My signature below indicates that I understand registration changes made by me may affect my VA benefit amounts paid to me. Baylor University may choose to advance funds to you based on timing of receipt of VA funding, which could require repayment if VA funding changes. Any change in my registration after certification may cause an overpayment, making me financially liable to the VA for debt created by my registration changes after certification. I understand it is my responsibility to update my address with the VA to receive proper notification from the VA regarding debts that I may have created.
