This profile contains descriptive information for provisionally admitted students enrolled in Fall 2010 who did not return for Fall 2011.

Included in this report is information about the following topics:

| | | |
|---------------------|----------------------------|-----------------------------|
| Gender | First Generation | Probation/Suspension Status |
| Age | State of Permanent Address | Cumulative GPA |
| Minority Status | Entrance Test Scores | Program of Study |
| Citizenship Status | Orientation/Line Camp | |
| Racial/Ethnic Group | Average Credit Hour Load | |

Forty-nine percent of the non-returning provisional admit students were female, while 24 (55.8%) were from racial or ethnic minority groups. Students in racial or ethnic minority groups retained at a lower rate than non-minority students: 46 of 70 (65.7%) minorities returned while 69 of 88 (78.4%) non-minorities returned. Ninety-five percent of those who did not return are U.S. citizens.

The mean SAT score for non-returning provisional admit students was 1041 compared to 1030 mean SAT score of the provisional admit students who did return. The mean ACT score was 22.6 for the provisional admit students who did not return compared to 21.3 mean ACT score of the provisional admit students who did return. Of the 43 provisionally admitted students who did not return in Fall 2011, four (9.3%) were on academic probation (but met provisional requirements) and 22 (51.2%) were suspended due to not meeting provisional requirements.

The following table contains trends of fall to fall retention rates for the past five years. The retention rates for first-time freshmen include provisional admits.

Note: 1. Although submission of entrance test scores generally is required in the admission process, in each entering class there were a small number of students who were admitted without entrance test scores. Therefore, the sum of SAT N plus ACT N does not equal the total class size (N).

2. In this table, the highest SAT score is compared to the highest ACT score, and only the better score is retained.

2. In this table, the highest SAT score is compared to the highest ACT score, and only the better score is retained.

3. Beginning in Fall 2009, the methodology for computing a student's highest ACT Composite score was changed to count the highest English, Math, Reading, and Science Reasoning subscores, even if the scores were from different test dates. This change was made to make Baylor's scores comparable to peer institutions.
