

## Bachelor of Science in Anthropology - Prehealth Care Concentration (BIC)

*A Suggested Sequence of Required Courses (2017-2018 Catalog)*

F r e s h m a n Y e a r			
Fall			Spring
_____	0	Chapel (CHA 1088)	_____
_____	2	BIC 1212 Examined Life I	_____
_____	3	BIC 1314 World Cultures I	_____
_____	4	BIC 1413 Rhetoric I	_____
_____	4	<b>ANT 1404 Intro to Biological Anthropology</b>	_____
_____	4	Lab Science Elective: (CHE 1301/1101 for PM)	_____
Total:	17		Total: 17
S o p h o m o r e Y e a r			
Fall			Spring
_____	3	BIC 2330 Social World I	_____
_____	3	BIC 2334 World Cultures III	_____
_____	3	<b>ANT 2307 Intro to Archaeology</b>	_____
_____	3	STA 2381 Intro to Statistical Methods	_____
_____	4	Science Elective: (BIO 1306/1106 for PM)	_____
Total:	16		Total: 15
J u n i o r Y e a r			
Fall			Spring
_____	3-4	Foreign Language 1401/1412 (see reverse)	_____
_____	3	Science Elective: (CHE 3332 for PM)	_____
_____	2	Science Elective: (CHE 3238 for PM)	_____
_____	3	<b>ANT Subfield</b>	_____
_____	3	<b>ANT Elective (see below)</b>	_____
_____	1	Lifetime Fitness	_____
Total:	15-16		Total: 17-18
S e n i o r Y e a r			
Fall			Spring
_____	3	Foreign Language - 2310 (see reverse)	_____
_____	3	<b>FORS/ANT 4355 Forensic Anthropology</b>	_____
_____	3	<b>ANT Elective (see below)</b>	_____
_____	4	Science Elective: (BIO 3422 for PM)	_____
_____	4	Science Elective: (PHY 1408 for PM)	_____
Total:	17		Total: 16

*All students must graduate with a minimum of 124 hours, 36 of which must be at the 3000/4000 level.*

### Notes about major requirements:

- For students pursuing the BS degree in Anthropology with a concentration in Prehealth Care, research shows that students with a degree in Anthropology have a higher acceptance rate to medical school than students with degrees in Biology or Chemistry. The major provides the flexibility to incorporate the undergraduate laboratory science courses required by medical schools; however, the specific courses required change periodically, so we strongly suggest that students intending to pursue medical school contact the Office of Prehealth Studies for additional advising.
- ANT Subfields: The student must complete a minimum of three upper level (3000-4000) semester hrs in ANT from each of the following subfields: Cultural Anthropology, Archaeology, and Biological Anthropology. See your degree audit for course offerings in each subfield.
- ANT Electives: The student must complete at least twelve semester hours of ANT electives, at least nine of which must be at the 3000-4000 level and at least six hours must be selected from the following options: ANT 4314, 4316/4116, 4330, 4371, and 4372 \*Note: ANT 4670, 4680, or 4690 (field school) may count as 6 hours of advanced ANT electives. Field school must be completed during either the first or second summer session; it is recommended that a student complete field school in the summer between junior and senior years.
- Lab Science Electives: Students must take at least eight semester hours from: BIO 1305/1105, BIO 1306/1106; CHE 1301/1101, 1302/1102; ENV 1301/1101, ENV 1303/1103; GEO 1405, 1406; NSC 1306/1106; PHY 1408 (or 1420), PHY 1409 (or 1430). Consult the Prehealth recommendations for appropriate choices.
- Science/Math Electives: The student must complete an additional 20 hours of science and mathematics courses from one or more of the following fields: Biology, Chemistry, Environmental Studies, Geology, Mathematics, Neuroscience, Physics, and Statistics. All courses selected must apply to a major in their respective departments. \*Note: The total number of Science/Math Elective courses will vary depending on the number of lab courses as well. ALEXs placement exams are used by the Baylor Math Department for placement in MTH 1320 and MTH 1321. Please refer to the Math Department website for full instructions on the exam process.
- Check your degree audit often through Bearweb to ensure that you are making timely progress toward your degree.
- For more information, see the undergraduate catalog.
