RESEARCH

Research Identity and Interests

I am a social scientist who uses qualitative methods to understand how minority populations experience support in healthcare contexts. I aim to empower these populations to change the status quo through community action and policy. My research interests focus on issues regarding the relationships among social support, minority populations, and healthcare.

Research Assistant

Spring 2018

Emily Rauscher, PhD – Department of Communication, Texas A&M University

Improving research translation via family-based risk communication: Health risks from exposure to recreational areas in Houston contaminated by Hurricane Harvey flooding. Special Hurricane Harvey Pilot Project Program Proposal, The Center for Translational Environmental Health Research (CTEHR) Pilot Project Program

- Recruited participants
- Conducted interviews
- Analyzed data
