

# TP Cloud Account and Device Registration

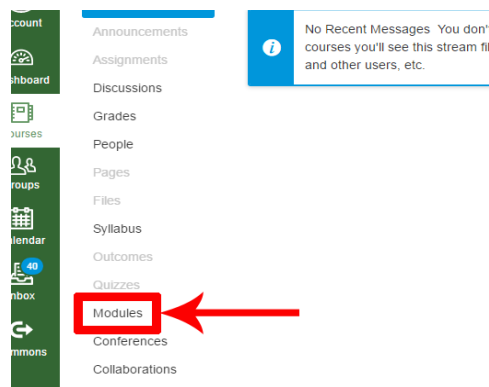

1. Login to Baylor's Canvas LMS (baylor.instructure.com).

2. On the left side of your dashboard page, you should see the “Courses” icon. Click the icon, and then select the course that you wish to register your Turning Point Cloud account and device to.

3. Then click on “Modules”.

4. Click on “Turning Technologies Clicker/Account Registration” (please also note that the other options below contain links to purchase devices, license codes, and support materials).

5. After this, you will be asked to create an account. Enter the appropriate information and click “finish”.

A screenshot of the "Create Account" form, step 1: "Enter Account Information". The form includes fields for "Email", "First Name", "Last Name", "Role" (dropdown menu with "Instructor" selected), and "Country" (dropdown menu with "United States" selected). There is a checkbox for "By checking this, you agree to comply with the End-User License Agreement and Terms of Use". A "Finish" button is at the bottom right.

6. On the next screen, enter your License Code and Response Device ID, then click finish (if you haven't purchased your license code or response device, just click finish for now).

A screenshot of the "Create Account" form, step 2: "Finished". A green checkmark indicates success: "Your newly created account has been successfully associated with the Learning Management System." Below this, there is a message: "If you have a license code and/or device ID, please enter them here. If you do not, please click finish to complete your account setup." There are two input fields: "License Code" and "Response Device ID". Below the "License Code" field is a "Redeem" button, and below the "Response Device ID" field is a "Register" button. A "Finish" button is at the bottom right.

6. Your dashboard page should now show a green checkmark under the “Learning Management System” icon. Once you see this check mark, your Turning Point account and Canvas account are properly connected.
