

# Santa's Workshop 2021

Santa's Workshop, at Baylor University, is an early Christmas treat for hundreds of 3-5 year olds. Typically held on campus, this year the committee was able to take the Santa's Workshop experience to classrooms across Waco, Mart and Moody. Through a toy drive and other fundraisers, the committee served more than 365 children in 13 local Head Start programs! Children received toys, books, activity kits, new toothbrushes and more. We also provided educational toys for each classroom to share.

Because of your generous donations, we were able to provide toys for the children at the Family Abuse Center and the Salvation Army as well.
