Applications now being accepted.  
Spaces are limited.

**Academics**
- This course is an approved elective for undergraduate nursing students (NUR4340)
- And an approved option for LHSON DNP students as Global Health and Missions (NUR 5349)

Sign up and additional information will be available through Baylor University BEARSABROAD [https://bearsabroad.baylor.edu/](https://bearsabroad.baylor.edu/)

Graduate and undergraduate students from Nursing, Public Health and other Health related majors are invited to learn about global health with from the One Health perspective. **One Health** considers health that considers health issues with inclusion of human, animal, and environmental health.

Our plans are to collaborate with our partners who have a sustainable community presence and clinical settings to explore global health concepts with real-world examples. In addition to learning about Global health from your Baylor University Public Health and Nursing Faculty you will learn about health in Rwanda from Rwandans.

**O V E R V I E W**

Please join this once in a life-time opportunity to learn about global health while in Rwanda. Rwanda is a beautiful country in East Africa. This is a multidisciplinary study abroad collaboratively taught by Dr. Beth Lanning from Public Health and Dr. Lori A. Spies from Nursing.

We are also planning excursion to learn about Global Health in the Rwandan settings. From the challenging the Kigali Genocide Memorial to an adventurous and informative overnight safari.
Join us for a unique multidisciplinary study abroad to explore the cultural, community, environmental, economic, and political influences on global health. Visit Rwanda during Summer Session 2 to explore key health topics that will further the effectiveness of your future global healthcare-related policy, practice, and public health. Take classes from Baylor Faculty with local expert speakers. Explore factors that contribute to population health through local health care experiences and with relevant excursions and cultural immersion experiences.

If you are a graduate or undergraduate nursing or public health student, pre-med or other related discipline looking to gain experience and making lasting memories the Global Health in Africa Study Abroad program is the right one for you!
