Notes about major requirements:

– For students pursuing the BS degree in Anthropology with a concentration in Forensic Anthropology, this major provides basic training in physical anthropology as well as an introduction to the subfield of forensic anthropology. Students will have the background to pursue graduate training in physical anthropology with an emphasis in forensic anthropology if they so choose. For students interested in pursuing a career in the forensic science field, it is recommended that the student also complete the minor in Forensic Science.

–ANT Subfields: The student must complete a minimum of three upper level (3000-4000) semester hours in ANT from each of the following subfields: Cultural Anthropology, Archaeology, and Biological Anthropology. See your degree audit for course offerings in each subfield.

–ANT/FORS Electives: The student must complete at least nine semester hours of advanced ANT/FORS electives, of which six hours must be ANT and three hours may be either ANT or FORS. **Note: ANT 4670, 4680, or 4690 (field school) may count as six hours advanced ANT. Field school must be completed during either the first or second summer session; it is recommended that a student complete field school in the summer between the junior and senior years.

– Lab Science Electives: Students must complete at least eight semester hours of science courses with appropriate labs from: BIO 1305/1105 (or 1405), 1306/1106 (or 1406); CHE 1301/1101, 1302/1102; ENV 1301/1101, 1303/1103; GEO 1405, 1406; NSC 1306/1106; PHY 1408 (or 1420), 1409 (or 1430).

– Science/Math Electives: The student must complete an additional twenty hours of science and mathematics courses from one or more of the following fields: Biology, Chemistry, Environmental Studies, Geology, Mathematics, Neuroscience, Physics, and Statistics. All courses selected must apply to a major in their respective departments. **Note: The total number of Science/Math Elective courses will vary depending on the number of lab courses taken.

*MAP has been modified in class order in order to maximize the time at the incoming community college.

– English requirement: Students majoring in the sciences may take ENG 3300 instead of ENG 1304.

– For more information, see the Baylor Undergraduate Catalog.

Please see reverse side for important information on general requirements.
