

**Profile of Non-Enrolling Accepted Students  
Fall 2011**

**Executive Summary**

This report contains descriptive information about students who were accepted to Baylor University as first-time freshmen for Fall 2011 but did not enroll.

- Of the 15,451 first-time freshmen accepted for the Fall 2011 class, 3,033 (19.6%) enrolled.
- Subsequent enrollment at another institution for the non-enrolling accepts was tracked using data from the National Student Clearinghouse (NSC). Detailed records containing identifying information about students are only returned by NSC if the student has not blocked that information.
- Of the 12,418 students who did not enroll, the NSC had Fall 2011 detailed enrollment information on 10,715 (86.3%) of these students. The largest group of those students tracked by NSC enrolled at a four-year public institution.
- Of those students tracked by NSC, 1,673 (15.6%) enrolled at Texas A&M University in Fall 2011.
- Students who were accepted but did not enroll at Baylor had lower entrance test scores than those students who did enroll. However, students who were accepted but did not enroll at Baylor had higher high school percentiles than those students who did enroll.

**Detailed Report**

This report contains descriptive information about students who were accepted to Baylor University as first-time freshmen for Fall 2011 but did not enroll. Included in this report is information about the following topics:

Gender	First Generation Student	High School Quartile
Minority Status	State of Permanent Address	Academic Index
Citizenship Status	Religious Affiliation	Academic Unit
Racial/Ethnic Group	Entrance Test Scores	

There were 15,451 first-time freshmen accepted for the Fall 2011 class. Of those accepted, 3,033 (19.6%) enrolled. In order to seek additional information on the 12,418 students who did not enroll, the Office of Institutional Research & Testing (IRT) submitted a file of these students to the National Student Clearinghouse (NSC). The NSC is a national repository of student records used for student degree and enrollment verification. The “Student Tracker” service from the NSC enables institutions to tap the nation’s largest enrollment database and track where students ultimately enroll. Student Tracker provides enrollment data from more than 3,300 institutions representing over 92% of national postsecondary enrollment.

This report contains information only on non-enrolled accepted students for which IRT received detailed subsequent enrollment records from NSC. If a student has placed a block on their information, the NSC does not return detailed records for that student. However, NSC does give total subsequent enrollment at other universities in aggregate. For example, according to the aggregate report from NSC, 385 students who were admitted to Baylor subsequently enrolled at Texas Tech University. However, 238 students placed a block on their record, and NSC was unable to provide detailed information on those students. Therefore, IRT is only able to look at detailed student data (gender, religious affiliation, test scores, etc.) for 147 students who subsequently enrolled at Texas Tech University. Please note that this year is the first time that such a large number of records for students from Texas Tech University were blocked.

IRT submitted the file of the 12,418 non-enrolling accepts. The NSC returned detailed enrollment information on 10,715 (86.3%) of these students. NSC provided information for each of these students including institution of matriculation, matriculation dates, institution type, and institution location.

The majority of the non-enrolling accepts that were tracked using the NSC data enrolled in four-year public institutions. Table 1 breaks down enrollment by type of institution.

Table 1. Enrollment of Students Tracked by NSC  
by Type of Institution

Institution Type	Number	
	Enrolled	Percentage
Private, 4-Year	2,879	26.9%
Public, 4-Year	7,404	69.1%
2-Year (or less)	432	4.0%

Appendix I contains detailed information for the Fall 2011 first-time freshmen who enrolled at Baylor compared to those who were accepted but did not enroll. The entire population of non-enrolling accepts (12,418) is examined as well as those students who were tracked by NSC according to institution type as defined in Table 1. Appendix II contains detailed information for students who enrolled at one of the top four competitors as tracked by NSC.

Table 2 provides a summary of biographic and demographic information for Fall 2011 first-time freshmen who enrolled at Baylor compared to students who were accepted but did not enroll. See Appendix I for details. A larger percentage of students who were accepted but did not enroll were minorities (41.4%) compared to students who enrolled at Baylor (32.5%). A larger percentage of students who were accepted but did not enroll were from Texas (76.4%) compared to those students who enrolled at Baylor (73.8%).

Table 3 provides a summary of academic information for Fall 2011 first-time freshmen who enrolled at Baylor compared to students who were accepted but did not enroll. See Appendix I for details. The average SAT score of students who were accepted but did not enroll was lower (1232) than the average SAT score of students who enrolled at Baylor (1236). The average SAT scores of students who enrolled in private 4-year institutions was higher at 1254. A larger percentage of students who were accepted but did not enroll were in the first quartile of their high school (79.7%) than those students who enrolled at Baylor (74.1%).

Table 4 lists the top twenty competitor institutions for which detailed records are tracked by the National Student Clearinghouse. These twenty institutions account for 59.1% of the students that enrolled at other institutions that are tracked by NSC. The list includes number of students who were accepted by Baylor but enrolled at the competitor institution, type of institution, and location of institution.

Table 5 provides a summary of biographic and demographic information for Fall 2011 first-time freshmen enrolled at Baylor compared to non-enrolling accepts who enrolled at the top four competitor institutions. See Appendix II for details. A larger percentage of students who enrolled at Baylor were minorities (32.5%) than the percentages of minorities that enrolled at Texas A&M and TCU. There was a higher percentage of minority students who were accepted by Baylor but enrolled at UT-Austin (54.4%) and UT-San Antonio (62.0%). A higher percentage of students who enrolled at Baylor were Baptist (32.6%) than students who were accepted by Baylor but enrolled at one of the top four competitor institutions.

Table 6 provides a summary of academic information for Fall 2011 first-time freshmen who enrolled at Baylor compared to non-enrolling accepts who enrolled at the top four competitor institutions. See Appendix II for details. The average SAT score of students who enrolled at Baylor (1236) was higher than the average SAT score of students who were accepted at Baylor but enrolled in TCU or UT-San Antonio. Only those accepted students who enrolled at Texas A&M (1252) and UT-Austin (1279) had a higher average SAT score. A larger percentage of students who were accepted but enrolled at Texas A&M (89.7%), UT-Austin (96.8%), and TCU (81.4%) were in the first quartile of their high school than those students enrolled at Baylor (74.1%). However, the percentage of students that enrolled at Baylor who were in the first quartile of their high school was higher than those accepted at Baylor but enrolled in Texas Tech and UT-San Antonio.

Notes:

1. Although submission of entrance test scores generally is required in the admission process, in each entering class there were a small number of students who were admitted without entrance test scores. Therefore, the sum of SAT N plus ACT N does not necessarily equal the total class size (N).
2. In this table, the highest SAT score is compared to the highest ACT score, and only the better score is retained.

Notes:

1. Although submission of entrance test scores generally is required in the admission process, in each entering class there were a small number of students who were admitted without entrance test scores. Therefore, the sum of SAT N plus ACT N does not necessarily equal the total class size (N).
2. In this table, the highest SAT score is compared to the highest ACT score, and only the better score is retained.
