Potential Funders for Undergrad & Graduate Students and Postdocs

Steps in Pursuing a Potential Funding Opportunity:

1. Look through the Potential Funders lists below. Click the links to the website of the funder in order to get current information and to better see if that funding source matches your research needs.

2. Pick Funders that match your research most closely. Go on their website and sign up for their email alerts of funding opportunities (if available).

3. Grant Searching Tools: You can also use Pivot and GrantForward to look for funding opportunities. See instructions and links at Search Funding Databases. Government Funding opportunities can also be searched on Grants.gov and Federal Grants Wire.

4. Resources for help in writing grants:
   1) Graduate Writing Center The Center is staffed by senior doctoral candidates who have extensive experience editing, teaching, publishing their own work, and working with peers. The Graduate Writing Consultants set up individual appointments with students. They meet with students in the Graduate Research Center in Poage Library, or at other convenient locations on campus. Email: gwc@baylor.edu
   2) Grant Writing Seminars: Available for Graduate Students and Postdocs as space is available.
   3) Graduate and Postdoc Grant Toolkits
      • (NSF) GRFP Toolkit: Grant planner along with guides and links to many sample GRFP grants.
      • Grant Searching Resources: Links to Baylor-subscribed grant search engines as well as information about how to use them effectively.
      • Grant Writing Resources: Guides for how to write competitive grants, a grant writing book, and links to many other grant writing resources.
Index:

Note on the Using the Funding Lists:
• Content for each table was taken from the Funder’s website and is intended to give you a brief overview of that funder. Be sure to go to the Funder’s website for up-to-date information and specific current funding opportunities (RFP’s).
• The index is hyperlinked to lead you to a table with more information. Ctrl+Click on index items to go to the table.
• Within the table, Ctrl+Click to follow links to funder’s website

Government Funders
1. [AFOSR: Air Force Office of Scientific Research]: engineering, mathematical and information networks, physical sciences, chemistry and biological sciences related to energy
2. [NIH: National Institutes of Health]
3. [NIH: Fogarty International Center for Global Health]
4. [NSF: National Science Foundation]

Non-Government Funders
5. [ACLS Dissertation Fellowships]: Dissertation completion in humanities and social sciences
6. [Ahmanson Research Fellowship]: (UCLA Library Study of Medieval and Renaissance Books and Manuscripts) Fellowship to study Medieval and Renaissance Books at UCLA Library
7. [Amazon]: Funds doctoral and post-doc students in computer science
8. [AAUW: American Association of University Women]: Female graduate student fellowships
9. [American Antiquarian Society]: Art, history Library
10. [American Anthropological Association]: links to a variety of funding opportunities
11. [American Cancer Society Postdoctoral Fellowships (Postdoc)]: US citizens or permanent residents within 3 years of doctoral degree who want to become cancer researchers.
12. [American Center of Oriental Research]: A variety of post-doc, grad, undergrad and research fellowships
14. [American Muscological Society – Alvin Johnson Dissertation Fellowship]
15. [American Ornithological Society]: Undergraduate, graduate and post-doc research on birds.
17. [AMBER (UC Berkeley) Amgen Scholars Program]: Undergraduate science research stipend
18. [ASME]: American Society of Mechanical Engineers student grants
19. [Archaeological Institute of America]: Links to a variety of funding opportunities
20. *[Asian Cultural Council Grants]: Humanities grants to support international travel and cultural exchange between Asia and the U.S
21. [Baylor Libraries Teaching Fellows]: Fellowships to use Baylor library resources for developing teaching materials (TA’s eligible)
22. [Beckman Foundation Postdoctoral Fellowship]: Chemistry, life sciences, and engineering
23. [Bloomberg Data Science Research Fellowships (Graduate Student)]
24. [CAA]: College Art Association: travel grants for women who are emerging scholars to attend the CAA annual conference
25. [Center for Jewish History Graduate Research Fellowship]: Fellowship for Doctoral students completing a dissertation that relates to Jewish history
26. [Chateaubriand]: Ph.D. students conducting research in France in STEM or humanities
27. **Chiang Ching-kuo Foundation for International Scholarly Exchange**: Research, travel, conferences with focus on Taiwan (not Peoples Republic of China)

28. **(The) Clara Carter Higgins Summer Environmental Studies Scholarship**: Undergraduate students studying in an environmental field

29. **The Dan David Prize**: Humanities or history scholarships to doctoral and post-doctoral researchers, carrying out research in one of the selected fields for the current year

30. **Damon Runyon Cancer Research Foundation Fellowship Award/ Postdoctoral Fellowship Award**

31. **Dannon Probiotics and Gut Microbiome Fellowship Grant**: Graduate student who shows a strong interest in the research of the gut microbiome's impact on human health and well-being and/or the nutritional and functional benefits of yogurt and probiotics

32. **DECA Inc Student Scholarships**: Undergraduate students who are members of DECA and are pursuing a degree in a franchising or entrepreneurship field of study

33. **The Dolores Zohrab Liebmann Fund**: Graduate school fellowships in any recognized field of study in the humanities, social sciences or natural sciences. Armenian studies

34. **Fahs-Beck Fund for Research and Experimentation**: Faculty grants

35. **Ford Foundation – Diversity Dissertation Fellowship**: The Ford Foundation Dissertation Fellowship is intended to support the final year of writing and defense of the dissertation

36. **Ford Foundation – Postdoctoral Fellowship**: Postdoctoral scholars in most fields

37. **Fulbright Student Program**: Study abroad

38. **(Benjamin A.) Gilman International Scholarship**: Study abroad scholarships for undergrads

40. **Hayek Fund for Scholars**: Grants for research in individual liberty and responsibility, limited government, economic freedom, the rule of law, free speech, and open inquiry ($1000 for many purposes)

41. **Hope Funds Postdoctoral Fellowship (Postdoc)**: cancer research

42. **Horowitz Foundation**: Ph.D. students completing a dissertation that relates to social policy application

43. **IBM**: Dissertation fellowships on basic research in innovation in AI, Big Data, Cloud Computing, Internet of things, Quantum Computing, Security, Mobile, and Core Technologies

44. **The LBJ Foundation**: History, political science funds to study at LBJ library

45. **Ruth Landes Memorial Research Fund**: Research on interests of Ruth Landes: Afro-Brazilians, African-Americans in the United States of America, and American Indians, including the Ojibwa, Potawatomi, and Sioux

46. **The Leakey Foundation**: Advanced doctoral students (advanced to candidacy – all but dissertation) doing human origins research

47. **Library Company of Philadelphia & the Historical Society of Pennsylvania**: Funds for doing research in the library, whose holdings include documents and graphics on history of America and the Atlantic world in the 17th, 18th, and 19th centuries

48. **L’OREAL USA Women in Science Postdoctoral Award**: Awards five women postdoctoral scientists with grants of $60,000 each for their contributions in (STEM) fields and commitment to serving as role models for younger generations

49. **Louisville Institute Dissertation Fellowship Program**: Doctoral students focusing on strengthening religious life for North American Christians

50. **Mathematical Association of America**: Grants for math education and students

51. **Mattie-Jeannie Fund Trust**: Music performers and educators

52. **Mayborn Museum**: Bryce C. Brown research stipend for collections research in natural history and cultural history (ethnography, anthropology, history, botany, geology, paleontology)

53. **Medieval Academy of America Dissertation Grant**: Graduate students who are writing Ph.D. dissertations on medieval topics
54. **The Mineralogical Society of America’s Grant for Research in Crystallography**: Physical Sciences, Crystallography, Earth Sciences, Geology, Physical Geology, Petrology, Mineralogy
55. **MLA: Modern Language Association listing of fellowship and grant opportunities**: Search engine for a variety of language-related opportunities (15 pages of grants)
56. **National Computational Science Institute XSEDE Undergraduate Awards**
57. **National League of Nursing Education Grants**: Nursing education research
58. **NXP Foundation**: Young Women’s STEM Leadership forum and awards for graduate and undergraduate students
59. **(The) Oregon Sea Grant: Summer Scholars**: Undergraduate students seeking a summer experience in marine biology or marine ecology
60. **Religious Research Association**: Grants for religious research
61. **The Rotary Foundation**: Rotary club members scholarships
62. **Schlumberger Foundation**: Ph.D. and postdoc fellowships for women in STEM careers
63. **Science & SciLifeLab Prize for Young Scientists**: Funding for thesis research in life science fields
64. **Shubert Foundation**: Grants for graduate drama departments of private universities
65. **Siemens Foundation PATH Fellowships**: STEM fellowships for undergrads and graduate students in PATH’s Seattle Washington office.
66. **Smithsonian Institution**: Undergrad, graduate and postdoctoral student awards to study at the museums in Anthropology, art, biology, chemistry & biochemistry, history
67. **Society for Classical Studies**: Research funding, student funding
68. **Society for Integrative and Comparative Biology**: A prize awarded to one young scientist for outstanding life science research for which he/she was awarded a doctoral degree in the previous two years
69. **The Society for the Psychological Studies of Social Issues**: Graduate student grants in psychology
70. **Stigler Center Ph.D. Dissertation Award**: Doctoral students completing their dissertation about political, economic, and cultural obstacles that affect working markets
71. **Summer Research Program – Building Diversity in Biomedical Sciences**: Undergraduate students who are members of DECA and are pursuing a degree in a franchising or entrepreneurship field of study
72. **Symantec Research Labs Graduate Fellowship**: Undergraduate students who are members of DECA and are pursuing a degree in a franchising or entrepreneurship field of study
73. **The Teagle Foundation**: Grants for undergraduate education
74. **The Trimmer Travel Fund**: Undergraduate students presenting research at professional meetings/conferences
75. **Western Society for French History Millstone Fellowship**: Travel grants for research in France
76. **WNENC: Student Entrepreneur Program**: Female student mentoring in entrepreneurship, conferences and seed money
77. **Woodrow Wilson National Fellowship Foundation**: Humanities and social sciences Ph. D. completion

*New as of 2019*
1. AFOSR: Air Force Office of Scientific Research (G & PD)

Website Link: [http://afrl.dodlive.mil/about/](http://afrl.dodlive.mil/about/)

**Deadline(s):** Posted until superseded

**Support Strategies:** Research

**Funding:** varies

**Description:** The Air Force Office of Scientific research managers seek to foster revolutionary scientific breakthroughs enabling the Air Force and U.S. industry to produce world-class, militarily significant, and commercially valuable products.

**Engineering and Complex Systems**
Leads the discovery and development of the fundamental and integrated science that advances future air and space flight.

**Information and Networks**
Leads the discovery and development of foundational issues in mathematical, information and network-oriented sciences

**Physical Sciences**
Leads the discovery and transition of foundational physical science to enable air, space, and cyber power.

**Chemistry and Biological Sciences**
Leads the discovery and development of innovative fundamental science addressing a broad spectrum of energy-related issues.

**Special Programs**
AFOSR provides the support for research and education through the following unique programs:

- Small Business Technology Transfer Program (STTR)
- Young Investigator Research Program (YIP)

**Educational Programs**
AFOSR also sponsors research assistantship programs, faculty programs, and graduate school programs. These programs support graduate education, encourage the development of research excellence in critical technological areas where research facilities and qualified researchers are lacking, train personnel to conduct high-quality research, and stimulate mutual research interests between the Air Force and institutions of higher education.

- Awards to Stimulate and Support Undergraduate Research Experiences (ASSURE)
- Engineer and Scientist Exchange Program (ESEP)
- National Defense Science and Engineering Graduate (NDSEG) Fellowship Program
- USAF National Research Council Resident Research Associateship (NRC/RRA) Program

2. NIH: National Institutes of Health (G & PD)

Website Link: [https://www.nih.gov/grants-funding](https://www.nih.gov/grants-funding)

**Open Investigator-Initiated Announcements:** [https://grants.nih.gov/grants/guide/parent_announcements.htm](https://grants.nih.gov/grants/guide/parent_announcements.htm)

**Deadline(s) Varies**

**Support Strategies:**
- Career Development Awards (K series)
- Research Training and Fellowships (T & F series)

**Description:** NIH funded research has led to breakthroughs and new treatments, helping people live longer, healthier lives, and building the research foundation that drives discovery. NIH offers funding for many types

Provided by the Research Development
Stacey_L_Smith@baylor.edu X3252 or
Virginia_Kearney@baylor.edu X6833
of grants, contracts, and even programs that help repay loans for researchers. On occasion, we use the NIH Guide to publish research contract opportunities in addition to grant opportunities, but for a comprehensive listing of contract opportunities, we encourage you to search FedBizOpps, the fed-wide portal that supports searching, monitoring, and retrieving contract opportunity. Or you can visit our contracts page to learn more about the difference between grants and contract, types of contracts, how contracts are evaluated, and more.

**Weekly Table of Contents**

NIH publishes funding opportunities and notices in the NIH Guide daily. At the end of each work week (usually on Friday afternoon), we send a weekly table of contents of everything published during the week to the NIH Guide LISTSERV. Subscribe today!

- Current Weekly Table of Contents (TOC)
- Past Tables of Contents

**Receive NIH Guide Information**

Weekly Update via E-mail LISTSERV - Subscribe or Unsubscribe.

<td></td>
</tr>
</tbody>
</table>

**Description: Who We Are**

The Cancer Prevention Fellowship Program is a multidisciplinary postdoctoral program that trains future leaders in the field of cancer prevention and control. Watch the CPFP Video that highlights unique features of the CPFP through testimonials from current fellows and alumni, remarks from the former director, and reflections from the Director of the Division of Cancer Prevention, NCI.

Outstanding opportunities for cutting-edge research in the basic, quantitative, social and behavioral sciences, and in clinical cancer prevention, have been the hallmarks of the CPFP since its inception.

**Description | Eligibility | Application Guidelines**

*The application period for the 2020 Cancer Prevention Fellowship Program is now CLOSED. It will re-open on May 1, 2020.*

**Description:** The Fogarty International Center is dedicated to advancing the mission of the National Institutes of Health by supporting and facilitating global health research conducted by U.S. and international investigators, building partnerships between health research institutions in the U.S. and abroad, and training the next generation of scientists to address global health needs. The Fogarty International Center at NIH offers a
variety of funding opportunities to support the field of global health research. Fogarty also offers a variety of resources for those seeking global health research funding across NIH, and from other organizations.

**Career Development Awards**
- African Postdoctoral Training Initiative (APTI)
- Japanese Research Fellowships (JSPS)
- Korean Biomedical Scientist Fellowship Program
- Korean Visiting Scientist Training Award
- Emerging Global Leader Award for LMIC scientists
- Global Health Fellows and Scholars
- Fulbright-Fogarty Fellows in Public Health
- International Research Scientist Development Award (IRSDA) for US scientists
- Fogarty Funding Opportunities
- Non-NIH Funding Opportunities
  - Predoctoral/Graduate
  - Postdoctoral

Dissertation Completion in American Art
http://www.acls.org/programs/american-art/

$30,000 stipend plus research costs up to $3,000 and University fees up to $5,000

Description: ACLS invites applications for Mellon/ACLS Dissertation Completion Fellowships, which support a year of research and writing to help advanced graduate students in the humanities and related social sciences in the last year of Ph.D. dissertation writing. The program encourages timely completion of the Ph.D. Applicants must be prepared to complete their dissertations within the period of their fellowship tenure and no later than August 31, 2019. A grant from The Andrew W. Mellon Foundation supports this program.

ACLS will award 65 fellowships in this competition for a one-year term beginning between June and September 2018 for the 2018-19 academic year. The fellowship may be carried out in residence at the fellow’s home institution, abroad, or at another appropriate site for the research. These fellowships may not be held concurrently with any other fellowship or grant.

The total award of up to $38,000 includes a stipend plus additional funds for university fees and research support. In addition to the monetary support that the fellowship offers, Dissertation Completion Fellows are able to apply to participate in a seminar on preparing for the academic job market. The seminar takes place over three days in the fall of the fellowship year.

Eligibility
Applicant must: be Ph.D. candidates in a humanities or social science department in the United States. (1) have completed all requirements for the Ph.D. except the dissertation (i.e., obtained ABD status) by the application deadline. be no more than six years into the degree program at the time of application. This includes time spent earning an MA within that program. (2)

6. Ahmanson Research Fellowship (UCLA Library Study of Medieval and Renaissance Books and Manuscripts) (G & P) Art and Art History, English, History, Modern Foreign Languages

Website Link: http://cmrs.ucla.edu/awards-fellowships/ahmanson/

Support Strategies: Fellowships to use UCLA Library collections in the specific areas of Art and Art History, English, History, and Modern foreign languages

Funding: $2,500 a month for up to 3 months

Description: Ahmanson Research Fellowships support the use of UCLA Library Special Collections’ extensive holdings in medieval and Renaissance manuscripts and printed books. These include: the Ahmanson-Murphy Aldine and Early Italian Printing Collections; the Elmer Belt Library of Vinciana; the Orsini Family Papers; the Bourbon del Monte de San Faustino Family Papers; the Medieval and Renaissance Manuscripts Collection; the Richard and Mary Rouse Collection of Medieval and Renaissance Manuscripts and Early Printed Books; and the Medieval and Renaissance Arabic and Persian Medical Manuscripts. Ahmanson Fellowships provide $2,500 per month for up to three months.

The fellowships are awarded on a competitive basis to graduate students or postdoctoral scholars who need to use these collections for graduate-level or postdoctoral independent research. Recipients receive a stipend of $2,500/month for fellowships lasting up to three months. Graduate students or scholars holding a Ph.D. (or the foreign equivalent) who are engaged in graduate-level, postdoctoral, or independent research are invited to apply. Please note that housing and office space is not provided for Fellows.

Additional requirements:
To accept the award, non-UCLA graduate students will be required to obtain Visiting Graduate Researcher status and pay the associated fees; students from other University of California campuses may be able to come to UCLA as Intercampus Exchange Students. Independent Ph.D. scholars or those holding faculty positions at other institutions must obtain approval as Visiting Scholars or Researchers in order to accept the award. CMRS staff will assist you with this process.

Application materials may be submitted by e-mail (PDF format preferred) to cmrs@humnet.ucla.edu, or by mail to:
7. Amazon (U & G) Computer Science/Engineering, Mathematics

<table>
<thead>
<tr>
<th>Website Link: <a href="https://ara.amazon-ml.com/about/">https://ara.amazon-ml.com/about/</a></th>
<th>Deadline(s): September</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Support Strategies:</strong></td>
<td><strong>Funding:</strong> $80,000</td>
</tr>
<tr>
<td>Computer Science &amp; Math Research</td>
<td></td>
</tr>
</tbody>
</table>

**Description:** The Amazon Research Awards (ARA) program offers awards of up to $80,000 to faculty members at academic institutions in North America and Europe for research in these areas:
- Computer vision
- General AI
- Knowledge management and data quality
- Machine learning
- Machine translation
- Natural language understanding
- Personalization
- Robotics
- Search and information retrieval
- Security, privacy and abuse prevention
- Speech

The ARA program funds projects conducted primarily by Ph.D. students or postdocs, under the supervision of the faculty member awarded the funds. To encourage collaboration and the sharing of insights, each funded proposal team is assigned an appropriate Amazon research contact. We also invite ARA recipients to speak at Amazon offices worldwide about their work and to meet with our research groups face-to-face and encourage ARA recipients to publish their research outcome and commit related code to open-source code repositories.

8. AAUW: American Association of University Women (G & P) Women Scholars

<table>
<thead>
<tr>
<th>Website Link: <a href="https://www.aauw.org/what-we-do/educational-funding-and-awards/american-fellowships/">https://www.aauw.org/what-we-do/educational-funding-and-awards/american-fellowships/</a></th>
<th>Deadline(s): November 15</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Support Strategies:</strong></td>
<td><strong>Funding:</strong> Varies</td>
</tr>
<tr>
<td>Fellowships for Women scholars</td>
<td></td>
</tr>
</tbody>
</table>

**Description:** AAUW American Fellowships support women scholars who are completing dissertations, planning research leave from accredited institutions, or preparing research for publication. Applicants must be U.S. citizens or permanent residents. Candidates are evaluated on the basis of scholarly excellence; quality and originality of project design; and active commitment to helping women and girls through service in their communities, professions, or fields of research.

The oldest and largest of AAUW’s fellowships and grant programs, the American Fellowships program began in 1888, a time when women were discouraged from pursuing an education. Now one of the largest sources of funding for graduate education for women, AAUW has provided more than $100 million to upwards of 12,000 fellows and grantees.

**Dissertation Fellowships** Learn more

**Postdoctoral Research Leave Fellowships** Learn more

**Summer/Short-Term Research Publication Grants** Learn more

Applications are open August 1–November 15

*If the application date falls on a weekend, the deadline is the next business day.*

*For questions or technical support, please e-mail aauw@applyists.com.*
American Dissertation Fellowships
Dissertation Fellowships offset a scholar’s living expenses while she completes her dissertation. The fellowship must be used for the final year of writing the dissertation. Applicants must have completed all course work, passed all preliminary examinations, and received approval for their research proposals or plans by the preceding November. Students holding fellowships for writing a dissertation in the year prior to the AAUW fellowships year are not eligible. Open to applicants in all fields of study. Scholars engaged in science, technology, engineering, and math fields or researching gender issues are especially encouraged to apply.

American Postdoctoral Research Leave Fellowships
Postdoctoral Research Leave Fellowships are designed to assist scholars in obtaining tenure and other promotions by enabling them to spend a year pursuing independent research. The primary purpose of the fellowship is to increase the number of women in tenure-track faculty positions and to promote equality for women in higher education. Tenured professors are not eligible.

American Summer/Short-Term Research Publication Grants
Summer/Short-Term Research Publication Grants provide funds for women college and university faculty and independent researchers to prepare research for publication. Time must be available for eight consecutive weeks of final writing and editing in response to issues raised in critical reviews. These grants can be awarded to both tenure-track and part-time faculty and new and established researchers. The grants are designed to assist the candidate in obtaining tenure and other promotions. Tenured professors are not eligible.

Website Link: [http://www.americanantiquarian.org/fellowships](http://www.americanantiquarian.org/fellowships)  
Deadline(s): January and October

Support Strategies: Visiting Fellowships in Art and Art History, Classics, English, and History  
Funding: Varies

Description: Founded in 1812 by Revolutionary War patriot and printer Isaiah Thomas, the American Antiquarian Society is both a learned society and a major independent research library. The AAS library today houses the largest and most accessible collection of books, pamphlets, broadsides, newspapers, periodicals, music, and graphic arts material printed through 1876 in what is now the United States, as well as manuscripts and a substantial collection of secondary texts, bibliographies, and digital resources and reference works related to all aspects of American history and culture before the twentieth century. AAS was presented with the 2013 National Humanities Medal by President Obama in a ceremony at the White House. The American Antiquarian Society offers three broad categories of visiting research fellowships, with tenures ranging from one to twelve months.

All the fellowships are designed to enable academic and independent scholars and advanced graduate students to spend an uninterrupted block of time doing research in the AAS library. Discussing this work with staff and other readers is a hallmark of an AAS fellowship.

Long-term Visiting Academic Research Fellowships
Hench application deadline: October 15  
AAS-NEH application deadline: January 15

Short-term Visiting Academic Research Fellowships
Application deadline: January 15

Fellowships for Creative and Performing Artists and Writers
Application deadline: October 5

American Antiquarian Society | 185 Salisbury Street, Worcester, Massachusetts 01609-1634 | Tel: 508-755-5221

10. American Anthropological Association (U & G) Anthropology

Website Link: [http://www.americananthro.org/](http://www.americananthro.org/)  
Deadline(s): Varies

Support Strategies: Anthropology research and fellowships  
Funding: Varies

Description: International Grants and Fellowships
1. **Alexander von Humboldt Foundation**  
   Provides opportunities for foreign scholars to conduct research and relative activities in Germany.  
   Offers fellowships and grants.

2. **American Academy in Rome**  
   Rome Prize fellowships are designed for emerging artists and scholars in the early or middle stages of their careers. In the case of scholars, preference will be given to applicants for whom research time in Italy, and especially in the city of Rome, is essential, and who have not had extensive prior experience there.

3. **The American Academic Research Institute in Iraq (TAARII)**  
   TAARII (formerly the American Association for Research in Baghdad, AARB) has been established to promote scholarly research on and in Iraq, ancient Mesopotamia. The Institute, a consortium of American universities and museums, intends to establish a multidisciplinary American scholarly research center in Iraq when conditions permit. TAARII offers fellowships.

4. **The American Center for Mongolian Studies (ACMS)**  
   ACMS is a non-profit educational organization that supports the development of Mongolian Studies and academic exchanges with Inner Asia. The Center offers fellowships for students and faculty.

5. **The American Center of Oriental Research (ACOR)**  
   Research Fellowships have been the primary means of accomplishing ACOR’s mission to promote academic awareness and research about ancient and modern Jordan and the Middle East. Through fellowships, ACOR has provided numerous educational opportunities for American and other international senior and junior scholars.

6. **The American Institute of Afghanistan Studies (AIAS)**  
   The organization’s aim is encouraging the study of the culture, society, land, languages, health, peoples and history of Afghanistan. It will be especially concerned with increasing the numbers of scholars in the United States who have expertise in, and understanding of Afghanistan, and to assist in the rebuilding of academic institutions and the advanced study of Afghanistan by Afghan scholars. AIAS offers fellowships and student paper prizes.

7. **The American Institute of Bangladeshi Studies (AIBS)**  
   AIBS’s mission is to improve the scholarly understanding of Bangladesh culture and society in the United States and to promote educational exchange between the U.S. and Bangladesh. By sending undergraduate and graduate students as well as senior scholars to Bangladesh, AIBS also promote a better understanding of America in Bangladesh. The AIBS supports three types of Fellowship: Senior, Junior, and Pre-Dissertation. All are intended for research in Bangladesh for a minimum of four months and a maximum of ten to twelve months.

8. **American Institute of Indian Studies**  
   A cooperative, non-profit organization of seventy-eight American colleges and universities that support the advancement of knowledge and understanding of India, its people, and culture.

9. **The American Institute of Iranian Studies (AIIrS)**  
   AIIrS seeks to support the advancement of knowledge and understanding of Iran and Iranian culture and civilization from the earliest periods to the present. The Institute’s purview comprises the historical Iranian world of Central Asia, the Middle East, and South Asia as well as the modern political state of Iran. The Institute also works with Iranian humanists and social scientists to promote and facilitate their research in the United States. AIIrS offers fellowships.

10. **The American Institute for Maghrib Studies (AIMS)**  
    In the United States, AIMS serves as the professional association of scholars interested in the region. AIMS sponsors the Journal of North African Studies (JNAS), published by Francis and Taylor, provides grants for American and North African scholars interested in researching the Maghrib, hosts an annual conference and dissertation workshop, and supports the Tangier Summer Advanced Arabic Language Program (TSALP).
11. The American Institute for Sri Lankan Studies
   The purpose of the institute is to bring together scholars from a wide range of disciplines and foster research on Sri Lanka. AISLS offers fellowships and travel stipends.

12. American Museum of Natural History - Richard Gilder Graduate School
   The American Museum of Natural History (AMNH) is a leader in the education and training of young scientists in the natural history disciplines represented in this institution. Our fellowship programs provide training in the fields of anthropology, invertebrate zoology, paleontology (paleo-zoology), physical sciences (astrophysics and earth and planetary sciences), and vertebrate zoology.

13. The American Research Center in Egypt
   In addition to providing administrative support and a reliable base for a wide array of expeditions and scholarly research taking place in Egypt, ARCE also provides funding, in the form of grants, for a significant number of research and conservation projects each year.

14. The American Research Institute in Turkey (ARIT)
   ARIT is dedicated to promoting North American and Turkish research and exchanges related to Turkey in all fields of the humanities and social sciences. ARIT provides support for these scholarly endeavors by maintaining research centers in Istanbul and Ankara, and by administering programs of fellowships to support research in Turkey at doctoral and advanced research levels.

15. The American-Scandinavian Foundation
   The American-Scandinavian Foundation (ASF) promotes international understanding through educational and cultural exchange between the United States and Denmark, Finland, Iceland, Norway, and Sweden.

16. Archaeological Institute of America
   The AIA offers six fellowships for travel and study to deserving scholars. Fellowships are open to members of the Archaeological Institute of America.

17. Center for Advanced Study in the Behavioral Sciences at Stanford University
   The Center’s Residential Fellows program awards academic year residential fellowships for about 45 scholars who form a cohesive and diverse intellectual community. Fellows enjoy time and freedom to pursue their priority research, and more importantly, to expand their horizons in active engagement with their Center colleagues.

18. Center for Khmer Studies (CKS)
   CKS has sought to provide fellowships for students and scholars to promote research and international scholarly exchange on Cambodia and the Mekong region, among the international community of scholars and their Cambodian colleagues.

19. Council of American Overseas Research Centers
   American Overseas Research Centers foster international scholarly exchange, primarily through sponsorship of fellowship programs which allow pre-doctoral and senior scholars to pursue independent research important to the increase of knowledge and our understanding of foreign cultures.

20. The Council for European Studies (CES)

21. Council on Foreign Relations

22. Crane-Rogers Foundation – Institute of Current World Affairs
   Target of Opportunity Fellowships (for Study Outside the USA). The primary purpose of the institute is to provide talented individuals an opportunity to develop a deep understanding of an issue, country, or region outside the United States and to share that understanding with interested segments of the English-speaking public. Areas of interest to the Institute include Burma, India, Iran, North Africa, Russia, Venezuela, and Southeast Asia, but candidates may seek fellowships in any country.
23. **The Firebird Foundation for Anthropological Research**  
The Firebird Foundation announces a program of Fellowships for the documentation of vanishing oral literature and traditional knowledge. Fellowships up to $10,000 are available to anthropologists, linguists, and other scholars, as well as to individuals or teams of local researchers in indigenous societies who are dedicated to preserving their oral traditions. Applicants are encouraged to spend an extended period in the field and, where possible, to develop local teams of collectors to continue the work of recording these materials.

24. **SQCC Summer Arabic Language and Media (SALAM) Program**  
Summer Arabic Language and Media (SALAM) program, a fully-funded intensive Arabic language scholarship program in the Sultanate of Oman. SQCC supports Arabic language study for U.S. students through its annual SALAM program. This intensive Arabic language program will allow students to gain a deeper knowledge of Arabic while becoming familiar with Omani history and culture. To apply, submit the completed application form and supporting materials via the [program page](#).

25. **The German Marshall Fund of the United States**  
The German Marshall Fund has brought Americans and Europeans together to increase understanding and to build future transatlantic networks among the political, media, business, and nonprofit communities. GMF works closely with partner organizations to sponsor a range of fellowship and exchange programs designed to provide both broad cultural exposure and more targeted opportunities for learning about specialized policy areas.

26. **International Research & Exchanges (IREX)**  
IREX sponsors a broad range of fellowship opportunities for masters, pre-doctoral, and postdoctoral research, as well as for senior scholars, professionals, and policymakers.

27. **The Italian Academy**  
The Fellowship Program at the Italian Academy focuses on issues relating to cultural identity, cultural transmission, and cultural memory. It has a twofold aim: to sustain the vitality of the many aspects of culture that are endangered by globalization and to forge genuinely new links between the arts, the sciences, and the social sciences. Approximately 18 Fellowships will be awarded every year.

28. **The Jacobs Research Funds**  
The Jacobs Research Fund, hosted by the Whatcom Museum of History and Art in Bellingham, Washington, provides grants for anthropological and linguistic research on Native American peoples.

29. **Palestinian American Research Center (PARC)**  
PARC’s mission is to improve scholarship about Palestinian affairs, expand the pool of experts knowledgeable about the Palestinians, and strengthen linkages among Palestinian, American, and foreign research institutions and scholars. PARC offers fellowships.

30. **Social Science Research Council**  
SSRC fellowship and grant programs provide support and professional recognition to innovators within fields, and especially to younger researchers whose work and ideas will have a longer-term impact on society and scholarship. These programs often target the spaces between disciplines, where new perspectives emerge and struggle for acceptance, thus ensuring the production of knowledge and expertise on key topics, regions, and social challenges.

31. **School for Advanced Research**  
The School for Advanced Research provides a dynamic environment for the advanced study and communication of knowledge about human culture, evolution, history, and creative expression.

32. **Society for American Archaeology**  
The Native American Scholarships Fund is an endowment established to foster a sense of shared purpose and positive interaction between archaeologists and Native Americans.

33. **U.S. Institute of Peace**  
*Jennings Randolph Senior Fellowship*  
The Jennings Randolph (JR) Program for International Peace awards approximately ten residential Senior Fellowships each year for outstanding scholars, practitioners, policymakers, journalists, and...
other professionals to research peace, conflict and international security in Washington D.C. Applications are due on September 8.

11. American Cancer Society Postdoctoral Fellowships (Postdoc)

Website Link: [https://www.cancer.org/research/we-fund-cancer-research/apply-research-grant/grant-types/postdoctoral-fellowships.html](https://www.cancer.org/research/we-fund-cancer-research/apply-research-grant/grant-types/postdoctoral-fellowships.html)

**Deadline(s):** April 1 and Oct. 15

**Funding:** $50,000+ for 3 years

**Eligible:** Applicants must be US citizens or permanent residents.

**Description:** Who’s Eligible

Researchers who are within 3 years of receiving a doctoral degree may apply for initial funding to start training for an independent career in cancer research (including basic, preclinical, clinical, cancer control, psychosocial, behavioral, epidemiology, health services and health policy research).

Grant Term and Budget

Awards may be for 3 years with newly increased progressive stipends of $52,000, $54,000, and $56,000 per year

- $4,000/year fellowship allowance
- An additional $1,500 to the fellowship allowance in the last year to attend the ACS Postdoctoral Fellows Symposium or a domestic scientific meeting

12. American Center of Oriental Research (UG & G) Classics

Website Link: [https://www.acorjordan.org/](https://www.acorjordan.org/)

**Support Strategies:** Fellowships for the study of Classics

**Funding:** Varies

**Deadline(s):** Varies

**Description:** ACOR in Amman Jordan offers academic fellowships for professional scholars, graduate students, and undergraduates. Fellowships are available for Americans, Jordanians, Canadians, and scholars of other nationalities.

The various fellowships are sorted below according to criteria of level of education and citizenship. Please click through the tabs and explore below to learn more.

- Post Doc
- Graduate Student
- Undergrad
- Americans

13. American Educational Research Association (G & P) Education

Website Link: [https://www.aera.net/](https://www.aera.net/)

Research grants: [http://www.aera.net/Professional-Opportunities-Funding/AERA-Funding-Opportunities/Grants-Program/Research-Grants](http://www.aera.net/Professional-Opportunities-Funding/AERA-Funding-Opportunities/Grants-Program/Research-Grants)

**Support Strategies:** Early or mid-career researchers in Education

**Funding:** Upper $35,000 for 2 years or $20,000 for one

**Deadline(s):** Varies

**Description:** The program seeks to stimulate research on U.S. education issues using data from the large-scale, national and international data sets supported by the National Center for Education Statistics (NCES), NSF, and other federal agencies, and to increase the number of education researchers using these data sets. The program supports research projects that are quantitative in nature, including the analysis of existing data from NCES, NSF or other federal agencies, and have U.S. education policy relevance. AERA invites education-related research proposals using NCES, NSF, and other federal databases. Research Grants are available for faculty at institutions of higher education, postdoctoral researchers, and other doctoral-level scholars.
Applications are encouraged from a variety of disciplines, such as but not limited to, education, sociology, economics, psychology, demography, statistics, and psychometrics.

The Governing Board for the AERA Grants Program has established the following four strands of emphasis for proposals.

**Applicants are encouraged to submit proposals that:**
- develop or benefit from new quantitative measures or methodological approaches for addressing education issues
- include interdisciplinary teams with subject matter expertise, especially when studying science, technology, engineering, and mathematics (STEM) learning
- analyze TIMSS, PISA, or other international data resources
- include the integration and analysis of more than one data set.

Research projects related to at least one of the strands above and to science and/or mathematics education are especially encouraged. Other topics of interest include policies and practices related to student achievement in STEM, contextual factors in education, educational participation and persistence (kindergarten through graduate school), early childhood education, and post-secondary education. The research project must include the analysis of data from at least one of the large-scale, nationally or internationally representative data sets supported by NCES, NSF, or other federal agency, such as the U.S. Department of Labor, the U.S. Census Bureau, and the National Institutes of Health. The dataset(s) of interest must be available for analysis at the time of application (public or restricted-use files are permissible). Additional data sets may be used in conjunction with the obligatory federal data set. If international data sets are used, the study must include U.S. education.

</tr>
<tr>
<td><strong>Support Strategies:</strong> a 1-year fellowship for graduate students completing their dissertation in a music-related field</td>
</tr>
<tr>
<td><strong>Description:</strong> The American Musicological Society’s purpose is to advance scholarship in the various fields of music through research, learning, and teaching. To do this, it publishes a Journal and a Blog, holds an Annual Meeting, supports books in musicology, and offers a broad array of grants, fellowships, and awards throughout the year.</td>
</tr>
<tr>
<td><strong>Eligibility</strong> The Society makes available up to three funded dissertation-year fellowships each year. Any student registered in good standing for a doctorate at a North American university who has completed all formal degree requirements except the dissertation at the time of full application is eligible to apply. The fellowships are not intended for support of the early stages of research: it is expected that a Fellow’s dissertation will be completed within the fellowship year.</td>
</tr>
<tr>
<td><strong>Awards</strong> Fellowships are awarded solely on the basis of academic merit. Fellows receive a twelve-month stipend, currently set at $22,000. They may also elect to accept the award on a non-stipendiary basis (thus freeing scarce resources for others). The fellowships are intended for full-time study. An equivalent major award from another source may not be held concurrently or consecutively unless the AMS award is accepted without a stipend. Fellowships are for one year and are not defferable or renewable; Fellows are expected to focus on completing their dissertations and not to undertake teaching or similar obligations as instructors, teaching assistants, or in any similar capacity, whether paid or unpaid. There are no provisions for the payment of tuition: it is hoped that graduate schools will provide tuition fellowships or waivers.</td>

**Support Strategies**: Research in avian biology for undergraduate, graduate, and post-doctoral students  

**Funding**: up to $2,500

**Description**:  
The American Ornithological Society gives research awards annually in amounts up to a maximum of $2,500. Research awards support undergraduates, graduate students, and postdocs conducting research in various areas of avian biology. AOS encourages undergraduate students, masters students, doctoral students, and postdocs from any region to apply.

**Eligibility**:  
- The applicant must be an AOS member (renewed for 2019) and a full-time or recently graduated undergraduate masters, or doctoral student, or a postdoctoral researcher without access to funds from major granting agencies.
- The applicant is the individual conducting the specific research project and responsible for data analysis.
- Maximum of one research award per year and two research awards per lifetime.

Please submit applications using the online Member Portal. After logging in, click the "View Open Competitions" link in the lower right of your homepage and then select the appropriate award.

## 16. American Philosophical Society Dissertation Fellowship (G)  
**Anthropology, Biology**

**Website Link**:  

**Deadline(s)**:  
- John Hope Franklin Dissertation Fellowship:  
  - Contact [Imusumeci@amphilsoc.org](mailto:Imusumeci@amphilsoc.org) for further information  
- Lewis and Clark Fund: Nov 7

**Support Strategies**: Fellowships in disciplines that depend on field studies: archaeology, anthropology, biology, ecology, geology, etc.

**Funding**: Contact [Imusumeci@amphilsoc.org](mailto:Imusumeci@amphilsoc.org) for further information

**Description**:  
The John Hope Franklin Dissertation Fellowship, named in honor of a distinguished member of the American Philosophical Society, is designed to support an outstanding doctoral student at an American university or an exceptional American doctoral student abroad who is completing the dissertation. Questions concerning this fellowship program and its requirements should be directed to Linda Musumeci, Director of Grants and Fellowships, at [Imusumeci@amphilsoc.org](mailto:Imusumeci@amphilsoc.org) or 215-440-3429.

The Lewis and Clark Fund encourages exploratory field studies for the collection of specimens and data and to provide the imaginative stimulus that accompanies direct observation. Applications are invited from disciplines with a large dependence on field studies, such as archeology, anthropology, biology, ecology, geography, geology, linguistics, paleontology, and population genetics, but grants will not be restricted to these fields.

Graduate students and postdoctoral and junior scientists wishing to pursue projects in astrobiological field studies should consult the program description and application forms for the Lewis and Clark Fund in Exploration and Field Research in Astrobiology.

## 17. UC Berkeley Amgen Scholars Program (U) Sciences, Biology, Chemistry,

**Website Link**:  
[https://amgenscholars.berkeley.edu/](https://amgenscholars.berkeley.edu/)

**Deadline(s)**: February

**Support Strategies**: Undergraduate students studying the sciences

**Funding**: $5,000

**Description**: The Amgen Scholars Program is a national program to increase research opportunities for students committed to pursuing careers in the sciences. This program provides outstanding science undergraduates with
research experience and increases participants’ competitiveness as candidates for admission to prestigious graduate and professional institutions. Additionally, this program encourages participants to pursue a Ph.D. or the joint M.D./Ph.D. degree and research careers in the sciences and biotechnology. Applicants from diverse populations and backgrounds are encouraged to apply.

**Program Requirements:**
- Full-time direct participation on a research project
- Attend weekly seminars or workshops
- Meet weekly with the graduate student assistant for the program
- Submit preliminary and final abstracts
- Attend the Amgen Scholars National Symposium in July 2018
- Present research findings in poster and oral presentations
- Complete Amgen Foundation and UCB Amgen Scholars Program Evaluations

### 18. ASME: American Society of Mechanical Engineers (U) Engineering

**Website Link:** [https://www.asme.org/](https://www.asme.org/)
**Grants:** [https://www.asme.org/events/competitions/student-design-competition](https://www.asme.org/events/competitions/student-design-competition)

**Support Strategies:** Design challenges for students in engineering

**Funding:** Small amounts of prize money

**Description:** The ASME Innovation showcase (ISHOW) is a global competition for hardware led ventures. We focus on the design & engineering journey of taking physical products to market. We care about “social innovation,” that is, solving social and environmental issues through enterprise. We host ISHOW events in Africa, India, and the USA and accept submissions globally. Winners share cash prizes and design & engineering support. We are a global network of engineers, makers, dreamers, designers, investors, and entrepreneurs. Join us.

The ASME Innovative Design Simulation (IDSC) Challenge is designed to give mechanical engineering and multi-disciplinary undergraduate students around the world an opportunity to demonstrate their skills in developing and deploying simulations or simulation frameworks and environments. These simulations enable the prediction of models capturing systemic or service behavior for the needs of product or service design, maintenance, qualification or certification in all areas of engineering innovation. Students will showcase their knowledge and creativity and will be able to address a broad spectrum of academic, industrial, manufacturing, and humanitarian challenges.

We’re excited to announce that the HPVC events will now be taking place at ASME’s global E-Fests (Engineering Festivals). E-Fests are three-day, two-night regional events built around design, advanced manufacturing, and robotics technologies. They enable engineering students to expand their knowledge, test and showcase new skills and inspire innovation.

### 19. Archaeological Institute of America (U & G) Classics, Arts and Art History, Anthropology

**Website Link:** [https://www.archaeological.org/grants](https://www.archaeological.org/grants)

**Support Strategies:** Travel and study, Exchange, Grants for research, Student grants

**Funding:** Varies

**Description:** The AIA is pleased to offer fellowships for travel and study to deserving scholars and a number of scholarships and grants for students, publications, and AIA Societies. AIA scholarships, fellowships, and grants are open to members of the Archaeological Institute of America. If you have any questions, contact the Fellowship Coordinator at 857-305-9360 or fellowships@archaeological.org

**Fellowships**

1. **Anna C. & Oliver C. Colburn Fellowships**  
   Deadline: January 15  
   To support study at the American School of Classical Studies at Athens
2. **Harriet and Leon Pomerance Fellowship**  
   Deadline: November 1,  
   To support a project relating to Aegean Bronze Age archaeology.

---

*Provided by the Research Development Stacey_L_Smith@baylor.edu X3252 or Virginia_Kearney@baylor.edu X6833*
3. **Helen M. Woodruff Fellowship of the AIA and the American Academy in Rome** Deadline: November 1, To support a Rome Prize Fellowship for the study of archaeology or classical studies every other year.

4. **John R. Coleman Traveling Fellowship** Deadline: November 1
   To honor the memory of John R. Coleman by supporting travel and study in Italy, the western Mediterranean, or North Africa.

5. **Olivia James Traveling Fellowship** Deadline: November 1
   For travel and study in Greece, Cyprus, the Aegean Islands, Sicily, southern Italy, Asia Minor, and Mesopotamia.

6. **The Archaeology of Portugal Fellowship** Deadline: November 1
   To support projects relating to the archaeology of Portugal

C. **Brian Rose AIA/DAI Exchange Fellowships**

7. **AIA Fellowship for Study in the U.S.** Deadline: November 1

8. **DAI Fellowship for Study in Berlin** Deadline: November 30

The Archaeological Institute of America and the German Archaeological Institute (Deutsches Archäologisches Institut) offer reciprocal study fellowships. The program encourages and supports scholarship on various aspects of archaeology and promotes contact between North American and German archaeologists.

**Scholarships & Travel Grants**

9. **Elizabeth Bartman Museum Internship** Deadline: April 1
   A scholarship established in honor of AIA Past President Elizabeth Bartman to assist graduate students or those who have recently completed a master’s degree with the expenses associated with participating in a museum internship either in the United States or abroad.

10. **Graduate Student Travel Award** Deadline: November 1
    These grants are to assist graduate students presenting papers at the AIA Annual Meeting with their travel expenses.

11. **Jane C. Waldbaum Archaeological Field School Scholarship** Deadline: March 1
    A scholarship established in honor of AIA Past President Jane C. Waldbaum to assist students with the expenses associated with participation in archaeological field schools

**The Site Preservation Grant** ($15,000) is intended to fund projects that uphold the AIA’s mission to preserve and protect the world’s archaeological heritage for future generations. The goal of the grant, which carries a maximum stipend of $15,000, is to enhance global preservation efforts and promote awareness of the need to protect threatened archaeological sites. The AIA seeks to support projects that not only directly preserve archaeological sites, but those that also include public outreach and education components that create a positive impact on the local community, students, and the discipline of archaeology as a whole.

**Costen Excavation Grants** ($25,000)
To be eligible, applicants must have been AIA members in good standing for at least two consecutive years by the application deadline and must have a Ph.D. in archaeology or related field. Applicants must be the primary permit holder for the excavation. Permits must be obtained before funds are dispersed. Grant winners are expected to provide a 200-500-word update for the AIA website either from the field or immediately upon completing the funded field season. A final report with a reconciled budget is due within 6 months of the completion of the field season. Grant winners agree to submit a poster or field report abstract for presentation at the AIA Annual Meeting following receipt of the grant. Winners are also encouraged to become an “Interactive Dig” on the AIA website.

20. **Asian Cultural Council Grants (G & P) Arts and Humanities**

| Website Link: [https://www.asianculturalcouncil.org/our-programs](https://www.asianculturalcouncil.org/our-programs) | Deadline(s): November |
| Support Strategies: Grants for cultural research and travel between the United States and Asia | Funding: Varies |

Provided by the Research Development Stacey_L_Smith@baylor.edu X3252 or Virginia_Kearney@baylor.edu X6833
The Asian Cultural Council makes grants to support international travel and cultural exchange between Asia and the U.S. and among the countries of Asia. The large majority of grants are awarded directly to individual artists, scholars, and arts specialists. Organizations that will facilitate a cultural exchange opportunity for artists, scholars, or arts specialists may also apply on behalf of the individual project participants. Prospective applicants should read the description of ACC’s program above, as well as our Eligibility Guidelines and Grant Categories pages. If your proposed activities align with ACC’s work, and if you meet our eligibility guidelines, visit How to Apply to learn more about the application process. For answers to additional questions, visit our FAQs. If you have a question that has still not been answered, please contact us.

**Support Strategies:** Fellowship for full-time faculty (lecturer through tenured) and graduate teaching assistants in the field of Education or Classics

**Funding:** $1,000 stipend

**Description:** Each year, the Baylor Libraries special collections offer teaching fellowships to support excellence in teaching and learning and provide opportunities for original research by encouraging the use of rare books, archives, and other primary source materials in Baylor graduate and undergraduate curricula. Fellowships are available for full-time Baylor faculty members (including tenured and tenure-track faculty, regular lecturers and senior lecturers) and graduate teaching assistants (teachers of record). Fellowship recipients will receive a stipend of $1,000 (after taxes). Past recipients of teaching fellowships who wish to explore additional possibilities are eligible to reapply. Preference, however, may be given to first-time applicants.

For details on fellowship requirements and application procedures, click on the collection of interest below. All applications are due by April 6, 2018. Recipients will be notified by April 27, 2018.

**Armstrong Browning Library**
A nineteenth-century research center and museum devoted to the study of the lives and works of Victorian poets Robert and Elizabeth Barrett Browning, with significant holdings regarding literature and culture in Britain and America from 1800-1900.

**Baylor Collections of Political Materials at the W.R. Poage Legislative Library**
A congressional archive featuring research materials that document political leadership, political organizations, and the work of government, including the papers of U.S. congressional representatives, Texas legislators, judges, and local officials.

**Baylor University Libraries Digital Collections**
Baylor University Libraries Digital Collections, created and supported by the Digital Preservation Services Group, features more than 70 collections derived from archival materials held by Baylor University that span a broad spectrum of topics.

**Central Libraries Special Collections**
These collections include rare books, manuscripts, book arts, scholars’ libraries, archives, and early printed music. The collections are particularly strong in rare Bible versions, hymnals, early American popular sheet music, and significant American imprints.

**The Keston Center for Religion, Politics and Society**
This research collection contains materials documenting religious persecution in communist, post-communist and other totalitarian societies with a focus on the former Soviet Union and Eastern Europe.

**The Texas Collection**
A research library that collects materials documenting the history, heritage, and culture of Texas and serves as home to the University Archives, which collects records of enduring value related to the history of Baylor University. **For general questions about the Teaching Fellows Program, contact Jennifer Borderud:** (Jennifer_Borderud@baylor.edu), Director of the Armstrong Browning Library

**Stacey_L_Smith@baylor.edu** X3252 or **Virginia_Kearney@baylor.edu** X6833
### 22. Beckman Foundation Postdoctoral Fellowship (P) Biology, Chemistry, Geoscience

<table>
<thead>
<tr>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Support Strategies: Life sciences and chemical sciences</td>
</tr>
</tbody>
</table>

**Description:**
The Arnold O. Beckman Postdoctoral Fellows Award Program supports postdoctoral scholars with the highest potential for success in an independent academic career in chemistry and the life sciences, to assist in their transition from “mentored yet independent” postdoctoral projects to an independent, tenure-track position. These individuals are expected to become the next generation of leaders and innovators in science, engineering, and technology.

**Guidelines:**
Fellows will be appointed for two years, with the possibility for renewal for a third and final year. Fellows may begin as early as September of their application year but no later than December 31. The award amount will range from $63,300 - $77,000, based upon years of postdoctoral research experience, with 75% of the award going towards the stipend, and 25% used towards research expenditures. The Arnold O. Beckman Postdoctoral Fellows Award is a merit-based program; issues of gender, race and financial need will not be considered contributing factors in the application review process. This program is an Open Call; institutions are not limited to the number of candidates which may apply.

**Eligibility:**
Criteria for applicants at the time of application:
- At a U.S. college, university or institution which offers postdoctoral fellowships and holds a 501(c)(3), or similarly qualifying, IRS designation;
- U.S. citizen or permanent resident of the United States;
- Granted/conferred Ph.D., MD, or MD/Ph.D.; and
- May be eligible for a tenure-track position at a scientific research institution at the end of the Arnold O. Beckman Postdoctoral Fellowship.

Criteria for Sponsoring Mentor at time of application:
- Ph.D., MD, or MD/Ph.D.; and
- Full-time tenured or tenure-track; and
- An active investigator in the Applicant’s area of research; and
- Mentors may only sponsor one applicant for consideration

Any of the following conditions will render an applicant ineligible:
- At the time of application, applicants with more than 36 months of postdoctoral experience (cumulative) in a research lab, or who are more than 5 years from their Ph.D., MD, MD/Ph.D., are not eligible to apply.
- Visa holders are not eligible to apply.
- Arnold O. Beckman Postdoctoral Fellowship Awards may not be used to support the clinical years of residency training; Applicants may not have faculty appointments.

### 23. Bloomberg Data Science Research Fellowships (Graduate Student)

| Website Link: [https://www.techatbloomberg.com/data-science-research-grant-program/](https://www.techatbloomberg.com/data-science-research-grant-program/) [https://www.techatbloomberg.com/data-science-research-grant-program-1/](https://www.techatbloomberg.com/data-science-research-grant-program-1/) | Deadline(s): April |
| --- |
| Support Strategies: research grants and PhD Fellowships in Data Science | Funding: |

**Description:** Bloomberg invites exceptional Ph.D. students working in broadly-construed data science, including natural language processing, machine learning, and artificial intelligence to apply for the inaugural Bloomberg
Data Science Ph.D. Fellowship for the 2019-2020 academic year. The goal of this fellowship is to provide support and encouragement of groundbreaking publications in both academic journals and conference proceedings.

Ph.D. Grant Details
- The fellowship will cover 100% of the recipient’s tuition.
- Recipients will be given a stipend of USD 35,000 for their living expenses.
- Recipients will be given USD 5,000 to attend professional conferences.
- Recipients will have Bloomberg mentors and will have to complete a 12-week summer internship at Bloomberg.
- Recipients will be given the opportunity to renew their fellowship annually, for up to three years total.

Applicant Eligibility Criteria
- Applicants must be full-time students during the 2019-2020 academic year, with an expected Ph.D. graduation date in or before 2022.
- Applicants must attend a school in the United States of America or EU (and UK) during the duration of the award.
- Recipients must remain enrolled as full-time students for the duration of the award. If this status is not maintained, the remainder of the award will be forfeited.
- Recipients must attend the academic year kickoff week each fall at Bloomberg Headquarters in New York. Bloomberg will bear all expenses for this week.
- Recipients must complete a 12-week summer internship in New York or London, and be eligible to work in this capacity. This is a research internship and the application process will be research-focused.

Application Details
**Applicants must submit only one proposal for the 2019-2020 academic year, and this proposal must be submitted to only one grant program; cross-submission to the Bloomberg Ph.D. Fellowship and the [Research Grant Program](#) will result in disqualification.**

Applications to the Bloomberg Data Science Ph.D. Fellowship will consist of the following documents:
- Applicant’s curriculum vitae with links to publications (if available)
- A two-page research proposal, composed of the following:
  - **Title**: Please provide names, contacts, and affiliations of you and your collaborators, along with the proposal title. If any Bloomberg employees were consulted in preparing the proposal, please provide their names as well.
  - **Technical Details**: The bulk of the proposal should be directed at a technical data science audience, but we also ask that it include one or two paragraphs making the case to a non-expert. A typical proposal will contain:
    - **Abstract**: problem statement and the applicant’s ideas
    - **Description**: describe the proposed work and expected results
    - **References
    - **Data Policy**: Please briefly state the means by which the results produced by this funding will be disseminated (e.g., open source software, open access journals, conferences, and/or presentations).
- Applicants may submit up to three reference letters supporting the applicant; however, a reference letter from the applicant’s Ph.D. advisor or proposed advisor is mandatory
- (Optional) One-page resume of the applicant’s Ph.D. advisor

| **24.CAA: College Art Association (G) Art and Art History, Classics** |
| Website Link: [http://www.collegeart.org/programs/travel-grants/edwards](http://www.collegeart.org/programs/travel-grants/edwards) | **Funding**: Travel and accommodation to CAA conference |
| **Support Strategies**: Travel Grant for females attending the CAA Annual Conference | **Deadline(s)**: September |

---

Provided by the [Research Development](#) Stacey_L_Smith@baylor.edu X3252 or Virginia_Kearney@baylor.edu X6833
Description: Established by Mary D. Edwards with the help of others, the CAA Travel Grant in Memory of Archibald Cason Edwards, Senior, and Sarah Stanley Gordon Edwards will support the costs of roundtrip travel (plane, train, and ground transportation) and accommodation for the CAA Annual Conference and for conference registration fees to women who are emerging scholars at either an advanced stage of pursuing a doctoral degree (ABD) or who have received their PhD within the two years prior to the submission of the application. The applicants must be presenting research papers at an art-history session at the conference, with a strong preference for papers on any topic pertaining to the art of ancient Greece and Rome, medieval Europe from 400 to 1400, or Europe and North America from 1400 to 1950. Successful applicants will also receive complimentary conference registration.

25. Center for Jewish History Graduate Research Fellowship (G) History, Humanities

Website Link: [https://www.cjh.org/scholarship/fellowship-opportunities-at-the-center](https://www.cjh.org/scholarship/fellowship-opportunities-at-the-center)

Support Strategies: Fellowship for Doctoral students completing a dissertation that relates to Jewish history

Funding: $22,500

Description: The Center for Jewish History offers ten-month fellowships to doctoral candidates to support original research using the collections of the Center’s partners—American Jewish Historical Society, American Sephardic Federation, Leo Baeck Institute, Yeshiva University Museum, and YIVO Institute for Jewish Research. Preference is given to those candidates who draw on the library and archival resources of more than one partner institution. Fellows must be in residence at the Center from September 2019 through June 2020 and applicants should have completed all requirements (i.e., coursework, exams, dissertation proposal) for the doctoral degree except for the dissertation. It is required that each fellow spend a minimum of three days per week in residence in the Lillian Goldman Reading Room using the archival and library resources. Fellows must also participate in the Center for Jewish History Fellowship Seminar Program, attend bi-weekly meetings of the fellowship program cohort, deliver a minimum of one lecture based on research conducted at Center, and submit a report upon completion of the Fellowship describing her/his experience as a Center Fellow.

Eligibility
- The fellowship is open to qualified doctoral candidates from accredited domestic and international institutions.
- Fellows must be in residence at the Center from the beginning of September 2019 until the end of June 2020.
- Applicants should have completed all requirements (i.e., coursework, exams, dissertation proposal) for the doctoral degree except for the dissertation.
- For non-U.S. citizens, it is the responsibility of the applicant to have the appropriate visa for acceptance of the award during the ten-month fellowship term.

APPLY HERE.

26. Chateaubriand (G) STEM, Humanities, Social Science

Website Link: [https://www.chateaubriand-fellowship.org](https://www.chateaubriand-fellowship.org)

Support Strategies: Ph.D. students conducting research in France in STEM or humanities

Funding: A monthly stipend of 1500 €; Health insurance for the duration of the fellowship; A round-trip ticket to France

Description: The Chateaubriand Fellowship is a grant offered by the Embassy of France in the United States. It supports outstanding Ph.D. students from American universities who wish to conduct research in France for a period ranging from 4 to 9 months. Chateaubriand fellows are selected through a merit-based competition, through a collaborative process involving expert evaluators in both countries. The program is divided into two subprograms.
1. **The Chateaubriand Fellowship in Science, Technology, Engineering, Mathematics & Biology-Health (STEM)** for doctoral students aims to initiate or reinforce collaborations, partnerships or joint projects between French and American research teams. This fellowship is offered by the Office for Science & Technology (OST) of the Embassy of France in partnership with American universities and French research organizations such as Inserm and Inria. It is a partner of the National Science Foundation’s GROW program.

2. **The Chateaubriand Fellowship in Humanities and Social Sciences (HSS)** targets outstanding Ph.D. students from American universities who seek to engage in research in France, in any discipline of the Humanities and Social Sciences. This fellowship is offered by the Cultural Services of the Embassy of France. HSS Chateaubriand fellows are selected through a merit-based competition, using a binational collaborative process involving expert evaluators from both countries.

### 27. Chiang Ching-kuo Foundation for International Scholarly Exchange

**Website Link:** [http://www.cckf.org/en/about](http://www.cckf.org/en/about)  

**Deadline(s):** Aug. 1 to Oct. 1

**Support Strategies:** Research, travel, conferences with focus on Taiwan  

**Funding:** Varies

**Description:** The Chiang Ching-kuo Foundation for International Scholarly Exchange (CCKF; hereafter referred to as the Foundation) was established in 1989 in memory of the late President of the Republic of China, Chiang Ching-kuo (1910-1988). Operational funds come from interest generated from an endowment donated by both the public and private sectors.

The Foundation is deeply committed to its mission of encouraging scholars at academic institutions throughout the world to undertake research projects in the humanities and social sciences that can shed new light on Chinese culture and society, as well as engage in international cooperation and exchange.

**American Region Programs**

1. **Research Grants** Scholars at academic institutions are eligible to apply for research grants. Priority will be given to collaborative projects involving institutions in Taiwan. Projects on Taiwan Studies are especially encouraged. Research grants are usually given for no more than two years. The budget for research grants does not include salary for the researcher except for summer salary calculated at 1/9 of the scholar’s annual salary. An average research grant might also include costs for research assistants, living costs, and travel expenses. To assist you with your research budget, you may wish to use the following guidelines for living costs abroad: First month $120 a day, Thereafter $60 a day; Round trip costs from the East coast to East Asia are approximately $1,500.

2. **Scholar Grants** Professors may apply for a CCK Scholar Grant ranging from $20,000 to $35,000 to help replace half of their salary while they’re on sabbatical, or for time off for research and writing. If grants from other sources are also awarded to the applicant, the Foundation’s grant, when added to these other grants, must not exceed the recipient’s annual salary. This grant will be for one year. Priority will be given to collaborative projects involving institutions in Taiwan. Projects on Taiwan Studies are especially encouraged.

3. **Conference/Seminar/Workshop Grants** The Foundation will consider applications from institutions for grants to hold conferences, workshops, or seminars on specific subjects related to the Foundation’s goals and objectives. Applicants are urged to seek matching funds. Applicants should submit the names of all participants, as well as titles and abstracts of papers to be presented. The academic background of the participants and the significance of the meeting will be key factors in the evaluation process. Budgets for conferences should not exceed $25,000. Applications should be filed before September 15, or January 15 for conferences to be held during the following six-month period. In principle, the Foundation does not provide funding for annual meetings. Priority will be given to collaborative projects involving institutions in Taiwan. Projects on Taiwan Studies are especially encouraged.

4. **Publication Subsidies**

5. **Doctoral Fellowships**

6. **Dissertation Fellowships for ROC Students Abroad**
The Foundation will give priority to collaborative projects with counterparts in Taiwan.

28. The Clara Carter Higgins Summer Environmental Studies Scholarship (U)
Ecology, Environmental Sciences

Website Link: https://www.gcamerica.org/scholarships/details/id/23
Deadline(s): February

Support Strategies: Undergraduate students studying in an environmental field
Funding: $3,000

Description: The purpose of this scholarship is to encourage studies and careers in the environmental field, with the opportunity to gain knowledge and experience beyond the regular course of study.

Eligibility
Open to college students following their freshman, sophomore, or junior year. These awards offer students who have demonstrated a keen interest in the betterment of the environment an opportunity for further study at a site chosen by the student. Some of the summer programs students have completed recently include the study of hazardous waste, marine science, energy, plant resources in the tropics, barrier island ecology, and oil spill cleanup and control. Eligibility is open to U.S. Citizens and permanent residents who are enrolled in a U.S.-based institution.

To Apply
See application and information. Applications must be received at GCA Headquarters in New York City by February 5 preceding the summer of study. Note that applications for the Clara Carter Higgins Scholarship, GCA Awards for Summer Environmental Studies, Elizabeth Gardner Norweb Scholarship, and Mary T. Carothers Scholarship are considered together. Interested students should submit only one application. Selection: Selection is by members of the GCA Scholarship Committee. PLEASE NOTE: ONLY ONE GCA SCHOLARSHIP, FELLOWSHIP OR AWARD MAY BE APPLIED FOR ANNUALLY.

29. The Dan David Prize (G & P) Humanities, History

Website Link: https://www.dandavidprize.org/scholars/scholarships/scholarship-applications
Deadline(s): March

Support Strategies: Doctoral and post-doctoral researchers
Funding: $15,000

Description: The Dan David Prize awards scholarships to doctoral and post-doctoral researchers, carrying out research in one of the selected fields for the current year. Registered doctoral and post-doctoral researchers who study at recognized universities throughout the world, and whose research has been approved, are eligible to apply.

The Dan David Prize scholarships are granted according to merit, without discrimination based on gender, race, religion, nationality, or political affiliation.

In order to ensure that your research is relevant to one of this year’s chosen fields, please read the field definitions on our website before filling out the form.

Find the application form and field definitions here.

30. Damon Runyon Cancer Research Foundation Fellowship Award/ Postdoctoral Fellowship Award

Website Link: https://www.damonrunyon.org/for-scientists/application-guidelines/fellowship
Deadline(s):

Support Strategies: Funding: 4 years- between $50,000-60,000

Description: The Foundation encourages all theoretical and experimental research relevant to the study of cancer and the search for cancer causes, mechanisms, therapies and prevention. Candidates must apply for the fellowship under the guidance of a Sponsor—a scientist (tenured, tenure-track or equivalent position) capable of providing mentorship to the Fellow. In addition to aiding in the planning, execution and supervision of the proposed research, the Sponsor’s role is to foster the development of the Fellow's overall knowledge, technical and analytical skills, and capacity for scientific inquiry. The Sponsor is also expected to assist the Fellow in attaining his/her career.
goals. Assistant Professors with limited mentorship are strongly encouraged to identify a more established scientist to co-sponsor the candidate. Awards are made to institutions for the support of the Fellow under direct supervision of the Sponsor. Candidates who have already accepted a postdoctoral research fellowship award are not eligible.

SELECTION AND REVIEW
The Fellowship Award Committee will review applications and select awardees for approval by the Damon Runyon Cancer Research Foundation's Board of Directors. The primary criteria used to evaluate applicants are:

- the quality of the research proposal (importance of the problem, originality of approach, appropriateness of techniques and clarity of presentation)
- the qualifications, experience and productivity of both the candidate and the Sponsor
- the quality of the research training environment in which the proposed research is to be conducted and its potential for broadening and strengthening the candidate’s ability to independently conduct innovative and substantive research. The proposed research and training environment should represent a new opportunity for the candidate to expand his/her scientific skill set. Direct extensions of the candidate’s graduate work (in approach, technique or exact area of study) will not be funded.

Damon Runyon Postdoctoral Research Fellowships are granted for a four-year term with second-, third- and fourth-year funding contingent upon satisfactory progress reports. Fellows in their first and third years of funding will attend Damon Runyon Fellows' Retreats designed to foster collaboration and interaction between scientists working in different fields relevant to cancer. 

Funding
No part of this grant can be used for indirect costs or institutional overhead.

The $2,000 expense allowance is awarded to the laboratory in which the Fellow is working and can be used by the Fellow for his/her educational and scientific expenses.

31. Dannon Probiotics and Gut Microbiome Fellowship Grant (G) Health and Human Performance, Medical

Website Link: [http://www.dannon.com/fellowship/](http://www.dannon.com/fellowship/)
Application: [http://www.dannon.com/fellowship-application/](http://www.dannon.com/fellowship-application/)
Deadline(s): Feb.

Support Strategies: Research on microbiome or probiotics/yogurt
Funding: $25,000

Description: Dannon Yogurt, Probiotics and the Gut Microbiome Fellowship Grant
The grant offers a unique educational opportunity for a graduate student who shows a strong interest in the research of the gut microbiome’s impact on human health and well-being and/or the nutritional and functional benefits of yogurt and probiotics. Two winners will be awarded $25,000 each, payable to their educational
institutions, for their tuition or research-related projects. Furthermore, Dannon Fellows are connected to each other through this scholarship, encouraging collaboration, communication, and future opportunity in the field. We are proud to support future generations of researchers and scientists.

The Dannon Fellowship Grant was established in 2012 to better understand the role of probiotics and yogurt in human health and was expanded in 2016 to include the role of the gut microbiome. The study of the gut microbiome is an exciting and rapidly emerging area of scientific exploration, and there is still much to discover.

The 2017-2018 Dannon Yogurt, Probiotics and the Gut Microbiome Fellowship Grant applications must be received by February 15, 2018, for consideration. The Dannon Fellows include:

- **2016 Winner**: a study of probiotic yogurt consumption during breastfeeding on the immune and microbial composition of the milk, as well as on maternal and infant gut microbiota.
- **2016 Winner**: cutting-edge analyses to identify the chemical signature of probiotic yogurt.
- **2015 Winner**: the use of probiotics to reduce the psychological and physiological indicators of stress in military personnel.
- **2014 Winner**: the effects of protein fermentation on the human microbiota and on different measures of digestive health both with and without probiotic consumption.
- **2013 Winner**: develop technology for studying the adaptation of fermentative microbes to milk,
- **2012 Winner**: researching the use of foods as a delivery vector for beneficial bacteria in the human diet.

### 32. DECA Inc. Student Scholarships (U) Business

*Stacey_L_Smith@baylor.edu  X3252 or Virginia_Kearney@baylor.edu  X6833*
Description: This website provides background on the Dolores Zohrab Liebmann Fund. Mrs. Liebmann was the daughter of Krikor Zohrab, a prominent Armenian intellectual, writer, and statesman. She supported students and educational and charitable organizations during her lifetime.

Funding Interests:
Graduate school fellowships in any recognized field of study in the humanities, social sciences or natural sciences (including law, medicine, engineering, architecture or other formal professional training)
Independent research or study projects which must be carried out entirely in the United States of America.
Publications focusing on Armenian studies, Armenian history and Armenian literature of the nineteenth century or earlier.

34. Fahs-Beck Fund for Research and Experimentation

<table>
<thead>

Faculty/Post-Doctoral Grant Program (Fahs-Beck Fellows)
Grants of up to $20,000 are available to help support the research of faculty members or post-doctoral researchers affiliated with non-profit human service organizations in the United States and Canada. Areas of interest to the Fund are: studies to develop, refine, evaluate, or disseminate innovative interventions designed to prevent or ameliorate major social, psychological, behavioral or public health problems affecting children, adults, couples, families, or communities, or studies that have the potential for adding significantly to knowledge about such problems. The research for which funding is requested must focus on the United States or Canada or on a comparison between the United States or Canada and one or more other countries.

Faculty/Post-Doctoral Research Grant Guidelines
Faculty/Post-Doctoral Research Grant Application

Doctoral Dissertation Grant Program (Fahs-Beck Scholars)
Grants of up to $5,000 are available to help support dissertation expenses of doctoral students in the United States and Canada whose studies have the potential for adding significantly to knowledge about problems in the functioning or well being of children, adults, couples, families, or communities, or about interventions designed to prevent or alleviate such problems. The research for which funding is requested must focus on the United States or Canada or on a comparison between the United States or Canada and one or more other countries.

Doctoral Dissertation Grant Guidelines
Doctoral Dissertation Grant Application

Proposals for both programs are considered twice a year with deadlines of April 1 and November 1.
Click [HERE](http://sites.nationalacademies.org/PGA/FordFellowships/PGA_047959) to download a one-page PDF-format flyer describing the two grant programs.
(This flyer may be duplicated and distributed, or posted along with other funding opportunity notices.)

35. Ford Foundation – Diversity Dissertation Fellowship (G) Most fields

<table>
<thead>
<tr>
<th>Website Link: <a href="http://sites.nationalacademies.org/PGA/FordFellowships/PGA_047959">http://sites.nationalacademies.org/PGA/FordFellowships/PGA_047959</a></th>
<th>Deadline(s): Nov.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Support Strategies: Doctoral students working on completing their dissertation</td>
<td>Funding: $25,000</td>
</tr>
</tbody>
</table>

Description: The dissertation fellowships provide one year of support for individuals working to complete a dissertation leading to a Doctor of Philosophy (Ph.D.) or Doctor of Science (Sc.D.) degree. The Ford Foundation Dissertation Fellowship is intended to support the final year of writing and defense of the dissertation.

Eligible Fields

Provided by the Research Development Stacey_L_Smith@baylor.edu X3252 or Virginia_Kearney@baylor.edu X6833
Awards will be made for study in research-based Ph.D. or Sc.D. programs that include the following major disciplines and related interdisciplinary fields: American studies, anthropology, archaeology, art and theater history, astronomy, chemistry, communications, computer science, cultural studies, earth sciences, economics, education, engineering, ethnic studies, ethnomusicology, geography, history, international relations, language, life sciences, linguistics, literature, mathematics, performance study, philosophy, physics, political science, psychology, religious studies, sociology, urban planning, and women’s studies. Also eligible are interdisciplinary ethnic studies programs, such as African American studies and Native American studies, and other interdisciplinary programs, such as area studies, peace studies, and social justice. Research-based fields of education are eligible if the major field of study is listed above and is used to describe the Ph.D. or Sc.D. program of the applicant (e.g., sociology of education, anthropology, and education).

The complete list of eligible fields of study supported at the dissertation level of the fellowship program is available here.

### 36. Ford Foundation – Postdoctoral Fellowship (P) Most fields

**Website Link:** [http://sites.nationalacademies.org/PGA/FordFellowships/PGA_047960#stipends](http://sites.nationalacademies.org/PGA/FordFellowships/PGA_047960#stipends)

**Deadline(s):** Nov.

**Support Strategies:** Postdoctoral scholars in most fields

**Funding:** $45,000

**Description:** Postdoctoral fellowships will be awarded in a national competition administered by the National Academies of Sciences, Engineering, and Medicine on behalf of the Ford Foundation. The awards will be made to individuals who, in the judgment of the review panels, have demonstrated superior academic achievement, are committed to a career in teaching and research at the college or university level, show promise of future achievement as scholars and teachers, and are well prepared to use diversity as a resource for enriching the education of all students.

Awards will be made for study in the following major disciplines and related interdisciplinary fields: American studies, anthropology, archaeology, art and theater history, astronomy, chemistry, communications, computer science, cultural studies, earth sciences, economics, education, engineering, ethnic studies, ethnomusicology, geography, history, international relations, language, life sciences, linguistics, literature, mathematics, performance study, philosophy, physics, political science, psychology, religious studies, sociology, urban planning, and women’s studies. Also eligible are interdisciplinary ethnic studies programs, such as African American studies and Native American studies, and other interdisciplinary programs, such as area studies, peace studies, and social justice. Research-based fields of education are eligible if the major field of study is listed above and is used to describe the Ph.D. or Sc.D. program of the applicant (e.g., sociology of education, anthropology, and education).

### 37. Fulbright Student Program (G)

**Website Link:** [https://us.fulbrightonline.org/about/fulbright-us-student-program](https://us.fulbrightonline.org/about/fulbright-us-student-program)

**Deadline(s):** Varies

**Support Strategies:** Study abroad on individually designed study/research projects or for English Teaching Assistant Programs.

**Funding:** Varies

**Description:** The Fulbright U.S. Student Program provides grants for individually designed study/research projects or for English Teaching Assistant Programs. A candidate will submit a Statement of Grant Purpose defining activities to take place during one academic year in a participating country outside the U.S.

During their grants, Fulbrighters will meet, work, live with and learn from the people of the host country, sharing daily experiences. The program facilitates cultural exchange through direct interaction on an individual basis in the classroom, field, home, and in routine tasks, allowing the grantee to gain an appreciation of others’ viewpoints and beliefs, the way they do things, and the way they think. Through engagement in the community, the individual will interact with their hosts on a one-to-one basis in an atmosphere of openness, academic integrity, and intellectual freedom, thereby promoting mutual understanding.

**Applicants for the Fulbright U.S. Student Program include:**

- Recent graduates  Graduating seniors and recent bachelors degree recipients have some undergraduate preparation and/or direct work or internship experience related to the project.
Master's and doctoral candidates  Graduate-level candidates must demonstrate the capacity for independent study or research, together with a general knowledge of the history, culture, and current events of the countries to which they are applying.

Young professionals, including writers, creative and performing artists, journalists, and those in law, business, and other professional fields  Competitive candidates who have up to 5 years of professional study and/or experience in the field in which they are applying will be considered. Those with more than 5 years of experience should apply to the Fulbright U.S. Scholar Program.

Competitive applicants to the Fulbright U.S. Student Program will not have recent extensive experience abroad (excluding recent undergraduate study abroad), especially in the country of application.

38. Benjamin A. Gilman International Scholarship Program (U)
Website Link: [https://www.gilmanscholarship.org/](https://www.gilmanscholarship.org/)
Support Strategies: Study abroad scholarships for students with high financial need
Funding: up to $5,000

Description: The U.S. Department of State's Benjamin A. Gilman International Scholarship is a grant program that enables students of limited financial means to study or intern abroad, thereby gaining skills critical to our national security and economic competitiveness. The Gilman Scholarship Program is open to U.S. citizen undergraduate students who are receiving Federal Pell Grant funding at a two-year or four-year college or university to participate in study and intern abroad programs worldwide. Since 2001, there were 89,000 applications and 25,000 scholarships awarded. By supporting undergraduate students who have high financial need, the program has been successful in supporting students who have been historically underrepresented in education abroad, including but not limited to first-generation college students, students in STEM (science, technology, engineering, and mathematics) fields, ethnic minority students, students with disabilities, students attending HBCUs (Historically Black Colleges and Universities) or other minority-serving institutions, students attending community colleges, and students coming from U.S. states with less study abroad participation.

39. Global Religion Research Initiative (G & P) Religion/Philosophy,
Website Link: [https://grri.nd.edu/](https://grri.nd.edu/)
Grants: [https://grri.nd.edu/about](https://grri.nd.edu/about)
Proposals: [https://grri.nd.edu/rfps](https://grri.nd.edu/rfps)
Support Strategies: Research and teaching on global religion
Funding: $4,000 curriculum development; $25,000 International Collaboration; $12,000 Projects; $70,000 Fellowship

Description: At the University of Notre Dame and funded by Templeton Religion Trust: Global Religion Research Initiative (GRRI) is a portfolio of six distinct competitive research and writing grants and fellowships programs that together intend to significantly advance the social scientific study of religions around the globe. The premise of the GRRI is that, as religion persists in significance in the contemporary, globalizing world, the social sciences in North America need much better to understand the diversity of religions and to integrate that enhanced understanding into research, theory, and teaching.

The GRRI offers a variety of competitive funding opportunities to scholars at all stages of their careers designed to realize those scholarly ends. We welcome proposals not only from scholars who already study religion, but also those for whom the study of religion is a new but genuine interest.

The GRRI project has two main aims:
1. To broaden the current study of religion beyond the North American and European contexts to the global study of religion, allowing for a more thorough understanding of the role of religion in the lives of individuals and societies worldwide.
2. To reinvigorate an interest in religion as a viable topic of academic inquiry.

The GRRI seeks to realize these goals by providing scholars interested in pursuing questions related to the structure, practice, and influence of religions worldwide with resources to complete their work.
Programs include: Curriculum Development ($4,000), International Collaboration ($25,000), Project Launch (up to $12,000) and Book Leave ($70,000 fellowship).

### 40. Hayek Fund for Scholars (G) Social Science, Humanities

<table>
<thead>
<tr>
<th>Website Link: <a href="https://theihs.org/funding/hayekfund/">https://theihs.org/funding/hayekfund/</a></th>

<tbody>
<tr>
<td>Support Strategies: Funds for presentations, travel, and collaboration in the Social Science and Humanities fields</td>
<td>Rolling</td>
<td>Up to $1,000 for career-enhancing activities</td>
</tr>
</tbody>
</table>

**Description:** HS operates programs and engages faculty and students across the country, but we are also a strong local partner of George Mason University. The university is one of the top venues for IHS programs with leading scholars engaged in the most critical debates in academia and American society. At IHS, we believe the principles of the classical liberal tradition – including individual liberty and responsibility, limited government, economic freedom, the rule of law, free speech, and open inquiry – are the foundation of a just and prosperous world. And we believe that for those ideas to take root, they must be taught, explored, and challenged in higher education. Any graduate student or faculty at any institution participating in a social science or humanities field of study can apply to the Hayek Fund for Scholars to fund research and career-advancing activities. The ideal candidate is eager to pursue or continue a career in academia and contribute to the tradition of classical liberal scholarship. Although any scholar may apply, academics studying the hard sciences are generally not accepted into the program. The Hayek Fund can help pay for activities including, but not limited to:

- Presentations at academic or professional conferences
- Travel to academic job interviews on a campus or at professional/academic conferences
- Travel to archives or libraries for research
- Submission of unpublished manuscripts to journals or book publishers
- Participation in career-development or enhancing seminars
- Collaborative research projects with a faculty member and aspiring academic
- Purchase of data sets necessary for research

### 41. Hope Funds Postdoctoral Fellowship (Postdoc)

<table>
<thead>
<tr>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Support Strategies: cancer postdoc</td>
<td>Funding: 3 year fellowships for $50,000+</td>
</tr>
</tbody>
</table>

**Description:** Hope Funds for Cancer Research is offering fellowships to postdoctoral scientists who propose to work on highly innovative research projects that challenge the traditional paradigms of understanding the causes, mechanisms, progression, disease markers or risk factors of the most difficult-to-treat cancers, including pancreatic, lung, liver, sarcomas, esophageal, brain, gastric, bone and ovarian cancers; and rare leukemias, lymphomas and MDS. The Trustees of the Hope Funds believe that funding research that could lead to breakthroughs in these areas and increase life expectancy in these types of cancers is at the core of its mission. The Fellowship Review Committee will consider each of the following criteria, with a strong emphasis on the innovation of the project, in evaluating candidates.

1. **Innovation:** The originality of the project and the use of novel concepts, hypotheses, approaches, methodologies, tools and technologies in the area of cancer research. The level to which the project challenges existing paradigms and presents innovative hypotheses to promote progress in the prevention, control and treatment of the most difficult-to-treat cancers (e.g. pancreatic, lung, liver, sarcomas, esophageal, brain, gastric and ovarian cancers).
2. **Significance:** The direct relevance of the research proposal to issues regarding prevention, control or treatment in the most difficult-to-treat cancers. The importance of the project’s outcomes on the concepts, methods, technologies, treatments, services, or preventive interventions that drive the field of cancer research.
3. **Approach:** The conceptual framework and reasoning around the design, methods and analyses proposed and their appropriateness to the aims of the project. The identification of potential problem areas in the approach proposed, and the consideration of alternative approaches.
4. Investigators: The qualifications, experience, and productivity of both the candidate and the principal investigator. The appropriateness of the project proposed to the experience of the principal investigator and if applicable, collaborative investigators.

5. Environment: The quality of the training provided by the research environment in which the proposed research is to be conducted and the potential for broadening and strengthening the candidate’s ability to conduct innovative and significant research.

ELIGIBILITY

- Candidates must have completed one or more of the following degrees or its equivalent: MD, PhD, MD/PhD, DDS, DVM. For foreign-trained physicians, equivalency will be determined on a case-by-case basis.
- Candidates must conduct their proposed research under a sponsor who holds a formal appointment at the host institution.
- Candidates can apply prior to starting or during their postdoctoral appointments provided they have been formally accepted into the lab they are applying from, and current postdoctoral scientists must not have been in their Sponsor’s lab for more than two years as of September 18, 2019.
- Candidates who have already accepted other postdoctoral research fellowship awards are not eligible.
- The proposed investigation must be conducted at a university, hospital or research institution in the United States.
- The Hope Funds for Cancer Research does not support research at for-profit institutions.

TERMS OF THE AWARD

The Hope Funds for Cancer Research is awarding three-year fellowships with a stipend of $50,000 for the first year, $52,000 for the second year, and $54,000 for the third year. A travel grant of $1,500 will be awarded each year to each grantee for the purpose of attending conferences and/or scientific training meetings. All awards and stipends are made to the Institution for the support of the designated Fellow.

---

### 42. Horowitz Foundation (G) Social Science

**Website Link:** [https://www.horowitz-foundation.org/grant-info](https://www.horowitz-foundation.org/grant-info)  
**Deadline(s):** December  
**Funding:** $7,500

**Support Strategies:** Ph.D. students completing a dissertation that relates to social policy application

**Description:**

**Aim and Mission:**
- Support emerging scholars through small grants
- Promote scholarship with a social policy application
- Encourage projects that address contemporary issues in the social sciences

The foundation supports projects with a social policy application on either a global or local level. Applications are evaluated based on the Trustees’ assessment of criteria such as feasibility, applicability, originality, methodology, theoretically informed or empirically rich research, and letters of recommendation. No specific weight is given to any one area. Proposals are evaluated based on the overall merit of all aspects of the application.

**Eligibility**
- Applicants must be current Ph.D. candidates who are working on their dissertation
- Applicants must not have a Ph.D.; those who do, are ineligible
- Applicants must have defended their dissertation proposal or had their topic approved by their department
- Applicants can be from any country and any university in the world. US citizenship or residency is not required.

*You can find the application portal and instructions [here](https://www.horowitz-foundation.org/grant-info).*

43. **IBM (G) Computer Science/Engineering**

**Support Strategies:** Research in computer science and engineering  
**Funding:** Varies

**Deadline(s):** Varies

**Description:** IBM University Awards support basic research, curriculum innovation, and educational assistance in focus areas that are fundamental to innovation in the 21st Century and strategic to IBM’s core business. These focus areas include the following topics of interest:
- AI / Cognitive Computing
- Big Data / Analytics
- Blockchain
- Cloud Computing / Services
- Core Technologies
- Internet of things
- Quantum Computing
- Security
- Social / Mobile

We provide funding under two engagement models:

**By open submissions:** For these awards, we invite submission of nominations in response to solicited, published program announcements. Eligibility requirements and objectives for each competition are included in the invitation. Included in this group are IBM Ph.D. Fellowship Awards.

**By IBM nomination:** These awards support the success of existing, active collaborations. Nominations for these awards are initiated by the IBM technical contact actively participating in the work. Included in this group are IBM Faculty Awards, IBM Open Collaborative Research (OCR) Awards, and IBM Shared University Research (SUR) Awards.

44. **The LBJ Foundation (G) English, History, Journalism**

**Website Link:** [http://www.libjlibrary.org/page/foundation/initiatives/moody-research-grant](http://www.libjlibrary.org/page/foundation/initiatives/moody-research-grant)

**Support Strategies:** funds for researching at LBJ library  
**Funding:** Grants range from $600 to $3,000

**Description:** The Lyndon Baines Johnson Foundation is a nonprofit organization that supports the LBJ Presidential Library and the LBJ School of Public Affairs at The University of Texas at Austin.

The LBJ Foundation awards a limited number of grants for research at the LBJ Library, which are underwritten by The Moody Foundation of Galveston, Texas. Grants may be used for research for dissertations, theses, senior papers, publications, and other projects.

Grants range from $600 to $3,000. Funds are awarded for the sole purpose of helping to defray living, travel and related expenses incurred while conducting research at the LBJ Library during the grant period. Grant awards include funding for travel (airfare or mileage) and a $180 per diem for days spent conducting research at the LBJ Library, weekend days for research visits longer than one week, and one travel day. Applications must include an estimated cost of travel (airfare or mileage), the number of days required for research at the LBJ Library, and the total number of days for research and travel. Airfare should be based on the most economical fare available.

45. **(Ruth) Landes Memorial Research Fund (G & P) Anthropology, English, History, Foreign Language, Political Science, Sociology**

**Website Link:** [http://www.thereedfoundation.org/landes/about.html](http://www.thereedfoundation.org/landes/about.html)

**Support Strategies:** Individual and institutional funding in the areas of anthropology, English, history, foreign language, political science, and sociology  
**Funding:** $10,000 to $60,000 per year

**Deadline(s):** Rolling deadline
**Description:** The Ruth Landes Memorial Research Fund was established in 1991 in honor of Ruth Schlossberg Landes, Ph.D. (1908–1991) for interdisciplinary research and publications on subjects that were of interest to Dr. Landes during her professional and academic career. Dr. Landes conducted fieldwork among Afro-Brazilians, African-Americans in the United States of America, and American Indians, including the Ojibwa, Potawatomi, and Sioux. She worked in Canada, Brazil, England, Scotland, South Africa, Spain, Switzerland, and in the U.S.A. Her research topics included but were not limited to, aging, gender and sexuality, race and ethnicity, immigrant and minority populations, culture and education, language and identity, and religion. Information on the work of Dr. Landes can be found in the Ruth Landes Bibliography, available for individuals and institutions. Funding preference will be given to research proposals on the specific subjects reflected in the Ruth Landes Bibliography. Special consideration will be given to applicants who work within Landes-related materials, including the papers and unpublished manuscripts at the NAA. Applications for publication subventions and multi-year grants will be considered.

**Eligibility**
Grants are available to scholars and other professionally qualified individuals of recognized merit for work toward a doctoral dissertation, for postdoctoral work, or for independent scholarship. Eligibility is limited to United States citizens and permanent legal residents. Grants are awarded on an objective and non-discriminatory basis and without regard to race, gender, religion, national origin, sexual orientation, age or ethnicity.

**Awards**
Awards range from $10,000 to $60,000 per year and may be used for research, including field studies, and related expenses, including travel (where appropriate) and living costs over the period covered by the Landes Grant. Senior scholars may request stipends based on their previous year’s salary and professional standing. Applications for multiyear grants will be considered. For more information, please contact David Latham at +1 212-768-4996, or lathamdc@thereedfoundation.org. There is no application deadline.

**Grant Application Procedures and Checklist** [pdf] [doc] [rtf]

**Guidelines for Referees** [pdf] [doc] [rtf]

No grants need to be awarded if the applicant pool is not of sufficient quality. All applicants will be notified within three months from the date of receipt of the completed application.

**Applications should be mailed to:**
Ruth Landes Memorial Research Fund  
The Reed Foundation  
500 Fifth Avenue, Suite 4810  
New York, New York 10110

Please note: Electronically submitted applications will not be accepted.

---

**46. The L. S. B. Leakey Foundation (G & P) Anthropology**

**Website Link:** [https://leakeyfoundation.org/grants/research-grants/](https://leakeyfoundation.org/grants/research-grants/)

**Support Strategies:** human origin research

**Funding:** up to $25,000

**Deadline(s):** Jan. 5 & July 15

**Description:** Advanced doctoral students (advanced to candidacy – all but dissertation) and established scientists are eligible for Leakey Foundation Research Grants. There are no citizenship restrictions; however, all applications must be in English.

**Funding:** The Leakey Foundation exclusively funds research related specifically to human origins. Priority of funding is commonly given to exploratory phases of promising new research projects that meet the stated purpose of the Foundation. The majority of The Leakey Foundation’s Research Grants awarded to doctoral students are in the $3,000-$15,000 range. Larger grants given to senior scientists and post-doctoral students may be funded up to $25,000. Also, Baldwin Fellowships: for students from developing countries to get an education in anthropology (up to $15,000 a year)
47. Library Company of Philadelphia & the Historical Society of Pennsylvania (U,G & P) History

Website Link: [https://librarycompany.org/academic-programs/fellowships/](https://librarycompany.org/academic-programs/fellowships/)

**Description:** The Library Company, founded by Benjamin Franklin in 1731 and located in Center City Philadelphia, holds over half a million rare books and graphics that are capable of supporting research in a variety of fields and disciplines relating to the history of America and the Atlantic world in the 17th, 18th, and 19th centuries. The holdings include the nation’s second-largest collection of pre-1801 American imprints and one of the largest collections of 18th-century British books in America. Information about the subject strengths of the collections can be found [here](https://librarycompany.org/academic-programs/fellowships/).

The fellowship program began in 1987 and now has more than 900 alumni. A list of former fellows and their topics is available [here](https://librarycompany.org/academic-programs/fellowships/), along with a list of publications resulting from their fellowship research.

Fellows share opportunities to participate in the Philadelphia region’s vibrant intellectual life while conducting their research in the print, graphics, and manuscript collections of the Library Company and other local institutions. Fellows have an opportunity to present their research publicly through conferences, seminars, and colloquia. The Library Company's Cassatt House fellows’ residence offers rooms at reasonable rates, along with a kitchen, common room, and offices with internet access and is available to resident and non-resident fellows at all hours.

**Deadline(s):** Short Term & Dissertation (Mar.); Postdoctoral (Nov)

**Support Strategies:** Research in the collections of the Library Company

**Funding:**
- Short Term: $2,000
- Dissertation: $25,000
- Postdoctoral: $40,000

48. L’OREAL Women in Science Postdoctoral Award (P) Science, Technology, Engineering, Mathematics, Women Scholars

Website Link: [http://www.lorealusa.com/csr-commitments/%E2%80%99or%C3%A9al-usa-for-women-in-science-program](http://www.lorealusa.com/csr-commitments/%E2%80%99or%C3%A9al-usa-for-women-in-science-program)

**Description:**

L’ORÉAL’S COMMITMENT TO SUPPORTING WOMEN IN SCIENCE

From life-saving vaccines to sustainable energy development, science is making the world better for everyone. We know that jobs in Science, Technology, Engineering, and Math (STEM) are the jobs of tomorrow, but today, women only make up 24 percent of STEM workers in the United States, only 14 percent of the country’s engineers and 27 percent of computer science professionals. Without appropriate female representation, the potential STEM innovations of tomorrow will be missing half of the talent in our world.

Innovation has been at the core of L’Oréal’s business since the company was founded by a visionary scientist more than 100 years ago, and quite simply, we depend on the contributions women make in the field every day. In fact, 70% of L’Oréal’s global scientific workforce is women. The For Women in Science program was created out of a simple belief: the world needs science, and science needs women because women in science have the power to change the world.

ABOUT THE PROGRAM

The L’Oréal USA For Women in Science fellowship program awards five women postdoctoral scientists annually with grants of $60,000 each for their contributions in Science, Technology, Engineering and Math (STEM) fields and commitment to serving as role models for younger generations. The program is the U.S. component of the L’Oréal-UNESCO For Women in Science International Fellowships program. Celebrating its fourteenth year in the U.S., the For Women in Science program has awarded 70 postdoctoral women scientists over $3.5 million in grants.

**Deadline(s):**

**Support Strategies:** Females studying in one of the STEM fields

**Funding:** $60,000
L’Oréal USA partners with the American Association for the Advancement of Science (AAAS) to manage the program’s application and peer-review process. Each year, the program attracts talented applicants from diverse STEM fields, representing some of the nation’s leading academic institutions and laboratories.

**APPLICATION**

The 2018 L’Oréal USA for Women in Science application period will open December 4th, 2017 and will close on February 2nd, 2018. The application and more information can be found HERE.

<tr>
<td><strong>Support Strategies:</strong> Doctoral students focusing on strengthening religious life for North American Christians</td>
<td><strong>Funding:</strong> $25,000</td>
</tr>
<tr>
<td><strong>Description:</strong> The Dissertation Fellowship (DF) program supports the final year Ph.D. or Th.D. dissertation writing for students engaged in research pertaining to North American Christianity, especially projects with the potential to strengthen the religious life of North American Christians and their institutions, including seminars, while simultaneously advancing American religious and theological scholarship. Proposed projects may employ a variety of methodological perspectives, including, but not limited to, history, ethics, the social sciences, biblical studies, and historical, systematic, and practical theology. They may also be interdisciplinary in nature. In all its grantmaking, including the Dissertation Fellowship program, LI is interested in funding projects with the potential to strengthen the religious life of North American Christians and their institutions while simultaneously advancing American religious and theological scholarship. The Louisville Institute also has an interest in strengthening the quality of theological school teaching.</td>

## 50. Mathematical Association of America (U) Education, Mathematics

| Website Link: https://www.maa.org/programs/maa-grants | Deadline(s): Varies |
| Support Strategies: Math education | Funding: Funding |
| **Description:** While the MAA is not a grant-making organization, we administer a variety of programs funded by public and private sources that provide funding to support activities that help advance the Association’s goals. Some of these programs are ongoing, while some may only be funded for a few years. |

- Dolciani Mathematics Enrichment Grants (DMEG) support projects designed to develop mathematical enrichment programs for talented students in middle or high school.
- National Research Experience for Undergraduates Program (NREUP) supports the participation of mathematics undergraduates from underrepresented groups in focused and challenging research experiences to increase their interest in advanced degrees and careers in mathematics.
- PIC Math prepares mathematical sciences students for industrial careers by engaging them in research problems that come directly from industry.
- Tensor Grants for Women and Mathematics support projects designed to encourage college and university women or high school and middle school girls to study mathematics.
- Tensor-SUMMA Grants: Strengthening Underrepresented Minority Mathematics Achievement support programs designed to encourage pursuit and enjoyment of mathematics among middle school students.
students, high school students, and/or beginning college students from groups traditionally under-represented in the field of mathematics.

- **Travel Grants for Undergraduates** to attend MAA National Meetings. Students can receive up to $500 to cover travel and lodging expenses if they are presenting at MathFest or the Joint Mathematics Meetings.

---

### 51. Mattie-Jeannie Fund Trust (U, G, P) Music

**Website Link:** Website Unavailable  
**Deadline(s):** None  
**Funding:** Gave $29,000 in 2017

**Support Strategies:** Classical music scholarships

**Description:**
Provides scholarship funds to be used by performers, teachers or students in the field of classical music. All applicants must be Texas residents or students of Texas schools.

**Initial approach should be a letter of inquiry sent to:**
P.O. Box 2950  
San Antonio, TX United States 78299-2950  
Telephone: (210) 220-4438

### 52. Mayborn Museum Bryce C. Brown Research Fellowship (U & G)

**Anthropology, Art and Art History, English, History, Religion, Sociology**

**Website Link:** [https://www.baylor.edu/mayborn/index.php?id=940688](https://www.baylor.edu/mayborn/index.php?id=940688)  
**Deadline(s):** Spring  
**Funding:** Two $1000 stipends, one for natural history and one from cultural history

**Support Strategies:** Undergraduate, graduate or faculty member conducting research in Anthropology, Art and Art history, English, History, Religion, or Sociology may apply for a fellowship

**Description:**
To generate new knowledge of the museum’s collections through original research and to provide opportunities for collections-based research, Baylor University’s Mayborn Museum Complex is pleased to announce two Bryce C. Brown Research Fellowships during the summer of 2018.

The Mayborn Museum invites applications from all Baylor University faculty as well as graduate and undergraduate students. One Fellowship will be awarded to a researcher using the natural history collection and one Fellowship will be awarded to a researcher using the cultural history collection.

The research must be conducted over a four to six-week period during the summer of 2018 (extensions may be available). Fellowship winners will be awarded a stipend of $1,000.

The Mayborn Museum will provide Fellows with access to:
- Collection objects and data associated with the Fellow’s research
- Collection Staff expertise
- Free [Portal to the Public Network](https://www.baylor.edu/mayborn/index.php?id=940688) training

Fellows are expected to make a tangible contribution to the Mayborn Museum during the period of their stay. Examples of contribution may include: Fellows presenting work-in-progress or research outcomes to the public through programs offered at the Museum, contributing to object records, or writing articles for publications. Publications and presentations that result from a Fellow’s research will acknowledge the Bryce C. Brown Research Fellowship Program at the Mayborn Museum for its support.

Applicants must submit a proposal, a curriculum vitae, and two letters of recommendations. The proposal (please limit to two pages) should include name, contact information, description of proposed research, expected work to be completed during the summer, anticipated contribution to the Mayborn Museum, and
estimated dates to be in residence. Eligible research projects must benefit from access to collections held by the Mayborn Museum. Projects that require destructive analysis require submittal of a separate Destructive Sampling Application which must be approved prior to submittal of the Fellowship application.

The scope of the Mayborn Museum’s collections includes objects from the fields of history, ethnography, archaeology, zoology, botany, geology, paleontology, and archives, with an emphasis on objects from central Texas. The Museum also has many objects worldwide in scope associated with the early years of the Museum’s collecting history, which goes back to a teaching collection started in the mid-1850s that were developed into the Baylor University Museum in 1893.

Application materials may be sent by e-mail or hard copy to:
- Sabrina Thomas, Assistant Collections Manager
  Mayborn Museum Complex
  One Bear Place #97154
  Waco, Texas 76798-7154
  Sabrina_Thomas@baylor.edu

Contact Sabrina Thomas at 254-710-1478 or Sabrina_Thomas@baylor.edu if there are any questions regarding the Mayborn Museum Collection holdings or the application process.

### 53. Medieval Academy of America Dissertation Grant (G) History (Medieval)

<table>
<thead>
<tr>
<th>Website Link: <a href="https://www.medievalacademy.org/page/MAA_Grants">https://www.medievalacademy.org/page/MAA_Grants</a></th>
<th>Deadline(s): February</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Support Strategies</strong>: Graduate students writing Ph.D. dissertations on medieval topics</td>
<td><strong>Funding</strong>: $2,000</td>
</tr>
<tr>
<td><strong>Description</strong>: Medieval Academy dissertation grants support advanced graduate students who are writing Ph.D. dissertations on medieval topics. The $2,000 grants help defray research expenses such as the cost of travel to research collections and the cost of photographs, photocopies, microfilms, and other research materials. The cost of books or equipment (e.g., computers) is not included. All graduate students whose primary research focuses on an aspect of medieval studies are eligible but if your topic deals with late-medieval Britain (ca. 1350 - 1500), you should apply for a Schallek Award. Applicants must have received approval from their dissertation committee for their projects by the application date.</td>
<td></td>
</tr>
<tr>
<td><strong>Eligibility</strong></td>
<td></td>
</tr>
<tr>
<td>Applicants must be members of the Medieval Academy as of 15 January of the year in which they apply. You can. Find the application <a href="https://www.medievalacademy.org/page/MAA_Grants">here</a>.</td>

<th></th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Support Strategies</strong>: Crystallography, petrology</td>
<td><strong>Funding</strong>: Up to $5,000</td>
</tr>
<tr>
<td><strong>Description</strong>: The Mineralogical Society of America’s Grant for Research in Crystallography is funded by the Edward H. Kraus Crystallographic Research Fund with contributions from MSA members and friends. The grant awards up to $5,000 for research in the field of mineralogical crystallography. This grant targets projects within the areas of mineralogy, crystal chemistry, petrology, mineral physics, biomineralization, and geochemistry that can employ a variety of crystallographic, spectroscopic, analytical, and computational techniques. MSA Grant for Student Research in Mineralogy and Petrology ($5,000) The Mineralogical Society of America’s Grants for Student Research in Mineralogy And Petrology are funded by an endowment created by contributions from the MSA membership. The grant comprises two awards of up to $5,000 each for research in mineralogy and petrology. Students, including graduate and undergraduate students, are encouraged to apply. However, all proposals are considered together. The award selection will be based on the qualifications of the applicant, the quality, innovativeness, and scientific significance of the research, and the likelihood of success of the project.</td>

**Last edited November 2019**
55. Modern Language Association Fellowships and Grants (U & G) English, Film and Digital Media, Foreign Languages, Journalism

Website Link: https://www.mla.org/Resources/Career/MLA-Grants-and-Awards
Support Strategies: Travel grants, research, and fellowships
Deadline(s): Varies
Funding: Varies
Description: This site lists a variety of fellowship and grant opportunities including study abroad, study at specified libraries, studies in specific fields, etc. Over 15 pages of different opportunities, most of which are for smaller amounts for research. Most of the awards are from agencies outside of the MLA.

56. National Computational Science Institute XSEDE Undergraduate Awards

Website Link: http://computationalscience.org/xsede-empower
http://www.xsede.org
Support Strategies: undergraduate stipends
Deadline(s): August
Funding: see below
Description: Application deadline for Fall 2019 participation: August 2, 2019
Application deadline for Spring 2020 participation: November 1, 2019
An XSEDE-wide effort is underway to expand the community by recruiting and enabling a diverse group of students who have the skills - or are interested in acquiring the skills - to participate in the actual work of XSEDE. The name of this effort is XSEDE EMPOWER (Expert Mentoring Producing Opportunities for Work, Education, and Research). We invite the whole XSEDE community - staff, researchers, and educators - to recruit and mentor undergraduate students to engage in a variety of XSEDE activities, such as computational and/or data analytics research and education in all fields of study, networking, system maintenance and support, and visualization. The program provides a stipend to students and resources for the training of those students who work on XSEDE projects for one semester, one quarter, one summer, or longer.
To participate, undergraduate students from any US degree-granting institutions are matched with a mentor who has a project that contributes to the work of XSEDE. Participation is strongly encouraged for mentors and students belonging to groups traditionally underrepresented in HPC, including, but not limited to, women, minorities, and persons with disabilities. There are three tiers of participation for students depending on existing skill level: learner, apprentice, and intern. Appropriate stipends will support each student.

WHICH STUDENTS ARE ELIGIBLE TO PARTICIPATE?
Students must be enrolled as an undergraduate at a US degree granting institution through the duration of their participation. Each participating student will receive a stipend. There are three levels of participation:

- **Learners** spend time acquiring the necessary skills to contribute to the work of XSEDE through tutorials, individual instruction, remote or in-person workshops, and self-learning. The expectation is that learners will have a high desire to participate, but have not yet had extensive experience. Learners will be given a stipend intended to recognize the extra effort needed to acquire the desired skills as an introduction to the field of high performance computing under the following guidelines:
  - $750 per semester assuming a level of effort of 12 weeks, 8-10 hours per week,
  - $500 per quarter assuming a level of effort of 8 weeks, 8-10 hours per week,
  - $1500 per summer assuming 10 weeks at 30 hours per week.

- **Apprentices** improve and apply their skills, spending the vast majority of their time doing tasked but not necessarily completely independent work, with training in specific areas or skills as needed. Apprentices need not have previously spent time as a learner participant. Apprentice applicants who do not meet the full expectations may be asked to start as a learner. Apprentices will be given a stipend of:
  - $1200 per semester assuming a level of effort of 12 weeks, 8-10 hours per week,
  - $800 per quarter assuming a level of effort of 8 weeks, 8-10 hours per week,
  - $2400 per summer assuming 10 weeks at 30 hours per week.
- Interns demonstrate the ability to do more independent work, tasked and as part of a project or group effort. Interns will be given a stipend of:
  - $1500 per semester assuming a level of effort of 12 weeks, 8-10 hours per week, or
  - $1000 per quarter assuming a level of effort of 8 weeks, 8-10 hours per week, or
  - $3000 per summer assuming 10 weeks at 30 hours per week.

Interns need not have started as learners or apprentices, but the expectation is that learners would advance to apprentices and then to interns, so prior participation will be taken into account in the selection of interns.

At each interval during the year (end of each semester or quarter, and at the middle and end of each summer), a mentor/supervisor may propose that a learner be promoted to apprentice, or an apprentice be promoted to intern. Student positions are renewable for up to a year, after which time the expectation is that the mentor/supervisor would take over the financial commitment to enable the student to continue and advance.

**HOW TO APPLY**

Mentors can apply by clicking the "New Position" button at the top of this page. Students can apply by clicking the "New Student Application" button at the top of this page.

Applications will typically be reviewed in early November, March, and June for projects starting the following spring, summer, and fall, respectively. While the program will continue to accept applications year-round, the cut-off for applications reviewed for the next cycle of funding will be the first Friday of the month in which reviews take place, except when otherwise noted at the top of this page.

**HOW TO PROMOTE THE PROGRAM**

PDF flyers are available to promote the program to students and potential mentors:
- Student flyer
- Potential mentor flyer

---

### 57. National League of Nursing Education (G) Nursing, Education

**Website Link:** [http://www.nln.org/](http://www.nln.org/)

**Deadline(s):** Feb.

**Support Strategies:** Nursing education research  
**Funding** $2,500 to $25,000

**Description:** As the only national organization funding nursing education research, the NLN is the leader in advancing the science of nursing education — furthering the scholarship of teaching and promoting evidence-based nursing education. A long record of support for a rigorous, high-quality study that contributes to academic progression is reflected in the NLN's nursing education research and grants program.

**NLN Research Priorities in Nursing Education - 2016 - 2019**

Research activities advance the NLN's goal of taking the "lead in the conduct of research that informs and promotes evidence-based teaching, advances the science of nursing education, and provides and interprets data about nursing education and the nurse educator workforce." Over the past decade, the NLN has expended more than half a million dollars to support research in nursing education.

**Available NLN Funding Opportunities:**
- [NLN Nursing Education Research Grants](http://www.nln.org/professional-development-programs/grants-and-scholarships/nursing-education-research-grants) (up to $25,000)
- [Mary Anne Rizzolo Doctoral Research Award](http://www.nln.org/professional-development-programs/grants-and-scholarships/nursing-education-research-grants) ($2,500)

**Co-Sponsored:**
- [Eastern Nursing Research Society/NLN Doctoral Research Award](http://www.nln.org/professional-development-programs/grants-and-scholarships/nursing-education-research-grants) ($2,500)
- [Southern Nursing Research Society/NLN Doctoral Research Award](http://www.nln.org/professional-development-programs/grants-and-scholarships/nursing-education-research-grants) ($5,000)
- [The Sigma Theta Tau International/NLN Research Award](http://www.nln.org/professional-development-programs/grants-and-scholarships/nursing-education-research-grants) ($5,000)
### 58. NXP Foundation: Young Women’s Stem Leadership Forum and Awards (U & G) Science, Technology, Engineering, Mathematics, Female Students

- **Deadline(s):** Varies
- **Support Strategies:** Applicant must be a female student enrolled in an accredited academic program as of the fall 2017 semester with a declared major in any field of science, technology, engineering, or math, or related subject study.
- **Funding:** Varies

**Description:**

The application for the Award is now closed. NXP is still actively accepting applications for the NXP Foundation Women’s STEM Leadership Forum. To reserve your spot, send an email with your name, email, school, year in school, and major to nxp.foundation@nxp.com.

On October 25, 2017, in Austin, Texas, the NXP Foundation will proudly launch the inaugural Women’s STEM Leadership Forum to honor the best and brightest young women and their academic and innovative achievements. In addition to an exceptional line-up of speakers and panel discussions, the Forum will offer attendees an extraordinary opportunity for professional interface and dialogue with some of the industry’s top female technology leaders.

As the capstone to this event, the NXP Foundation will recognize ten outstanding students with the Women’s STEM Student Achievement Award, which carries a cash prize ranging from $1,000 to $5,000 and prestigious recognition of achievement, imagination, and commitment to making a difference in the world.

During the Forum, the NXP Foundation will also honor global leadership and inspiration at the highest level with the presentation of the NXP Foundation Women’s STEM Leadership Prize, awarded to women whose talent, commitment, and innovation have inspired the world on a global scale. The recipients of the NXP Foundation Prize (women who have earned the highest level of achievement and recognition in their fields) will share their insights at very special panel events throughout the afternoon.

The NXP Foundation Women’s STEM Leadership Forum precedes the Society of Women Engineers Annual Conference, WE17, which will be held from October 26-28, 2017, also in Austin.

### 59. The Oregon Sea Grant: Summer Scholars (U) Biology, Ecology

- **Website Link:** [https://seagrant.oregonstate.edu/fellowships/summer-scholars](https://seagrant.oregonstate.edu/fellowships/summer-scholars)
- **Deadline(s):** February
- **Support Strategies:** Undergraduate students seeking a summer experience in marine biology or marine ecology
- **Funding:** $4,000

**Description:**

Scholars will be placed with the Oregon Sea Grant Program, a federal or state agency, or non-governmental organization, and will assist host agencies with field work, lab work, analyses, research, policy development, and/or outreach and public engagement efforts. They will be assigned to a specific project under a mentor and will be expected to dedicate at least 40 hours a week to the program. The program will provide students with training on subjects such as ecosystem-based management, professional and scientific communication, field- and lab-based scientific methods, natural resource policy development, public outreach, and roles of federal, state and local governments in natural resource management. The program may include field trips within Oregon and an opportunity for students to present their summer work. Scholars will be expected to participate in all program activities and complete a final project report during the last week of their experience.

### 60. Religious Research Association (U & G) Social Science, Religion

- **Website Link:** [http://www.rraweb.org/](http://www.rraweb.org/)
- **Grants:** [http://www.rraweb.org/constant-h-jacquet-research-awards/](http://www.rraweb.org/constant-h-jacquet-research-awards/)
- **Deadline(s):** April 30

Last edited November 2019

Provided by the Research Development
Stacey_L_Smith@baylor.edu X3252 or
Virginia_Kearney@baylor.edu X6833
Description: Constant H. Jacquet Research Awards: The Religious Research Association announces its annual competition for the Constant H. Jacquet Research Award to support research in religion. Research projects must use social scientific methods and perspectives to study aspects of religion, and all proposals must discuss how the research is applicable for religious organizations, leaders, and/or practitioners. We welcome applied, client-centered projects as well as social scientific research on any aspect of religion. Proposals from students, especially Ph.D. candidates, and scholars who are in the early stages of their careers are particularly encouraged. Applicants are required to be members of the RRA. Full-time students may join the Association at the time of their application. All others must hold membership in the RRA for at least one full year prior to the application deadline. Funding may be used for research expenses, but not for supplemental income or capital equipment. Grants in excess of $4,000 to a single recipient/agency are rare. Interested persons can obtain application instructions here.

Funding Sources List of potential interest to researchers in religion from other agencies.

61. The Rotary Foundation (U,G, & P) Social Sciences, Health, Business, etc.
Website Link: https://www.rotary.org/en/our-programs/grants
Description: To apply for a grant you must be a member of the Rotary Foundation. There are 2 different types of grants:
Global grants
Global grants support large international activities with sustainable, measurable outcomes in Rotary’s areas of focus. By working together to respond to real community needs, clubs and districts strengthen their global partnerships.
Read A Guide to Global Grants for detailed information on planning your project, applying for a grant to fund it, carrying it out, and reporting on your progress and outcome.
Global grants can fund:
- Humanitarian projects
- Scholarships for graduate-level academic studies
- Vocational training teams, which are groups of professionals who travel abroad either to teach local professionals about their field or to learn more about it themselves

District Grants
District grants fund small-scale, short-term activities that address needs in your community and communities abroad. Each district chooses which activities it will fund with these grants.
What district grants support:
- Humanitarian projects, including service travel and disaster recovery efforts
- Scholarships for any level, length of time, location, or area of study
- Youth programs, including Rotary Youth Exchange, Rotary Youth Leadership Awards (RYLA), Rotaract, and Interact
- Vocational training teams, which are groups of professionals who travel abroad either to teach local professionals about their field or to learn more about it themselves
You have plenty of freedom to customize your service projects. Refer to the Terms and Conditions for Rotary Foundation District Grants and Global Grants for information about district grant requirements.

62. Schlumberger Foundation (G & P) Science, Technology, Engineering, Mathematics, Women Scholars
Website Link: http://www.slb.com/about/foundation.aspx
Description: Ph.D. and post-doc fellowships for females in STEM fields
The Schlumberger Foundation is an independent nonprofit entity that supports science, technology, engineering, and mathematics (STEM) education. Recognizing the link between science, technology, and socio-economic development, as well as the key role of education in realizing individual potential, the Schlumberger Foundation flagship program is **Faculty for the Future**. Faculty for the Future provides Ph.D. and postdoc fellowships for women who work in science, technology, engineering and mathematics (STEM).

### 63. Science & SciLifeLab Prize for Young Scientists (P) Biology

<table>
<thead>
<tr>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Support Strategies:</strong> Funding for thesis research in life science fields</td>
<td><strong>Funding:</strong> $30,000 for the grand prize and $10,000 in each category</td>
</tr>
</tbody>
</table>

**Description:**
The Prize is awarded annually to one young scientist for outstanding life science research for which he/she was awarded a doctoral degree in the previous two years. The topic of the entrant's thesis research must be in one of the following categories: Cell and Molecular Biology, Genomics and Proteomics, Ecology and Environment, Translational Medicine. Eligible entrants must have been awarded their doctoral degree in 2015 or 2016, and the subject of their thesis should match one of the Subject Tracks below. The winners from each category will compete for the grand prize.

- Prize money: US$30,000 for the grand prize winner, US$10,000 for each of the category winners.
- Publication: The grand prize winning essay will be published in *Science* and essays from the each of the category winners will be published online.

**Application deadline:** July 15, 2017

**Rules of Eligibility**
- The research described in the entrant’s thesis must fall within one of the following categories (Subject Tracks):
  - **Cell and Molecular Biology:** research in this category will include cellular and molecular processes at levels ranging from single molecule to single cell to tissue and organ systems,
  - **Genomics and Proteomics:** research in this category focuses on **analyses of gene- and protein-related events**, at the scale of gene or protein networks to the complete set of genes or proteins in an organism,
  - **Ecology and Environment:** research in this category encompasses interactions between organisms and their environment, and how these processes are influenced by human activity,
  - **Translational Medicine:** research in this category builds on in vitro or animal model studies of biological processes to develop potential therapies or medical procedures.
- The prize will only recognize work that was performed while the entrant was a graduate student.
- The prize will be awarded without regard to sex, race, or nationality.
- Employees of Science/AAAS, collaborators in the management or sponsorship of this Prize and their relatives, as well as the following, are not eligible to enter:
  - Scientists who were Ph.D. students in the groups of any past or present member of the SciLifeLab management group (SciLifeLab Director, Co-Director, Infrastructure Director and Scientific Directors), the Integration Directors, or any member of the SciLifeLab Board.
  - Entrants for the 2018 prize must have been awarded their Ph.D. between January 1, 2016, and December 31, 2017. As a rule, we will only accept submissions once within this time period

**Procedures for Entry**
The entrant must submit the following items:
- A completed **Entry Form**.
- An essay, written by the entrant, describing the thesis work and its implications for research in the selected Subject Track. The essay must not exceed 1,000 words in length and may include one figure or table.
• A one-page reference letter from your advisor or a member of your thesis committee. The letter should include an assessment of the applicant and comment on the significance of the applicant’s research.
• The abstract of the thesis (not to exceed four double-spaced typed pages).
• A list of the following:
  • Full citations of all published or in press papers on the research described in the essay;
  • Academic and professional awards and honors that the entrant has received; and
  • Relevant professional experience.

The Entry Form and additional submission materials must be submitted electronically through our prize management system here.

Below is a timeline for the prize selection process.
You will be contacted only if there are additional materials or information needed.
• August/September: Compilation and Review of Submission
• October/November: Selection of Prize Winner
• December: Announcement of Prize Winner & Awards Ceremony in Stockholm

Deadline for Entries
• July 15, 2017

64. Shubert Foundation (G) Theater Arts
Website Link: http://www.shubertfoundation.org/grantprograms/education.asp
Support Strategies: Graduate drama departments of private universities
Funding: $10,000-$250,000
Description: A limited number of scholarships are made to graduate drama departments of private universities. These departments are evaluated principally in terms of their ability to train and develop theatre artists.

65. Siemens Foundation PATH Fellowships (U & G) Biology, Engineering, Chemistry, Mathematics
Website Link: https://www.siemens-foundation.org/programs/siemens-foundation-path-fellowships/
Support Strategies: 3 month long fellowships for STEM students
Funding: $13,200 for a 3 month period
Description:
A global health opportunity for science, technology, engineering, and math students. Launched in 2016, the Siemens Foundation has partnered with PATH, a leading global health organization to launch the Siemens Foundation PATH Fellowship Program. The program engages science, technology, engineering, and math (STEM) students in innovative, hands-on assignments that serve society by accelerating high-impact, low-cost solutions to some of the world’s most pressing health needs. Based in PATH’s Seattle, Washington, office, fellows are provided a meaningful research and laboratory experience and exposed to career opportunities in global health.

Advance Your Career
Siemens in conjunction with PATH is seeking a cohort of six undergraduate and graduate students to join this competitive program.

Fellowship Details
• Three-month, full-time (40 hours/week) assignment, May through August 2018 or June through September 2018.
• Housing: $1,400/month; $4,200 total per fellow (for those not currently based in Seattle).
• Wage: $3,000/month; $9,000 total per fellow.
• Desirable degrees include biomedical engineering, biochemistry, biomedical technology, biological sciences, biotechnology, and mathematical modeling.
Projects
Candidates may apply for one or more of the following (see four-digit code online for details):

- **Product Development Shop Fellow**
- **Laboratory Research Fellow**
- **About Path**

**PATH** is a leader in global health innovation. An international nonprofit organization, we save lives and improve health, especially among women and children. We accelerate innovation across five platforms — vaccines, drugs, diagnostics, devices, and system and service innovations—that harness our entrepreneurial insight, scientific and public health expertise, and passion for health equity. By mobilizing partners around the world, we take innovation to scale, working alongside countries primarily in Africa and Asia to tackle their greatest health needs. Together, we deliver measurable results that disrupt the cycle of poor health.

### 66. Smithsonian Institution (U, G, PD) Anthropology, Art and Art History, Biology, Chemistry, History

<table>
<thead>
<tr>
<th>Website Link: Opportunities: <a href="https://www.smithsonianofi.com/fellowship-opportunities/">https://www.smithsonianofi.com/fellowship-opportunities/</a></th>
<th>Deadline(s): Varies</th>
</tr>
</thead>
<tbody>
<tr>
<td>Application Deadlines: <a href="https://www.smithsonianofi.com/smsonian-fellowship-application-deadlines/">https://www.smithsonianofi.com/smsonian-fellowship-application-deadlines/</a></td>
<td>Funding: Varies</td>
</tr>
</tbody>
</table>

**Support Strategies:** Fellowships and research in a variety of fields including anthropology, art and art history, biology, chemistry, and history

**Description:** The Smithsonian Institutions have a wide variety of opportunities for research and study in any of the museums. The Smithsonian Opportunities for Research and Study (SORS) Guide is meant to help would-be researchers, students, fellows, interns, partnership-builders, and anybody else who is interested better navigate research and study opportunities at the Smithsonian.

If you're looking for a mentor, adviser, collection, or another opportunity at the Smithsonian that matches your study and/or research goals – this is a great place to start.

Looking for a particular topic area? Click **here** to open SORS as a pdf...search the whole document by any keyword.

**Research Associates** are senior experts in their field who maintain a formal scholarly affiliation with the Smithsonian. Their appointments last for three years but can be renewed. In some cases, Research Associates are given access to Smithsonian collections and facilities. In exchange, they bring their own outside expertise and knowledge to the Smithsonian for the increase and diffusion of knowledge to all.

With approval from a Smithsonian unit director, Research Associates are nominated by a member of the Smithsonian’s Research staff. Smithsonian Research Associate appointments are authorized by Smithsonian Directive SD-205, which can be seen **here**.

A list of Smithsonian’s Research staff can be found in the **Smithsonian Opportunities for Research and Study (SORS)**. You can apply to most internships and fellowships using our online application system – **SOLAA**.

### 67. Society for Classical Studies (U, G, & P) Classics, Philosophy

| --- | --- |

**Support Strategies:** Classical study research, scholarships, awards and fellowships

**Description:** The Society for Classical Studies (SCS), founded as the American Philological Association in 1869 by "professors, friends, and patrons of linguistic science," is the principal learned society in North America for the study of ancient Greek and Roman languages, literatures, and civilizations. While the majority of its members are university and college Classics teachers, members also include scholars in other disciplines, primary and secondary school teachers, and interested lay people. For over a century this community has relied on the Association to produce several series of scholarly books and texts; the journal, **TAPA**; and an annual meeting each January in conjunction with the Archaeological Institute of America.
The Society fosters programs to:

- Reassert the importance of primary and secondary school teaching and provide more support for improved pedagogy at all levels of teaching.
- Improve working conditions and scholarly opportunities for university and college teachers.
- Increase communication with audiences beyond its membership.
- Meet the scholarly needs of the profession.
- Coordinate and systematize data collection to provide an accessible and reliable information base to support Association goals.

Below lists awards, scholarships, and fellowships for students, teachers, and university and college faculty that are granted by national and regional classics societies and associations in the US. The list includes all SCS awards and fellowships.

| 68. The Society for Integrative and Comparative Biology (G) | Biology |
| Support Strategies: Graduate students in a Biology-related field | Funding: $2,000 |
| Description: The Fellowship of Graduate Student Travel (FGST) provides student funds for travel and other expenses at distant research laboratories, museums, or field sites. The primary purpose is for travel to "distant" research sites to conduct fieldwork, learn specialized techniques or to use unique equipment or collections. The Student Support Committee (SSC) expects to grant 3-4 fellowships of up to $2000 each year. The competition is open to student members of all SICB divisions. |
| Eligibility requirements: |
| • Previous recipients of any SICB award (GIAR or FGST) are not eligible. |
| • Awards are limited to graduate students currently enrolled in degree programs who are active members of SICB. Non-members must become members for the current grant year to be eligible to receive awards. Please also be sure to affiliate with one of SICB’s divisions as you will be asked to report your division affiliation on the grant application. |
| • If two or more applicants are working on part of a larger project but are applying separately for support, each one should identify the other applicant(s) of the project. Unless indicated to the contrary, the SSC will assume that failure to provide support for one applicant does not affect the ability of the other applicants to pursue their research. |
| Use of funding: |
| Awards are made payable to the individual recipients (please log in to SICB as a member and check the address associated with your membership; this is where funds will be sent!). No part of an award may be used for the payment of indirect costs to the recipient’s institution. All funds must be expended directly in support of the proposed investigation. Awards are made in amounts up to a maximum of $2,000. |
| Travel-related budget items that ARE supported by the FGST mechanism: |
| • Airfare to facilitate travel to a distant field site, field station, museum, or collaborator’s laboratory |
69. The Society for the Psychological Study of Social Issues

Website Link: [https://www.spssi.org/index.cfm?fuseaction=page.viewpage&pageid=730](https://www.spssi.org/index.cfm?fuseaction=page.viewpage&pageid=730)

**Deadline(s):** May 15 and Oct. 15

**Support Strategies:** Graduate student grants

**Funding:** $1000 to $2000

**Description:**
The Society for the Psychological Study of Social Issues is an organization of social scientists that has historically brought research to bear on a wide array of societal problems. SPSSI was organized during the Depression of the 1930s, in an attempt to bring together a “national group of socially minded psychologists” to address social and economic issues (Finison, 1979). While maintaining its status as an independently incorporated society, SPSSI also became an affiliated organization of the American Psychological Association from 1937 to 1945, and Division 9 of the APA from 1945 to the present (Kimmel, 1997). Below are links to SPSSI’s paper awards and research grants. Click on the link for more details about each award/grant. Unless otherwise noted, the awards are appropriate for graduate-level academic work. Applicants to the Applied Social Issues Internship Program must be college seniors or above and have project proposals.

**Applied Social Issue Internship**
For research that is conducted in cooperation with a community or government organization, public interest group or other not-for-profit entity that will benefit directly from the project.

**Clara Mayo Grants Program**
In support of masters' theses and pre-dissertation research on sexism, racism, or prejudice.

**Conference Travel Grants**
To cover all conference-related expenses including conference registration, economy transportation, lodging, and approved food expenses.

**Crosby-Spendlove Travel Grant**
Given to a student to travel and cover expenses for the SPSSI Biennial Conference in each year that the event falls.

**Distinguished Service to SPSSI Award**
Click here for a list of winners.

**Grants-in-Aid Program**
In support of scientific research in social problem areas related to the basic interests and goals of SPSSI and particularly those that are not likely to receive support from traditional sources.

**Gordon Allport Prize**
An award is given to the best paper or article of the year on intergroup relations.

**Innovative Teaching Award**
An award is given innovative teaching in areas related to the psychological study of social issues. This award recognizes effective courses, assignments, or classroom activities addressing social issues.

**Local- and State-Level Policy Work**
To enable small groups of researchers to engage in policy work at the state or local levels.

**Louise Kidder Early Career Award**
To recognize social issues researchers who have made substantial contributions to the field early in their careers.

**NEW! Lynn Stuart Weiss Lecture**
An annual lecture given at the APA convention in memory of Lynn Stuart Weiss, a promising young scholar whose interests centered on the science and art of politics, with a focus on world law.

**Michele Alexander Early Career Award**
Awarded in recognition of early career excellence in scholarship as well as in service.

**Otto Klineberg Award**
An award is given to the best paper or article of the year on intercultural or international relations.

**Outstanding Teaching & Mentoring Award**  
For outstanding teaching/mentoring in areas related to the psychological study of social issues.

**Kurt Lewin Award**  
Presented annually for "outstanding contributions to the development and integration of psychological research and social action."

**Social Issues Dissertation Award**  
For doctoral dissertations in psychology (or in a social science with psychological subject matter).

**SAGES Grants Program**  
For retired SPSSI members to apply their knowledge to helping solve social problems or to assist policy makers to solve social problems.

**SEAS Grants Program**  
Intended to promote awareness of SPSSI, to identify potential new members, and to promote SPSSI membership through small-scale events hosted by a member of the Society.

**Speaker at the National Institute for Teaching of Psychology**  
Recipient will represent SPSSI as a speaker at the National Institute for Teaching of Psychology (NITOP).

**SPSSI Teaching Grants**  
Intended to provide networking opportunities, promote awareness of SPSSI, and increase SPSSI membership through support of small scale events, initiatives that enhance SPSSI membership or pre-conference smaller meetings related to the teaching of social justice issues

**SPSSI Teaching Resources Award**  
Award for teaching resources to reward innovative activities, assignments, and projects related to psychological study of social issues

**NEW! Susan D. Dudley Early Career Research Grant Program**  
Established to encourage excellence in socially relevant research among early career professionals.

---

### 70.Stigler Center Ph.D. Dissertation Award (G) Business, Political Science, Government, Sociology

**Website Link:** [https://research.chicagobooth.edu/stigler/research/research-opportunities](https://research.chicagobooth.edu/stigler/research/research-opportunities)  
**Deadline(s):** June/July  
**Support Strategies:** Doctoral students completing their dissertation about political, economic, and cultural obstacles that affect working markets  
**Funding:** $15,000 and $7,500

**Description:** The Stigler Center will award up to three $15,000 or six $7,500 dissertation awards for PhD students who are currently in their third, fourth or fifth year and are in advanced stages of writing their dissertation about the political, economic, and cultural obstacles to better working markets. Topics include (but are not limited to):

- Effects of regulation on competition
- Impacts of campaign financing on legislation
- Corruption (institutional, political, and old-fashioned bribes)
- Crony capitalism
- Media capture
- Judicial capture
- Market design
- Antitrust

The award is open to PhD students in any area (not only Economics and Business, but also Political Science, Sociology, Law, Psychology, etc.), as long as their dissertations shed light on a relevant topic. The award is open to PhD students from all institutions (preference will be given to PhD students at the University of Chicago). The winners will receive $7,500 or $4,000 (depending on the award) upon notification of the Prize, and the remainder when they submit a completed version of the paper to be posted in the Stigler Working Paper series.
In addition to the award funds, the students will gain access to weekly Stigler lunches, where they will be able to present their work in progress.

71. Summer Research Program – Building Diversity in Biomedical Sciences (U) Health and Medicine

**Website Link:** [https://sackler.tufts.edu/admissions/nonDegreePrograms/BDBS](https://sackler.tufts.edu/admissions/nonDegreePrograms/BDBS)  
**Deadline(s):** February  
**Support Strategies:** Undergraduate students who are members of DECA and are pursuing a degree in a franchising or entrepreneurship field of study  
**Funding:** $4,000

**Description:** The Building Diversity in Biomedical Sciences (BDBS) Program offers a ten-week, mentored research experience for students interested in pursuing future Ph.D. or MD/Ph.D. studies. Although the focus of the BDBS training program is the research experience, participants receive training in written and oral communication of scientific data and learn about careers in biomedical science through workshops. They are also given guidance in applying to Ph.D. and MD/Ph.D. programs and interact with postbaccalaureate interns, graduate students and postdoctoral trainees to experience first hand the process of preparing for a career as a leader in biomedical science.

**Eligibility**
Applicants must have successfully completed at least one year of college and be US citizens or US permanent residents to participate in this summer program. Students who will graduate before the summer program starts are not eligible for BDBS, but might wish to consider our PREP program. The NIH and the Sackler School encourage applicants from members of groups that are under-represented in the biomedical sciences. The NIH has reported that groups under-represented in biomedical or behavioral research include African-American, Hispanic-American or Latino/an American Indian, Alaskan Native, and Pacific Islander and members of economically disadvantaged families and disabled persons.

72. The Symantec Research Labs Graduate Fellowship (G) Sociology, Business, Anthropology, Computer Science, Technology

**Website Link:** [https://www.symantec.com/about/careers/graduate-fellowship](https://www.symantec.com/about/careers/graduate-fellowship)  
**Deadline(s):** December  
**Support Strategies:** Ph.D. students conducting research related to privacy, security, machine learning, and data mining, or human factors  
**Funding:** $20,000, plus a salaried internship

**Description:** Symantec will award Symantec Research Labs (SRL) Graduate Fellowships to outstanding Ph.D. students who meet the eligibility criteria listed below. A key goal of the program is to fund innovative research that has real-world value, in areas where Symantec conducts business. Topics of interest include:

- **Privacy and Identity:** Applied and novel cryptographic schemes and other techniques for privacy and identity-protection objectives such as authorization, verifiable claims, trust, anonymity, ubiquitous and usable encryption, and privacy-preserving analytics with strong guarantees.
- **Security:** Achieve security objectives for systems, networks, mobile devices, internet of things, data centers and cloud, through such mechanisms as trusted hardware, secure programming languages, security by design, threat and malware characterization, auditing, and deception techniques.
- **Machine learning and data mining:** Scalable methods such as graph and time-series analyses, anomaly detection, natural language processing, online learning, and distributed model training, in support of the security and systems areas mentioned above, as well as robustness, interpretability, privacy, and accountability of ML systems.
- **Human Factors:** Applications of psychology, sociology, anthropology, behavioral economics, human-computer interaction, linguistics, and other human sciences to security and privacy. These include the use of technology for social good, effective privacy, security, and identity theft notifications, and both human-assisted AI and AI-assisted humans.

**Funding:**
The SRL Graduate Fellowship provides up to $20,000 USD that may be used to cover one year of the student’s tuition fees and to reimburse expenses incurred by the student to engage into research collaboration with Symantec, such as conference registration fees, travel expenses, hardware, etc. If the fellowship is to cover tuition, this portion of the award will be made through the university.

A second component of the award is a salaried internship with Symantec that we plan to offer to all fellowship recipients. Interns will usually work directly with Symantec Research Labs at one of our locations (Culver City, CA, USA; Mountain View, CA, USA; Dublin, Ireland; Sophia-Antipolis, France) or with another group within Symantec. Each recipient is paired with a mentor from Symantec. A mentor is a top researcher or engineer who can provide ongoing technical guidance on the recipient’s research during graduate training as well as during an internship at Symantec. All Fellowship applicants will be considered for internships and full-time employment with Symantec and may be encouraged to apply for open positions.

---

### 73. The Teagle Foundation

**Website Link:** [http://www.teaglefoundation.org/Home](http://www.teaglefoundation.org/Home)

**Support Strategies:** Grants for undergraduate education  
**Funding:** $5000 to $500,000

**Deadline(s):** Varies

**Description:**
The Teagle Foundation’s commitment to promoting and strengthening liberal arts education infuses all of our grantmaking. Our grant initiatives foreground the role of faculty – as teachers in the classroom, as masters of the curriculum, and as agents of change – to transform undergraduate education. Our grant initiatives emphasize collaboration among institutions to create a community of practice where faculty work to strengthen teaching and learning in the arts and sciences in concert with peers from partner institutions who share their goals. We seek strong alignment with institutional priorities to ensure sustainability of externally funded efforts beyond the life of the grant. And we are committed to robust dissemination of know-how and resources generated through our grants so they are useful to faculty and institutions beyond those initially funded.

The Teagle Foundation invites proposals from two- and four-year colleges, universities, higher education consortia, and non-profit entities that share our commitment to the liberal arts and aim to pursue programs under one of our current initiatives.

#### Education for American Civic Life

The charge of the Teagle Foundation is “to support and strengthen liberal arts education, which we see as fundamental to meaningful work, effective citizenship, and a fulfilling life.” Among the strengths of liberal arts education is the marriage of content and context to cultivate in students the knowledge and skills they need to achieve this vision. In consideration of “effective citizenship,” the Foundation is especially concerned with undergraduates’ knowledge about American democratic institutions and the general decline in civility in discourse within and beyond our campus communities.

[View RFP >](#)

#### Pathways to the Liberal Arts

Students and their families face myriad pressures as they navigate the process of enrolling in college. One of the most important decisions they can make in the college choice process is what to study. How can high school students get a deeper sense of what a rigorous liberal arts education offers so they can make educated choices about what to study as undergraduates? How can students who start their college careers at more affordable two-year institutions – and often express an interest in pursuing the liberal arts – be set on a well-marked pathway to complete the baccalaureate in the liberal arts? And how can students, regardless of where they are enrolled, have an enriching and enlarging liberal arts education that prepares them for lives of effective citizenship and satisfying work?

[View RFP >](#)

#### Liberal Arts and the Professions

A liberal arts education provides the intellectual scaffolding for students to learn “how to learn” in order to be successful in a variety of capacities. However, exposure to the liberal arts in professional programs typically
occurs in the form of general education distribution requirements that are not fully integrated into students’ undergraduate experience. This initiative challenges the prevailing mode of professional preparation by asking: How can institutions fully integrate and embed the liberal arts into undergraduate preparation for the professions?

View RFP >
View related grants >

Requests for grant support will be considered following our two-stage application process. First, we ask that prospective grantees share brief concept papers. After review of the concept papers, a limited number of applicants will then be invited to submit full proposals.

We request that prospective grantees share brief concept papers in response to our current Request for Proposals. After review of the concept papers, a limited number of applicants will then be invited to submit full proposals.

74. The Trimmer Travel Fund (U) Arts and humanities
Website Link: https://www.cur.org/trimmer_travel_fund/
Deadline(s): Varies

Support Strategies: Undergraduate students presenting research at professional meetings/conferences
Funding: covers travel to conference/meeting

Description: The fund will support A&H undergraduate scholars in presenting their research at professional meetings.

The fund was established by a gift from Joe and Carol Trimmer. Professor emeritus of English at Ball State University (Muncie, IN), Joe Trimmer is the founding director of the Virginia B. Ball Center for Creative Inquiry. He is the author of numerous books on literature and culture, and a contributor to 20 PBS documentaries. He has served on the CUR Executive Board as the representative of CUR’s Arts and Humanities Division, and as a member of the Board of Directors of Indiana Humanities. Carol Trimmer has served as the outreach coordinator for IPR, Ball State University’s NPR member station, as well as a member of the Board of Directors of Arts Place, a regional Indiana arts organization, and Muncie’s nonprofit Gallery 308.

The call for applications for the inaugural Trimmer Travel Fund award is expected to be issued in fall 2018, with the first award presented to a student participating in the May 2019 World Congress on Undergraduate Research in Oldenburg, Germany.

75. Western Society for French History Millstone Fellowship (G & P) History, Languages
Website Link: https://www.wsfh.org/millstone-research-fellowship/
Deadline(s): Varies

Support Strategies: Travel and research grants for the study of French history and culture
Funding: $2000-2,500 for research and study in France

Description: The Millstone Fellowship provides $2500 for research in France.

Eligibility is restricted to doctoral students, untenured and adjunct faculty members, and independent scholars who reside in North America and whose research related to French history and culture requires work in archives, libraries, or other repositories in France. Preference is given to doctoral students and scholars in the early stages of their academic careers.

Applications should include the following:

- A curriculum vitae with current contact information.
• A description of the project not to exceed 5 double-spaced pages, explaining its purpose and significance, its contribution to scholarship on France, and where and when the research is to be carried out.
• Two letters of recommendation. (Candidates are responsible for seeing that letters of recommendation arrive in a timely fashion.)

Applications must be e-mailed as Microsoft Word attachments (not PDF) to Nina Kushner (wsfhvicepresident@gmail.com).

Travel and Research Grant
Provides $2000 for research conducted outside North America to an American or Canadian scholar within five years of earning the doctorate in History. Awarded jointly by the Western Society for French History and the Society for French Historical Studies.

Eligibility
This award is granted to an outstanding American or Canadian scholar who has received the doctorate in History in the five-year period before the award (since January 2009 for the 2014 award). The award must be spent no more than one year after the fellowship is awarded.

Application Instructions
Please see detailed instructions on the Society for French Historical Studies website. Applications must include the following:
• A 2-page (single-spaced) project proposal explaining the nature and scope of the project and the archives and libraries to be consulted.
• A curriculum vitae.
• Two confidential letters of recommendation supporting the proposal. If sent electronically, these letters must be signed and scanned. If letters are sent by mail, the original must be sent to the committee chair, and copies must be sent to the other committee members.

76. WNENC-Student Entrepreneur Program (U & G) Science, Technology, Engineering, Arts, Mathematics, Business
Website Link: http://www.wbenc.org/student-entrepreneur-program/
Grants: http://www.wbenc.org/opportunities-1/

Description: Aspiring collegiate female entrepreneurs studying in STEAM (Science, Technology, Engineering, Arts, and Math) or Business receive mentoring from some of the most successful Women’s Business Enterprises and America’s largest Fortune 500 companies while also participating in a tailored entrepreneurial curriculum, a pitch competition awarding $20,000 in seed capital and experiential learning through off-site visits to Women’s Business Enterprises, corporate campuses, and accelerators.
Education and Grants
Dorothy B. Brothers Scholarship
Student Entrepreneur Program
Tuck-WBENC Executive and Strategic Growth Programs
WBENC Energy Executive Program

77. The Woodrow Wilson National Fellowship Foundation (G)
Philosophy/Religion, Business
Website Link: https://woodrow.org/fellowships/newcombe/
Support Strategies: Doctoral Dissertation Fellowships for the study of Philosophy, Religion, or foreign policy
Funding: 20 non-renewable Fellowships of $25,000
Description: For doctoral students studying in the U.S. only. This is intended as a fellowship for the final year of completing the dissertation. The Charlotte W. Newcombe Doctoral Dissertation Fellowships are designed to
encourage the original and significant study of ethical or religious values in all fields of the humanities and social sciences, and particularly to help Ph.D. candidates in these fields complete their dissertation work in a timely manner. In addition to topics in religious studies or in ethics (philosophical or religious), dissertations appropriate to the Newcombe Fellowship competition might explore the ethical implications of foreign policy, the values influencing political decisions, the moral codes of other cultures, and religious or ethical issues reflected in history or literature.
