

# **Baylor Public Health Program**

## **Baylor University**

### **2018 Preliminary Self-Study**

The Council on Education for Public Health (CEPH, <https://ceph.org>) accredits schools and programs of public health. The accreditation criteria established by CEPH in October of 2016 are available at the following link: <https://ceph.org/assets/2016.Criteria.pdf>

The Baylor University Public Health Program was established in 2009 and accredited in 2013 for a 5-year period. Accredited programs are subject to a reaccreditation review process at the end of each accreditation period. The review process begins with the completion of a programmatic self-study and the submission of a preliminary self-study report.

Faculty and constituents of the Baylor Public Health Program have been working over the past 18 months to align our program with the new criteria and evaluate our program. We recently completed our self-study and submitted our preliminary self-study report to CEPH on May 18, 2018.

This preliminary self-study report is available for review at:

<https://www.baylor.edu/hhpr/index.php?id=56003>

## **October Site Review: October 18-19, 2018**

The reaccreditation process also includes an October site visit by external reviewers selected by CEPH. The external review committee will make recommendations to the full CEPH council based on the final self-study document and additional information obtained during the site visit. Comments from third parties provided directly to CEPH are also taken into consideration.

## **Call for Third Party Comments by September 18<sup>th</sup>**

CEPH will accept third party comments about the program until 30 days prior to the scheduled visit.

The deadline for submitting comments to CEPH is September 18, 2018

Written comments may be sent to:
