### Monday Healthy Tip

Having a consistent fitness routine is the easiest way to make activity part of your daily life. When planning your exercise, aim for SMART moves (specific, measurable, attainable, realistic, timely). Pick a time, place, and activity that fits into your life and stick with it. Find three places in your schedule this week where you can fit fitness. It may be in the morning, during your lunch break, before dinner, or in the evening. Recommit to these times at the end of the week, or adjust your work-out schedule if need be. For additional information, contact [Lori\\_Genous@baylor.edu](mailto:Lori_Genous@baylor.edu).
