

WHO WE ARE:

LAUNCH – Innovative Business Accelerator is housed in the Baylor Research and Innovation Collaborative (BRIC) and its mission is **enabling *accelerated* commercialization of things that matter**. LAUNCH is the bridge between research, product development and the marketplace.

The LAUNCH Crew program offers a competitive and comprehensive experience that will build your resume and your network, while engaging in live, corporate projects. LAUNCH Crew members work as part of a diverse team that will include MBA students, Law students, and junior/senior undergrad business and engineering students. These teams are cross-functional and thus mimic "real-world" innovation teams.

WHAT YOU DO:

Crew members will assist LAUNCH with business and marketing strategy projects and events that utilize their specific set of skills, as well as work as Lead Consultants and team members with clients on commercialization projects. Crew members who are selected to work multiple semesters will have the opportunity for increased pay as well as certification training in Innovation Engineering and Tech Entrepreneurship.

Requirements:

- Relevant area of study preferred (MBA, Law, Business, Engineering)
- Self-starter and ability to work without supervision
- Strong communication/writing skills (writing sample required)
- Willingness to work hard and be professional
- Required minimum GPA of 3.0

WHAT YOU GET:

- Experience in project management, business and marketing strategy, customer relations management, sales strategy
- Opportunity for personal networking with job prospects
- Portfolio-builder and Resume-builder (Picture and resume will be featured in our Crew section on the website)
- Reference-builder (Director will serve as a reference for jobs and/or graduate school)
- Internships pay \$10 - \$12 per hour for approximately 10-15 hrs per week.
