

Retiree Dental Plan

Retiree Dental Plan

Baylor University offers a Cigna DPPO plan. Active enrollment in the dental plan as an employee prior to the retirement date is required. Eligible retirees and their dependents may continue to be covered under their dental plan at retirement. Retirees do not have an open enrollment period.

If you as the retiree choose to cancel your retiree dental plan, this is a permanent decision without an option to re-enroll at a future date.

Cigna DPPO Plan

The Cigna DPPO plan is a managed care plan designed to provide the opportunity to get more benefit for your dental care dollars.
