* In order to fulfill new federal government reporting requirements on race and ethnicity, students were given the opportunity to select multiple race categories. In addition, Pacific Islander was designated as its own category (separate from Asian). The students were asked two questions. The first question asked the student "Are you Hispanic/Latino?" The second question allowed students to select among five race categories, with multiple responses allowed.

In this report, two race/ethnic group tables are presented. In the first table, students are counted in only one race/ethnic group category. If the student indicated "yes" to the first question, the student was categorized as Hispanic (only) regardless of any race code(s) they may have selected. If the student marked more than one race (and "no" to Hispanic/Latino in the first question), he/she was reported in the category of Multiracial. The second table counts a student in every race/ethnic group category he/she selected. The percentages in this table are based on the headcount of students.

Notes:

1. Although submission of entrance test scores generally is required in the admission process, in each entering class there were a small number of students who were admitted without entrance test scores. Therefore, the sum of SAT N plus ACT N does not equal the total class size (N).

2. In this table, the highest SAT score is compared to the highest ACT score, and only the better score is retained.

Notes:

1. Transfer students who earned at least 24 hours at another institution are not required to submit a score and high school quartile.
2. In this table, the highest SAT score is compared to the highest ACT score, and only the better score is retained.
3. Beginning in Fall 2009, the methodology for computing a student's highest ACT Composite score was changed to count the highest English, Math, Reading, and Science Reasoning subscores, even if the scores were from different test dates. This change was made to make Baylor's scores comparable to peer institutions.
