Community Preference

- Use the drop-down menu to select your top four housing preferences. You can choose First Year Community, any of the seven Living-Learning Centers, or any of the three Residential Colleges.
- Remember that First Year Community encompasses all six FYC halls: Collins, Penland, Kokernot, Martin, University House, and Texana House. You will not choose a specific hall until you Choose Your Own Room in June.
- Select any combination of the available choices. Each preference must be a different community.
- Refer back to the Community Information for more details on these options.
- All four preferences are required.
- Four written reasons for joining a community are also required on the Community Questions page.
- Roommate Matching and Choose Your Own Room will be based on your approved community.

FYC = First-Year Community
LLC = Living-Learning Centers
RC = Residential Colleges

Add 4 selections, they must all be different. Please complete a written statement about your 4 preferences to continue.

- Complete the short-answer questions in 2-3 sentences explaining why you selected that community.
- Your answers will be reviewed by the Program Director of each Community.
Lifestyle Matching Questions (Optional)

- All students are encouraged to complete the lifestyle matching questions even if they already know their preferred roommate(s). The best roommates are often people who have similar lifestyle characteristics; for instance, how clean you prefer your room or how much noise you like when you are studying.

- Complete the questions by using the 5-point drop-down menu.

- These questions will be used to establish compatible roommate matches starting early May, when the Roommate Matching system opens.

- A Roommate Matching Guide will be available to all students eligible for Roommate Matching when it begins in May.

Roommate Matching

May 8 – May 29, 2019

All incoming first-year students can take advantage of Roommate Matching if your housing application is completed on or prior to May 1, 2019.

- Matching is based on the Lifestyle Questions you answered in the Housing Application.
- You will only match with students who are approved to the same community as you.
- After Roommate Matching opens, you will see a list of students with varying roommate compatibility.
- If you and another student already know you want to be roommates, you can search for each other. Both students will need to have completed their housing application on or prior to May 1, 2019 and be approved for the same community.
- Roommate Matching is optional. If you prefer not to request a roommate, you can view profiles of other students who have already selected a space in your community during Choose Your Own Room, or a student will select the other side/half or your room as their space, or you will be assigned a roommate by Campus Living & Learning.
- Any one who completes their housing application after May 1 will not be included in the specific roommate search or suggested roommate matches.

Roommate Matching allows students to View Profile (Lifestyle Questions), Invite a Roommate, Accept/Decline a Roommate Request, or send a message to a potential Roommate Match, view the top rated matches, or find a specific person that you already know would be a good roommate fit.

All Roommate Matches must be done through the housing application. No outside matching processes are accepted, such as matching through Facebook.
All incoming first-year students will get to Choose Your Own Room if your Housing Application is completed on or prior to May 1, 2019.

- Choose Your Own Room allows eligible students to view open rooms and select which building/floor/room/bed combination matches their interests and needs.
- All students who complete their Housing Application on or prior to May 1, 2019 will be given a date and time (Room Selection Timeslot) to Choose Your Own Room online. Each student’s timeslot will be different. Timeslots are used to reduce the number of students selecting a room at any one time.
- When your timeslot opens, you will only see available spaces in the communities in which you are approved to live.
- Timeslots (Room-Selection Timeslot) will be issued in early May to students who complete their housing application on or prior to May 1, 2019.
- If you participated in Roommate Matching, it is advised that the roommate with the earliest assigned timeslot pick the room to have the best selection.
- Roommate Groups must assign the entire group (all members of the group). If you desire to leave your roommate for a different room, you will need to disband your group or remove that member.
- If you apply after May 1, 2019, you will be assigned a room by Campus Living & Learning based on your community preferences, lifestyle questionnaire, room types and available space.
