Baylor in Brazil

Summer 2020 Study Abroad
Summer II: July 7 – Aug 11, 2020

➤ Be part of a Christ-centered public health education team.
➤ Earn 6 credit hours in global health, environmental health, or health internship.
➤ Partner with local health professionals to practice health promotion in an international setting.
➤ Impact lives in underserved Brazilian communities.

Estimated Program fee of $4650 covers:
➤ Airfare/ground transportation
➤ All hotel and meal expenses
➤ Group excursions/tours (including soccer game!)
*Fee covers full 5-week program. Fee does not cover summer school tuition & BU fees. Ask about scholarships /funding ideas.

Course Projects & Community Service
Students engage in classes /field trips and community service projects in churches, schools, and neighborhoods. We implement health fairs, health classes/activities for adults & youth, children’s puppet theater. We also help local churches with children’s programs and other church ministries.

Attend a fall 2019 infosession (5:30 PM):
Monday, Oct 21, BSB A105
Tuesday, Nov 19, BSB B207
Monday, Dec 9, BSB B207
BSB= Baylor Science Building

SUMMER II COURSES
Students at all levels are welcome!! Must enroll in 6 credit hours. Courses can serve as electives for medical humanities, biology, social work, community health, health science studies, recreation, etc.
• **Global Health** Global health issues, international organizations, and health promotion worldwide. (PUBH 4340 & BIO 3300). Required of all BIB participants.
• **Environmental Health** Environmental impact on human health and the role of health professionals in minimizing health risks. (PUBH 3314, BIO 3315 or ENV 3314)
• **Public Health Practicum** available to students in the Baylor Master of Public Health program who apply, and are accepted, as practicum students in the BIB program. Ask Dr. Eva Doyle for details.
