

ENV 4102 Fall 2017 Course Schedule
~Every Wednesday at 4 PM in BSB A.108~

Date	ENV Host	Speaker Name	Affiliation	Title/Topic
30-Aug	George Cobb	John Kurhanewicz (john.kurhanewicz@ucsf.edu)	Professor of Radiology and Biomedical Imaging University of California-SF	Magnetic resonance imaging (MRI) of patients with prostate cancer
5-Sep	Sascha Usenko	William Wallace (wwallaceiv@gmail.com)	Postdoctoral Research Associate of Environmental Engineering, Rice University	Chemical composition of aerosols
13-Sep	Christie Sayes	Robert L. Cook (rlcook@lsu.edu)	Associate Professor of Chemistry, Louisiana State University	Interactions of inorganic and organic compounds with humic materials
20-Sep		Seminar Cancelled		
27-Sep	Trey Brown	David Prevatt (dprev@ce.ufl.edu)	Associate Professor of Civil & Coastal Engineering, University of Florida	Sustainable infrastructure and the environment
4-Oct	George Cobb	Carey Pope (carey.pope@okstate.edu)	Regents Professor and Sitlington Chair in Toxicology Oklahoma State University	Toxicity of insecticides, cholinergic signaling, organophosphates
11-Oct	Cole Matson	Mary Ann Ottinger (maotting@Central.UH.EDU)	Associate Vice Chancellor for Research, University of Houston	Behavioral endocrinology and environmental toxicology
18-Oct	Larry Lehr	HOME COMING WEEK Chad Furl, Ph.D. (cfurl@edwardsaquifer.org)	Chief Science Officer Edwards Aquifer Authority	Research projects in the Habitat Conservation Program
25-Oct	Sascha Usenko	Jimmy Flynn (jhflynn@uh.edu)	Research Assistant Professor, University of Houston	BVOC oxidation and SOA formation
1-Nov	George Cobb	Virender Sharma (vsharma@sph.tamhsc.edu)	Professor of Environmental and Occupational Health, Texas A&M Health Science Center	Inactivation of virus, bacteria, and toxins in water and air
8-Nov	Christie Sayes	Sara Brenner (sbrenner@sunypoly.edu)	Associate Professor of Nanobioscience, SUNY Polytechnic Institute	Occupational and environmental health effects of exposure to nanomaterials
15-Nov		No Seminar - Week of SETAC Travel		
22-Nov		No Seminar - Thanksgiving Holiday		
29-Nov	George Cobb	Brian Gregory (bdgregor@sas.upenn.edu)	Associate Professor of Biology, University of Pennsylvania	High-throughput sequencing to study RNA-protein interactions, globally

Schedule is subject to change at anytime during the course of this semester.

For questions or requests to meet with a speaker,
please contact Dr. Cobb at George_cobb@baylor.edu or Ms. Kristie Curtright at Kristie_Curtright@baylor.edu
