

Spring 2021 Interim International Travel Policy

As we continue to navigate the complex and uncertain circumstances arising from the COVID-19 pandemic, Baylor University has cancelled all Study Abroad programs for Spring 2021. Similarly, the university will continue to restrict international travel for students, staff, and faculty during Spring semester 2021. These restrictions will be reviewed monthly and revised as appropriate if circumstances change. The Center for Global Engagement will continue to work with the Director of Global Safety and Security to monitor travel risks in accordance with Baylor University policy, <https://www.baylor.edu/risk/doc.php/359089.pdf>, and will evaluate requests for exceptions to the current travel restrictions. Such requests should be addressed to jeffrey_hamilton@baylor.edu.
