Notes about major requirements:

- FDM 1303 is not a specific requirement. It would fulfill a requirement for one FDM course, but students could fulfill those requirements from a different upper-level FDM course.
- FDM 2360 students are encouraged to take this course as soon as possible because it is a prerequisite to many upper-level courses. However, due to limited class size, if students are not able to register for the class during the fall of the sophomore year, please register for it during the spring of the sophomore year. FDM 3361 is not a specific requirement, but it is a pre-requisite for many FDM classes and especially important if you are emphasizing the production track.
 - *FDM 3351 is offered every fall while FDM 3352 is offered every spring.
 - If you plan on doing an internship in the fall of your senior year, take BIC 4374 Cultures V in your junior year.
- Check your degree audit often through Bearweb to ensure that you are making timely progress toward your degree.
- For more information, see the undergraduate catalog.

Notes about General Requirements:

- Course selection is subject to availability within each semester.
- Please keep in mind that this is only a suggested sequence. Actual sequence will vary according to possible second major, minor, other program of study (including pre-health), and individual circumstances (ex., transfer credit, dual credit, and credit by exam).
- In order to complete your degree, you must fulfill all requirements in your major and general requirements for the Bachelor of Arts.
- To complete a double major, you may not count any courses toward both majors.
- For more specific information on general requirements, see the undergraduate catalog.
- Check your degree audit often through Bearweb to ensure that you are making timely progress toward your degree.
