What is the ID Card number?

The Baylor ID card number is printed on the ID card. It is used as a unique identifier in University information systems of the person to whom the card was issued. The number has meaning only at Baylor University. Additional information (like a PIN) must be provided along with this number to gain access to protected data. Security Issues

The ID Card System was developed with the purpose of providing you with an account and access security you need on campus. Each cardholder must help maintain the integrity of the system by immediately reporting lost cards and notifying the campus police or Parking Services if they witness the propping of doors, abuse of card readers, or unauthorized use of a person's ID card.

Lost or Damaged Cards

Lost ID cards should be deactivated immediately by Clicking Here and entering your Bearid and Password. Or you may call Parking Services during business hours at 254.710.MYID (6943).
If your card is damaged or does not perform needed functions as expected, it should be taken to Parking Services located in the Speight Parking Garage.

Replacement cards are issued from the Parking Services office. There is a $20 fee to replace a lost or damaged card. The fee goes onto the student's Baylor account.
