I have heard the buzz about Ignite but I really want to know – what does the new system look like?

The Ignite home page is formatted with interactive squares, known as tiles. Tiles can also be used to navigate. As you use the system more frequently, you will accumulate a list of Frequently Used Areas. Ignite is very user-friendly! Attend a Demo session to see the system in action. Sign up at baylor.edu/ignite. Or, see the short informational videos on the website as well.

COMING JUNE 2020
