We provide students with a tennis experience that maximizes performance and increases enjoyment of the game. To accomplish this, we deliver a high-energy learning environment that is safe, positive, and most of all, fun!

Students will learn tennis strategy, mental toughness, positive behavior patterns and visualization. Students will participate in extensive point and game play, allowing them to incorporate everything they have learned into realistic match situations. We will focus on developing complete players who can perform in any match situation at any level.

IZAK VAN DER MERWE
