### Notes about major requirements:

- This interdisciplinary program is administered by the Department of Political Science and is designed for those who hope to work for the U.S. Department of State, the U.S. Information Agency, the U.S. Department of Commerce or other U.S. Government agencies engaged in international operations or agencies of the United Nations. This program would also be appropriate for those contemplating missionary service; preparation for the Peace Corps; those anticipating business assignments abroad or domestic assignments in international trade/finance; those preparing for careers in public relations or mass communications; those who wish to work for international foundations; those planning for teaching careers in international education; those expecting to become officers in the U.S. Airforce, Army, Navy, or Marine Corps; those who anticipate a career with the Central Intelligence Agency, Defense Intelligence Agency, Federal Bureau of Investigation, National Security Agency, or other intelligence organizations; or those seeking a strong liberal arts education but do not necessarily plan an international career.

- Those students who plan to attend graduate school should enroll in at least two undergraduate economics courses, ECO 2306 (Microeconomics) and ECO 2307 (Macroeconomics). It is recommended that students also enroll in PSC 4365 (International Politics).

- Intensive version: Requires six hours of advanced (3-4000 level) modern foreign language courses, in addition to the University basic language requirement. Courses must be limited to those that apply toward a major in that language and they cannot be courses taught in English; non-translation courses will not apply here. Students must also complete an internship related to international affairs or study abroad.

- For more information, see the Baylor Undergraduate Catalog.

*Because of the number of electives, there is enough room for a minor with this major.

Please see reverse side for important information on general requirements.
