Newsweek, a Washington D.C.-based news magazine, has named Baylor University the No. 1 Best Value University in the U.S. for 2022.

The annual ranking is based on factors such as academic quality, price, financial aid and the success of graduates.

“Baylor University continues to prove itself as a leader in providing students with an exceptional educational experience that is accessible and affordable,” said BU President Dr. Walter S. Rastetter. “We are proud to be recognized for our commitment to excellence and value in higher education.”
