989

1. Elaine Loudermilk, MPH

President of CPH Student Council
DrPH Epidemiology Graduate Research Assistant
Department of Biostatistics and Epidemiology
College of Public Health
East Tennessee State University
Email: loudermilken@etsu.edu

“I first began working with Dr. Wang in Applied Epidemiology, a course required for my Doctor of Public Health degree concentrating in Epidemiology. His expertise and guidance in career building and preparation for a career in epidemiology combined with medicine was and is incredible. I grew as a student and as a professional in the first class I had with him and even more the following semester in Advanced Multivariate Analysis. I grew in more than one way: networking with professionals all over the United States in HIV research (my dissertation topic), in communication and team building with my colleagues (both Master and Doctoral levels), and in analytic epidemiologic methodology and statistical analysis software usage. We still work together on research regarding HIV, and I still learn from him as he mentors me even after taking classes with him as my professor. Having Dr. Wang's support and guidance throughout my time at East Tennessee State University as a Doctor of Public Health student focusing on epidemiology (and plans to become a medical epidemiologist) is something I will always be grateful for. His mentorship to me has helped me to become a better resource in being a teaching assistant to new students in the Master of Public Health, concentration in epidemiology, program at ETSU. I am extremely grateful to have learned from Dr. Wang during his classes and am excited to continue working with Dr. Wang in research. Thank you, Dr. Wang, for making yourself a resource to me for epidemiologic methods, conferences, publications, and professional advice as I prepare for my career!”

2. Candice Collins, DrPH, MPH

Previous DrPH Epidemiology Graduate Research Assistant
Department of Biostatistics and Epidemiology
College of Public Health
East Tennessee State University

Liang Wang, MD, DrPH, MPH, FACE, FTOS

Email: collins@etsu.edu

“I have known Dr. Wang for 3 years and have interacted with him extensively in his capacity as my mentor and professor. During my DrPH program, I have come to know Dr. Wang very well, and therefore can comment on some aspects of his teaching and advising. Dr. Wang is a kind and hard-working mentor and teacher, and it has been a pleasure working with him. For example, he put tremendous effort in getting me an internship with the Henan Provincial CDC in China. He took the time to translate my application from English into Mandarin then arranged a meeting with my supervisor to ensure I would benefit from the experience. An important aspect of Dr. Wang’s interactions with students is his availability to answer questions and interest in students’ work. I personally have benefited from working with and taking courses from Dr. Wang and sincerely hope that his efforts as a teacher and mentor will be rewarded.”

3. Minoti Ganguli, MPH

Previous MPH online student

ETSU College of Public Health Dr. Tiejian Wu Research Awardee

Email: getminoti@gmail.com

“I have known Dr. Wang from the year 2013 to 2016 as he was my academic advisor throughout my MPH coursework. During my entire coursework I came to know him very well as he was my constant source of support and mentored me throughout my graduate school years in East Tennessee State University. Dr. Wang is a kind, hard-working and remarkable professor who gave me his full support and guidance each and every semester and helped me select courses which could add value to my coursework. He took keen interest in helping me shape my career and continued to encourage me to apply for internship with the prestigious Northwestern University Feinberg School of Medicine in Chicago. Without his guidance and collaboration with the PI, it would have been impossible for me to get a position in such a prestigious organization. Dr. Wang and I conducted a secondary database analysis of Mediators of Atherosclerosis in South Asians living in America (MASALA) study data to reduce cardiovascular risk factors among South Asian population. The MASALA study is based on the Framingham study, this study began in Oct 2010. MASALA study is the first longitudinal study on South Asians living in the U.S. to understand what factors lead to heart disease and guide prevention and treatment of heart disease which is highly prevalent in this ethnic group compared to other ethnic groups in the U.S. Dr. Wang was involved in development of the study protocol that was submitted to the Steering Committee. It was a competitive process and with his due support and constant review, I was able to get my research proposal accepted in Northwestern University which was among a very few proposals that got approval. He has helped me in every way so that I was able to successfully represent ETSU College of Public Health’s strong academic program by bringing this collaboration with Northwestern University. He invited Associate professor and PI Dr. Namratha Kandula from Northwestern University Feinberg school of Medicine to give presentation about the MASALA study to the current DrPH Epidemiology students. His valuable research insight helped me to develop a sound study design methodology and use the right statistical analysis tools for the study. Dr. Wang has also assisted me in completing the Abstract for the research study which was presented as a Poster Presentation on 7th April, 2016 in Public Health and Social Science Research Day Conference in Northwestern University Feinberg School of Medicine. He has demonstrated leadership and mentored a student with full diligence throughout her graduate school years. Based on my good performance, I won Dr. Tiejian Wu Research Award in 2016. Thanks a lot for your mentorship and help!”

4. Anca Shaw, MPH

Previous MPH online student

"I am more than happy to present this recommendation letter for Dr. Liang Wang. I have known Dr. Wang for 3 years and have interacted with him extensively in his capacity as my master's degree academic advisor and mentor at East Tennessee State University College of Public Health. Dr. Wang is a remarkable advisor and it has been a pleasure working with him. His ongoing advice and support have helped me successfully complete my master's degree. An important aspect of Dr. Wang's interactions with students is his availability to answer questions, interest in students' work, ability to provide just the right amount of structure yet allow the student some independence. Dr. Wang is inquisitive and always looking for innovative solutions to even the most basic issues. That inquisitive nature translated very well into his career as an academic advisor and instructor. Dr. Wang is also extremely dedicated to the concept of mentoring. He feels a strong sense of responsibility to the students in his classes and he takes their success very personally. I personally have benefited from working with Dr. Wang and I thank him for his efforts as a teacher and academic advisor at ETSU. I am available if you need further information."

5. Ifeoma Ozodiegwu, DrPH, MPH

Previous DrPH student
Rotary International Scholar
Postdoc Research Fellow, Northwestern University
Email: ozodiegwu@etsu.edu

"Dr. Liang Wang is an educator par excellence and a dedicated researcher held in high esteem by students and faculty at East Tennessee State University. I consider myself fortunate to have studied under him. When I took his class, Dr. Wang went to painstaking lengths to ensure that I and other students grasped the material. Under his mentorship, I blossomed as a researcher and I was able to more deeply develop my ideas leading to my receipt of the Inaugural ETSU Sherrod Library Scholarship for Excellence in Research for my class paper. Therefore, I wholeheartedly recommend him to any institution of higher learning and to other students. His data analysis classes are the best classes on campus!"

Course Prefix and Number	Related Student Comments
PUBH 3351 Epidemiology/Vital Statistics	<ul style="list-style-type: none"> • Epi as a subject is quite expansive and the learning objectives dr. Wang set out to define in the beginning of the semester were well taught by the end of the class. • Structure of the course was very well put together, Professor Wang did an outstanding job teaching the course and explaining all material. • Dr. Wang is very thorough in his teachings and applies topics to real life situations. Additionally, he made sure to always send his research to his students so we could see examples of applying what we learned. • Professor Wang was the most valuable aspect of this course. His attitude, understanding, and willingness to help his students in whatever way possible was so encouraging and it made it so much easier to be successful in this difficult course! • I found it valuable how Dr. Wang incorporated his own experiences and research into his Powerpoints and discussion of course material. It made the class far more interesting for more and expanded my interest in Epidemiology in general. • This course was very informative and engaging. I enjoyed the Dr. Wang's teaching style and powerpoints. Understanding the concepts of epidemiology and the formulas used in calculating data was a great skill to learn. • Dr. Wang was very informative and helpful the entire semester. I really appreciated his willingness to involve students in research. • I loved this class! I'm so thankful that I got to know Dr. Wang and learn from him this semester. • Dr. Wang was always open to meeting with students to discuss their grade, topics discussed, or really anything we needed help with. He made sure to be available for his students and be clear in his expectations. • This was a wonderful course. Dr. Wang did a great job not only accommodating to our needs throughout the semester, but also being a supportive mentor to his students. He was easy to connect with and made me feel very comfortable coming to him for help or with questions. I would take this class again in a heartbeat. It was an honor to learn from Dr. Wang. • Dr. Wang is a great professor and really cares about his students. He is easy to approach and will always respond to emails on time. His teaching style is easy to follow and his exams/quizzes test our knowledge well. He is always available to help any student. Thank you Dr. Wang!
