

THE PROGRAM

ROME, THE BAY OF NAPLES, AND SORRENTO

The Baylor in Italy Program offers courses on **The Archaeology and Art of Rome** (CLA 4v01) and **Reading Rome!** (LAT 4v01). These courses introduce students to the art, archaeology, history, and mythology of the Roman world.

Students fly to Rome for two weeks of on-site study. Afterwards the trip moves south to the Bay of Naples before returning to Rome. The Hotel Sant' Anna in Rome is just a short walk from St. Peter's Basilica. Our accommodations around the Bay of Naples offer superb views of the Mediterranean Sea.

The sights, sounds, monuments, and places you visit in Italy become your classroom. In this academic program, you study at ancient sites, visit excavations, and see things off-limits to the general public.

PROGRAM COST > \$4395

(excluding Baylor tuition & fees)

Comments of students from previous Baylor in Italy programs.

"one of the best months of my life"
Aaron Borsellino, 2007

"Baylor in Italy provides the opportunity for immense growth both academically and as a person; students will never forget the sights and experiences of beautiful Italy." Anna Sitz, 2007

"Studying Classics at Baylor and knowing the history of Italy do not prepare you for the magnificence of the sites. When you look up at the Pantheon, or when you first step into the Forum, you approach the grandeur of the ancients from an new perspective." Bill Wilson, 2007

"BII is the experience of a lifetime: I had the opportunity to take highly interesting courses while being immersed in the powerful and imposing remains of the classical world. Neither the sites nor the experiences of this trip will be soon forgotten." Daniel Walin 2004

"I had always assumed that I could learn history from textbooks but nothing in a textbook can really compare with strolling through 2500-year-old ruins or experiencing a Sunday morning in St. Peter's Basilica. I didn't merely learn history, I experienced, felt, and touched history. I highly recommend this program to anyone with interest in the Roman, Greek, Biblical, Italian or medieval time periods." Garrett Phillips, 2004
