

RENEWAL APPLICATION FOR RADIONUCLIDE AUTHORIZED USER

Instructions: Please review your original Authorized User Application and Protocol Sheets. If nothing has changed, simply sign and return this form. If there has been a change, please fill out the “Minor Changes to Nuclide Authorization” and include it along with this form – and any additional Protocol Summaries if needed.

This renewal is due every three years for radioactive materials users, and every five years for sealed source users.

I have reviewed my original Authorized User application and found that:

- All the information remains current
- Changes to the application are needed. The “Minor Changes to Nuclide Authorization” form is enclosed with this form.

Signature: _____

Date: _____

University Job Classification:

RETURN COMPLETED RENEWAL FORM AND ANY ATTACHMENTS TO:

The Department of EHS – Radiation Safety Officer
One Bear Place #97290

Alternatively, you may email the documentation to: Karalyn_Humphrey@baylor.edu
