

LEAD-LLC

Leadership Living & Learning Center

“My participation in the Lead-LLC has been instrumental in my growth of leadership and in my formation of lasting friendships. Through the dynamic community service projects and a genuine relationship with my mentor, I learned much about my role as a Christian leader both on the Baylor campus and in the Waco community. Most importantly, I have developed heartfelt friendships with extremely caring individuals who share my passion to be helpful in the community and who have certainly impacted my life for the better.”

-Marc Link '10

08-09 LEAD-Team Community Coordinator

Serve the community

Build a team

A life of integrity with a moral purpose to serve and transform the world around you.

LEAD-LLC

Leadership Living & Learning Center

“Leadership is one of the most observed and least understood phenomena on earth” (Burns, J.). In the Leadership Living and Learning Center (LEAD-LLC) students live, study, and learn about leadership in the context of community. This multi-faceted program is open to students from all academic disciplines and is a place where leadership comes alive. Students are challenged to reflect and understand great leaders in history, various models of leadership, and begin to formulate how leadership is translated in their life. LEAD-LLC participants take leadership courses, serve in the community, and meet weekly with a Mentor Group. This group is designed to create a supportive spiritual atmosphere that not only revolves around the study of leadership, but serves as a network of peers that learn together. As an institution of higher education it is our duty to prepare students for lives of leadership and service and the LEAD-LLC strives to transform students to be lifelong leaders.
